**Moral Choices** Scott B. Rae, 2000 Rae's *Moral Choices* helps readers navigate the rough waters of today's ethical dilemmas assisting them in making decisions and judging right from wrong both as individuals in terms of society. He explores such issues as abortion, reproductive technologies, euthanasia, capital punishment, war, and sexuality. Includes a chapter on genetic technologies and human cloning. *Moral Choices* Scott Rae, 2018-10-16 Outlining the distinctive elements of Christian ethics, *Moral Choices* is the standard text for college ethics courses. Moral questions are at the core of life's most vital issues. But today we see a breaking down of humanity's ability to distinguish between right and wrong. After describing a seven-step procedure for thinking through ethical dilemmas, author Scott Rae uses case studies to address some of today's most challenging ethical and social issues. He guides students in thinking critically and biblically about issues including Abortion, Euthanasia, Capital Punishment, Sexual Ethics, War, Technologies including reproductive and genetic, Ethics and Economics, Creation Care, and Animal Rights, Gun Control, Race, Gender, and Diversity, Immigration, Refugees, and Border Control. This book also introduces other ethical systems and their key historical proponents including Plato, Aristotle, Augustine, Thomas Aquinas, and Immanuel Kant. With its unique union of theory and application and its well-organized, easy-to-use design, the fourth edition of *Moral Choices* also offers extensive updates, revisions, and three brand-new chapters all designed to help students develop a sound and current basis for making ethical decisions in today's complex, postmodern culture. **FEATURES** Relevant Case Studies throughout. Discussion questions at the end of each chapter. Sidebars with case studies for discussion. Recommended further reading. **Moral Choices** Scott B. Rae, 2009 Now in its third edition, this foremost college ethics text helps students form a basis for practical ethical decision making in contemporary culture. Substantial updates and revisions include a new chapter on ethics and economics, online resources for instructors, current case studies, new material on bioethics and stem cell research, and more. **Essentials of Catholic Radicalism** Corneliu C. Simuț, 2011 The book describes the fundamental tenets of Catholic Radicalism, defined as an understanding of Christianity from a perspective which dismisses the traditional supernatural image of God. The essentials of Catholic Radicalism are extracted from the works of Vito Mancuso, a lay Italian theologian whose intention is to rebuild Christian theology starting from the natural and physical reality of this world. Mancuso insists that he is a Catholic theologian despite his conviction that God should be seen today in atheistic terms which help us understand the world from a rational perspective. The use of reason in theology is compulsory for Mancuso in order for theology to make sense in the skeptical society of our times, which is characterized by a powerful lay consciousness. **Fundamental Christian Ethics** Daniel Heimbach, 2022-11-01 In *Fundamental Christian Ethics*, Daniel Heimbach draws from decades of research and scholarship to introduce the field of Christian ethics in a comprehensive manner while showing how it dialogues with modern-day ethical topics and issues.

From Achilles to Superman Joseph J. McInerney, 2025-07-25 Decades of surveys show us that the American public has lost faith in its leaders We don't really need survey data to know this is true Just peruse your favorite source of media and you will see a distrust in leaders from all sides of the political spectrum It may be the only thing that our divided country agrees about Even the leadership education experts have lost faith in the clients they are supposed to educate After spending billions of dollars per year on leadership education those educators observe that leaders have never been less respected or more distrusted than they are today How can we escape our leadership predicament We can start with a basic insight that trust or distrust in a leader is often based on the ethics of that leader Yet many people including our leaders struggle to articulate what ethics is even about much less how it relates to leadership This book fills that gap by describing how our story of ethics has developed over the last 2 500 years and how understanding that story will help leaders regain the trust of a public that wants and needs their leaders to be worthy of trust
