On Monsters Stephen T. Asma, 2011-09 A comprehensive modern day bestiary The New Yorker

The Rise of Greg Chris Rylander, 2020-06-16 Magic and mayhem collide in the final book in the monstrously funny middle grade trilogy An Epic Series of Failures The Dawn of Magic has arrived and thirteen year old Greg Belmont and his friends have only a few weeks left to figure out how to keep the modern world from falling into utter chaos Greg's former best friend and current archenemy Edwin and his Elven army believe the only way to save the life on earth is to steal the world's magic supply and keep it only for the Elves But Greg knows Edwin must be stopped He and his friends will journey from the ancient forests of Russia to the bottom of the San Francisco Bay battling plenty of fierce creatures and gaining some surprising new allies along the way and back to the streets of Chicago for the final battle for the fate of magic on earth Will Greg and his friends save the world Or will epic failure strike again when it matters most

The Monsterology Handbook Ernest Drake, 2009 Dr Ernest Drake the world's preeminent dragonologist brings students this complete course in the study of mythical beasts and monsters

The Evolution of Imagination Stephen T. Asma, 2017-06-21 An ambitious and exciting book about creativity charts new territory Science Consider Miles Davis horn held high sculpting a powerful musical statement full of tonal patterns inside jokes and thrilling climactic phrases all on the fly Or a comedy troupe riffing on cues from the audience until the whole room erupts with laughter a team of software engineers brainstorming their way to the next Google or the Einsteins of the world code cracking the mysteries of nature Maybe it's simply a child playing with her toys What do all of these activities share With wisdom humor and joy philosopher Stephen T Asma answers that question imagination And from there he takes us on an extraordinary tour of the human creative spirit Guided by neuroscience animal behavior evolution philosophy and psychology Asma burrows deep into

the human psyche to look at the enigmatic powerful engine that is our improvisational creativity the source he argues of our remarkable imaginational capacity How he asks can a story evoke a whole world inside us How are we able to rehearse a skill a speech or even an entire scenario simply by thinking about it How does creativity go beyond experience and help us make something completely new And how does our moral imagination help us sculpt a better society As he shows we live in a world that is only partly happening in reality Huge swaths of our cognitive experiences are made up by what ifs almosts and maybes an imagined terrain that churns out one of the most overlooked but necessary resources for our flourishing possibilities Considering everything from how imagination works in our physical bodies to the ways we make images from the mechanics of language and our ability to tell stories to the creative composition of self consciousness Asma expands our personal and day to day forms of imagination into a grand scale as one of the decisive evolutionary forces that has guided human development from the Paleolithic era to today The result is an inspiring look at the rich relationships among improvisation imagination and culture and a privileged glimpse into the unique nature of our evolved minds People of the Image Marc Michael Epstein,2025-06-24 The Middle Ages provide us with one of the richest repositories of art in the West Yet the rise in the production of art made for and by Jews especially in the form of illuminated manuscripts is often neglected in general surveys or viewed as a mere emulation of Christian art during this period In People of the Image Marc Michael Epstein demonstrates how medieval Jews transformed their visual art into a vital site of critical commentary Through bold speculation and radical interpretation Epstein considers how viewers might have empathized with depicted emotions how they envisioned the relationship between the monstrous and the human and how they could effectively perpetrate subversive acts merely by anticipating what might occur next in a given image were it to be set in motion Examining these artworks and imagining the circumstances of their production and reception Epstein uncovers otherwise inaccessible social political and theological perceptions among Europe s major medieval minority He goes on to illuminate the afterlives of medieval Jewish art in its reimaginings by postmodern Jews struggling to establish a conceptual as well as a political space for themselves as a minority in majority Christian society Bringing together diverse currents from various fields and bodies of literature People of the Image reveals how medieval Jews understood themselves the world and God Provocative and engagingly written the book will appeal to audiences across medieval studies cultural studies art history and Jewish studies **School Library Journal** ,2009 **The Curse of Greg** Chris Rylander,2020-06-16 Magic and mayhem collide in this monstrously funny middle grade sequel to Chris Rylander s The Legend of Greg Now in paperback Greg Belmont longs for the days when he thought he was an ordinary thirteen year old before he learned he s really a fantastical Dwarf in a world where the return of magic has reignited an ancient feud between the Dwarves and the Elves But now that magic is spreading rapidly calling forth mythical monsters that are wreaking total havoc on earth he knows things will never go back to normal To make matters worse rumors are growing that the Elves are planning a sinister attack and their new leader might be none other than Greg s

former best friend Edwin Before they can say Galdervatn Greg and his Dwarven friends find themselves up against perilous dangers that their training has barely prepared them for Can Greg and his bloodthirsty talking ax keep them out of harm s way long enough to prevent all out war Or will epic failure find him yet again in this hilarious action packed sequel to The Legend of Greg *Monsterology* Ernest Drake,2008 Although dragonology was Dr Drake s vocation this title reveals that he spent time researching many other creatures from manticores and unicorns to gryphons centaurs and sea serpents
