The Most Maligned Women in History Samantha Morris, 2024-11-30 Examines the lives and legacies of historically vilified women questioning the truth behind accusations of witchcraft treason and murder Throughout history women from the lowliest of the working classes to the highest echelons of society have been accused of crimes ranging from witchcraft and vampirism to treason and mass murder Such accusations stuck particularly when it came to women who held power the names that we most associate with maligned women today include those that we will all have heard of The infamy of women such as Lucrezia Borgia and Elizabeth Bathory have come down to us throughout the centuries and even in the modern world many women are needlessly and falsely vilified But just how true were these accusations The Most Maligned Women in History takes a look at the lives of a number of women whose crimes have been seen as some of the most heinous just how true the rumors were and whether their reputations are deserved

Bringing History to Life through Film Kathryn Anne Morey, 2013-12-12 Whether re-creating an actual event or simply being set in a bygone era films have long taken liberties with the truth While some members of the audience can appreciate a movie without being distracted by historical inaccuracies other viewers are more discerning From revered classics like Gone with the Wind to recent award winners like Argo Hollywood films often are taken to task for their loose adherence to the facts But what obligation do filmmakers have to the truth when trying to create a two hour piece of entertainment In Bringing History to Life through Film The Art of Cinematic Storytelling Kathryn Anne Morey brings together essays that explore the controversial issue of film as a purveyor of history Examining a range of films including highly regarded features like The Last of the Mohicans and Pan's Labyrinth as well as blockbuster franchises like Pirates of the Caribbean chapters demonstrate that the debate surrounding the role of history on film is still as raw as ever

Organized in five sections these essays discuss the myths and realities of history as they are portrayed on film from Nostalgic Utopias to Myths and Fairy Tales The fourteen chapters shed light on how films both convey and distort historical realities to capture the essence of the past rather than the past itself Ultimately they consider what role cinema plays as the quintessential historical storyteller In addition to cinema and media studies this book will appeal to scholars of history and fans of a wide range of cinematic genres

The New Histories of International Criminal Law Immi Tallgren, Thomas Skouteris, 2019-03-21 The language of international criminal law has considerable traction in global politics and much of its legitimacy is embedded in apparently axiomatic historical truths This innovative edited collection brings together some of the world's leading international lawyers with a very clear mandate in mind to re-evaluate the dominant historiographical tradition in the field of international criminal law Carefully curated and with contributions by leading scholars The New Histories of International Criminal Law pursues three research objectives to bring to the fore the structure and function of contemporary histories of international criminal law to take issue with the consequences of these histories and to call for their demystification The essays discern several registers on which the received historiographical tradition must be retried tropology inclusions exclusions gender race representations of the victim and the perpetrator history and memory ideology and master narratives international criminal law and hegemonic theories and more This book intervenes critically in the fields of international criminal law and international legal history by bringing in new voices and fresh approaches Taken as a whole it provides a rich account of the dilemmas conundrums and possibilities entailed in writing histories of international criminal law beyond against or in the shadow of the master narrative

Simon V of Montfort and Baronial Government, 1195-1218 G. E. M. Lippiatt, 2017-08-04 Dissenter from the Fourth Crusade dispossessed earl of Leicester leader of the Albigensian Crusade prince of southern France Simon of Montfort led a remarkable career of ascent from mid-level French baron to semi-independent count before his violent death before the walls of Toulouse in 1218 Through the vehicle of the crusade Simon cultivated autonomous power in the liminal space between competing royal lordships in southern France in order to build his own principality This first English biographical study of his life examines the ways in which Simon succeeded and failed in developing this independence in France England the Midi and on campaign to Jerusalem Simon's familial social and intellectual connexions shaped his conceptions of political order which he then implemented in his conquests By analysing contemporary narrative scholastic and documentary evidence including a wealth of archival material this volume argues that Simon's career demonstrates the vitality of baronial independence in the High Middle Ages despite the emergence of centralised royal bureaucracies More importantly Simon's experience shows that barons themselves adopted methods of government that reflected a concern for accountability public order and contemporary reform ideals This study therefore marks an important entry in the debate about baronial responsibility in medieval political development as well as providing the most complete modern account of the life of this important but oft-overlooked crusader

Emperors of

Rome: The Monsters Paul Chrystal, 2018-11-30 As with everything else there were good and bad Roman emperors The good like Trajan 98117 Hadrian 117138 Antoninus Pius 138161 and Marcus Aurelius 161180 were largely civilized and civilizing The bad on the other hand were sometimes nothing less than monsters exhibiting varying degrees of corruption cruelty depravity and insanity It is a sobering thought that these ogres were responsible for governing the greatest civilization in the world simultaneously terrorizing brutalizing and massacring Tiberius Caligula Nero Domitian Commodus Caracalla Elagabalus Septimius Severus Diocletian Maximinus Thrax Justinian and Theodora all had more bad days than good they are all covered in this book Their exploits have of course been well documented since classical times but much of the coverage can only be called gratuitous sensationalist or tabloid This book is different because it is based on primary sources and evidence and attempts to balance out the shocking with any mitigating aspects in each of their lives Many of our monsters have some redeeming factors and it is important that these are exposed if a true record of their lives is to be conveyed The book also examines how each of the twelve has been treated for posterity in literature theatre and film and the lessons intended to be drawn from popular culture through the ages

The Worst Medieval Monarchs Phil Bradford, 2023-11-23 Stephen John Edward II Richard II Richard III These five are widely viewed as the worst of England's medieval kings Certainly their reigns were not success stories Two of these kings lost their thrones one only avoided doing so by dying another was killed in battle and the remaining one had to leave his crown to his opponent All have been seen as incompetent their reigns blighted by civil war and conflict They tore the realm apart failing in the basic duty of a king to ensure peace and justice For that all of them paid a heavy price As well as incompetence some also have reputations for cruelty and villainy More than one has been portrayed as a tyrant The

murder of family members and arbitrary executions stain their reputations All five reigns ended in failure As a result the kings have been seen as failures themselves the worst examples of medieval English kingship They lost their reputations as well as their crowns Yet were these five really the worst men to wear the crown of England in the Middle Ages Or has history treated them unfairly This book looks at the stories of their lives and reigns all of which were dramatic and often unpredictable It then examines how they have been seen since their deaths the ways their reputations have been shaped across the centuries The standards of their own age were different to our own How these kings have been judged has changed over time sometimes dramatically Fiction from Shakespeare s plays to modern films has also played its part in creating the modern picture Many things have created over a long period the negative reputations of these five Today they have come to number among the worst kings of English history Is this fair or should they be redeemed That is the question this book sets out to answer

The Myth of Mao Zedong and Modern Insurgency Francis Grice, 2018-05-22 Tackling one of the most prevalent myths about insurgencies this book examines and rebuts the popular belief that Mao Zedong created a fundamentally new form of warfare that transformed the nature of modern insurgency The labeling of an insurgent enemy as using Maoist Warfare has been a common phenomenon since Mao s victory over the Guomindang in 1949 from Malaya and Vietnam during the Cold War to Afghanistan and Syria today Yet this practice is heavily flawed This book argues that Mao did not invent a new breed of insurgency failed to produce a coherent vision of how insurgencies should be fought and was not influential in his impact upon subsequent insurgencies Consequently Mao s writings cannot be used to generate meaningful insights for understanding those insurgencies that came after him This means that scholars and policymakers should stop using Mao as a tool for understanding insurgencies and as a straw man against whom to target counterinsurgency strategies
