Moral Psychology Introduction Mark Alfano:

Moral Psychology Mark Alfano, 2016-09-06 Moral psychology is the systematic inquiry into how morality works when it does work and breaks down when it doesn't work. In this comprehensive new textbook Mark Alfano outlines the five central concepts in the study of moral psychology: agency, patiency, sociality, temporality, and reflexivity. Subsequent chapters each assess a key area of research which Alfano relates both to the five central concepts and to empirical findings. He then draws out the philosophical implications of those findings before suggesting future directions for research. One of Alfano's guiding themes is that moral philosophy without psychological content is empty, whereas psychological investigation without philosophical insight is blind. He advocates and demonstrates a holistic vision that pictures moral psychology as a project of collaborative inquiry into the descriptive and normative aspects of the human condition. Featuring a glossary of technical terms, further reading sections, and chapter-by-chapter study questions, this rich systematic and accessible introduction to moral psychology will be suitable for both undergraduates and researchers in philosophy, psychology, and related fields.

Nietzsche's Moral Psychology Mark Alfano, 2019-08-29 Examines Nietzsche's thinking on the virtues using a combination of close reading and digital analysis. *The Moral Psychology of Sadness* Anna Gotlib, 2017-11-30 What does it mean to be sad? What difference does it make whether how and why we experience our own and other people's sadness? Is sadness always appropriate, and can it be a way of seeing more clearly into ourselves and others? In this volume a multi-disciplinary team of scholars from fields including philosophy, women's and gender studies, bioethics, and public health and neuroscience addresses these and other questions related to this nearly universal emotion that all of us experience and that some of us dread. Somewhat surprisingly, sadness has been largely ignored by philosophers and others within the humanities or else under-theorized as a subject worthy of serious and careful attention. This volume reverses this trend, presenting sadness as not merely a feeling or affect but an emotion of great moral significance that in important ways underwrites how

we understand ourselves and each other *The Moral Psychology of Contempt* Michelle Mason, 2018-03-28 The eye roll the smirk the unilateral lip curl These psychologists tell us are typical expressions of contempt Across cultures such expressions manifest an emotional response to norm violations among them moral norms As such contempt is of tremendous personal and social significance whether in the context of a marriage on the rocks or a country in the grips of racial unrest Scholarship on contempt however lags far behind that of other emotional responses to norm violations such as anger disgust and shame Introducing original work by philosophers and psychologists this volume addresses empirical questions concerning contempt's emotional cognitive and behavioural signature It invites the general reader to reflect on whether contempt is something to be embraced and cultivated as an emotional safeguard of valued norms or rather an emotion from which we have good reason perhaps overriding moral reason to distance ourselves so far as is psychologically possible Advancing the nascent literature on contempt while setting future research agenda the volume is a resource for advanced students and scholars of both empirical and normative moral psychology **The Moral Psychology of Anxiety** Samir Chopra, David Rondel, 2024-01-04 Edited by David Rondel and Samir Chopra The Moral Psychology of Anxiety presents new work on the causes consequences and value of anxiety Straddling philosophy psychology clinical medicine history and other disciplines the chapters in this volume explore anxiety from an impressively wide range of perspectives The first part is more historical exploring the meaning of anxiety in different philosophical traditions and historical periods including ancient Chinese Confucianism twentieth century European existentialism and the Roman Stoics The second part focuses on a cluster of questions having to do with anxiety's nature and significance Is anxiety something biological or cultural or perhaps both What is at the root of anxiety Why should human beings suffer in this way What is the experience of anxiety like and what if anything are the benefits associated with it Does anxiety have the potential to make us more virtuous or improve the quality of our inquiry Addressing an area where newer work in moral psychology is sorely needed this collection and the varied perspectives it offers will be of great interest to scholars professionals and students across philosophy psychology and related fields *The Moral Psychology of Shame* Alessandra Fussi, Raffaele Rodogno, 2023-02-01 Few emotions have divided opinion as deeply as shame Some scholars have argued that shame is essentially a maladaptive emotion used to oppress minorities and reinforce stigmas and traumas an emotion that leaves the self at the mercy of powerful others Other scholars however have argued that the absence of a sense of shame in a subject their shamelessness is tantamount to a vicious moral insensitivity As the eleven original chapters in this collection attest however shame scholars are entering a new phase one in which scholarship no longer attempts to defend one side of shame against the other but rather accepts both faces as faithful to the phenomenon to be explained At the core of our understanding of shame there are profound disagreements about the importance of the Other in shaping our moral identity As this collection shows by its study of shame the difficulty of the connection between Self Other and morality spans over millennia and cultures and currently animates important debates at

the core of feminism and disability studies Contributors Mark Alfano Alessandra Fussi Lorenzo Greco JeeLoo Liu Katrine Krause Jensen Heidi L Maibom Tjeert Olthof Imke von Maur Alba Montes Sanchez Raffaele Rodogno Alessandro Salice Krista K Thomason ngrid Vendrell Ferran *The Moral Psychology of Compassion* Justin Caouette, Carolyn Price, 2018-03-16

The Problem of Affective Nihilism in Nietzsche Kaitlyn Creasy, 2020-06-10 Nietzsche is perhaps best known for his diagnosis of the problem of nihilism Though his elaborations on this diagnosis often include descriptions of certain beliefs characteristic of the nihilist such as beliefs in the meaninglessness or worthlessness of existence he just as frequently specifies a variety of affective symptoms experienced by the nihilist that weaken their will and diminish their agency This affective dimension to nihilism however remains drastically underexplored In this book Kaitlyn Creasy offers a comprehensive account of affective

nihilism that draws on Nietzsche's drive psychology especially his reflections on affects and their transformative potential. After exploring Nietzsche's account of affectivity illuminating especially the transpersonal nature of affect in Nietzsche's thought and the phenomenon of affective nihilism, Creasy argues that affective nihilism might be overcome by employing a variety of Nietzschean strategies: experimentation, self-narration and self-genealogy.
