More Than Medicine A History Of The Feminist Womens Health Movement:

More Than Medicine Jennifer Nelson, 2015-03-06 This book reveals how feminists of the 60s and 70s applied the lessons of the new left and civil rights movements to generate a women's health movement. The new movement shifted from the struggle to revolutionize health care to the focus of ending sex discrimination and gender stereotypes perpetuated in mainstream medical contexts. Moving from the campaign for legal abortion to the creation of community clinics and feminist health centers, Nelson illustrates how these activists revolutionized health care by associating it with the changing social landscape in which women had power to control their own life choices.

More Than Medicine Jennifer Nelson, 2015-03-06 In 1948 the Constitution of the World Health Organization declared Health is a state of complete physical, mental, and social well-being and not merely the absence of disease or infirmity. Yet this idea was not predominant in the United States immediately after World War II, especially when it came to women's reproductive health. Both legal and medical institutions and the male legislators and physicians who populated those institutions reinforced women's second-class social status and restricted their ability to make their own choices about reproductive health care. In *More Than Medicine*, Jennifer Nelson reveals how feminists of the 60s and 70s applied the lessons of the new left and civil rights movements to generate a women's health movement. The new movement shifted from the struggle to revolutionize health care to the focus of ending sex discrimination and gender stereotypes perpetuated in mainstream medical contexts. Moving from the campaign for legal abortion to the creation of community clinics and feminist health centers, Nelson illustrates how these activists revolutionized health care by associating it with the changing social landscape in which women had power to control their own life choices. *More Than Medicine* poignantly reveals how social justice activists in the United States gradually transformed the meaning of health care, pairing traditional notions of medicine with less conventional ideas of healthy social and political environments.

Women's Activism and "Second Wave" Feminism Barbara Molony, Jennifer Nelson, 2017-02-09 This book is open access and available on www.bloomsburycollections.com. It is funded by Knowledge Unlatched. *Women's Activism and Second Wave Feminism* situates late 20th-century feminisms within a global framework of women's activism. Its chapters, written by leading international scholars, demonstrate how issues of heterogeneity, transnationalism, and intersectionality have transformed understandings of historical feminism. It is no longer possible to imagine that feminism has ever fostered an unproblematic sisterhood among women blind to race, ethnicity, class, sexuality, nationality, and citizenship status. The chapters in this collection modify the wave metaphor in some cases and in others reperiodize it. By studying individual movements, they collectively address several themes that advance our understandings of the history of feminism, such as the rejection of hegemonic feminism by marginalized feminist groups, transnational linkages among women's organizations, transnational flows of ideas, and transnational migration. By analyzing practical activism, the chapters in this volume produce new ways of theorizing feminism and new historical perspectives about the activist locations from which feminist politics emerged.

Including histories of feminisms in the United States Canada South Africa India France Russia Japan Korea Poland and Chile Women s Activism and Second Wave Feminism provides a truly global re appraisal of women s movements in the late 20th century *Transnational Feminism in Non-English Speaking Europe, c.1960-1990* Agnes Andeweg, Heidi Kurvinen, 2024-12-27 This edited collection aims to look beyond established narratives of feminist history by focusing on non English speaking European countries Recent scholarship on the history of the women s liberation movement in individual countries has enhanced our understanding of the importance of transnational influences in the history of European feminism and problematised the periodisation of feminisms Additionally the translation of feminist practices and texts have received interest during the past years Despite this work the United States and to a lesser extent the United Kingdom are still the main points of reference in histories of post war feminism This book asks what happens to the picture if we place non English speaking European countries in the centre Using Lucy Delap s concept of mosaic feminism its contributors emphasise the variety of patterns that women s feminist organising showed in different cultural contexts despite similarities in their ideological corner stones

Feminist Perspectives on Advertising Kim Golombisky, 2018-11-29 This volume edited by Kim Golombisky applies an intersectional lens to advertising focusing on gender race ethnicity sexuality disability age class and nationality Intersectional feminist perspectives on advertising are rare in the advertising industry even as it faces pressure to reform This anthology focuses on advertising messaging to follow up the professional practices covered in *Feminists Feminisms and Advertising* edited by Kim Golombisky and Peggy Kreshel In this new collection contributors write from a variety of perspectives including Black African lesbian transnational poststructuralist material commodity and environmental feminisms The authors also discuss the reproductive justice framework feminist disability studies feminist ethnography feminist discourse analysis and feminist visual rhetoric Together these scholars introduce big ideas for feminist advertising studies The first section titled Historicize This includes work dealing with historicized analyses of advertising ranging from more than a century of stereotypes about black women to early twentieth century white women purchasing automobiles all contextualized with women s complex relations with technologies from cars to Twitter The second section Advertising Body Politics groups work on topics related to body politics in advertising including lesbians disabled women aging women and Chinese promotion girls The third section Media Reps revisits advertising representation in novel ways from operational definitions of race and advertising news about gay men to advertising twenty first century masculinities in Ghana and the United States The last section Reproduction and Postfeminist Empowerment ends the book with a selection of case studies on the advertising industry s cooptation and commodification of feminism particularly in regressive postfeminist ideologies about women s reproductive health and mothering

Disability Dialogues Andrew J. Hogan, 2022-11-29 A historical look at how activists influenced the adoption of more positive inclusive and sociopolitical views of disability Disability activism has fundamentally changed American society for the better and along with it the views and practices of

many clinical professionals After 1945 disability self advocates and family advocates pushed for the inclusion of more positive inclusive and sociopolitical perspectives on disability in clinical research training and practice In Disability Dialogues Andrew J Hogan highlights the contributions of disabled people along with their family members and other allies in changing clinical understandings and approaches to disability Hogan examines the evolving medical social and political engagement of three postwar professions clinical psychology pediatrics and genetic counseling with disability and disability related advocacy Professionals in these fields historically resisted adopting a more inclusive and accepting perspective on people with disabilities primarily due to concerns about professional role identity and prestige In response to the work of disability activists however these attitudes gradually began to change Disability Dialogues provides an important contribution to historical sociological and bioethical accounts of disability and clinical professionalization Moving beyond advocacy alone Hogan makes the case for why present day clinical professional fields need to better recruit and support disabled practitioners Disabled clinicians are uniquely positioned to combine biomedical expertise with their lived experiences of disability and encourage greater tolerance for disabilities among their colleagues students and institutions

At the Heart of It All? Anne Overbeck, 2019-01-29 The structure of the African American family has been a recurring theme in American discourse on the African American community The role of African American mothers especially has been the cause of heated debates since the time of Reconstruction in the 19th century The discourse which often saw the African American family as something that needed fixing also put the issue of women's reproductive rights on the political agenda Taking a long term perspective from the 1920s to the early 1990s Anne Overbeck aims to show how normative notions of the American family influenced the perspective on the African American family especially African American women The book follows the negotiations on African American women's reproductive rights within the context of eugenics modernization theory overpopulation and the War on Drugs Thereby it sets out to trace both continuities and changes in the discourse on the reproductive rights of African American women that still influence our perspective on the African American family today

Reproduction and Society Carole Joffe, Jennifer Reich, 2025-05-30 The new edition of Reproduction and Society assembles an authoritative collection of the best scholarship on reproductive matters to help students and readers think critically and more expansively about acts of reproduction as social phenomena The social political and personal meanings of reproduction have become increasingly important and surround us in the news during elections and even within popular culture In the aftermath of the United States Supreme Court's decision to overturn a nearly 50 year old precedent guaranteeing a constitutional right to abortion these issues have become even more pressing Exploring the topic from a sociological lens and drawing on influential writing from other fields including history economics anthropology and medicine editors Carole Joffe and Jennifer Reich are assured and accessible guides as they lead readers across six core thematic areas analyzing reproductive self determination and why it matters From a reproductive justice perspective the new edition examines issues

related to contraception and sterilization abortion pregnancy maternal fetal conflicts and uses of reproductive technologies Readers will encounter classical texts that have contributed to the foundation of this exciting field as well as more recent research that continues to push the field forward all in the service of sharpening their understanding of why reproductive politics have been and continue to be contentious complicated and high stakes Refreshed and significantly expanded with over two dozen new selections the second edition of this reader will have wide appeal for undergraduate and graduate students who are new to the study of reproduction both in courses that focus on the topic across different disciplines and as a supplement to courses on the family gender health care social problems and sexuality **Family Values** Isabel

Heinemann, 2023-10-04 Clashes over the American family and its values have always implicitly or explicitly addressed issues of gender and highlighted the significance of present and future families to American society This is the insight underpinning Isabel Heinemann's groundbreaking study which traces over the course of the twentieth century debates on the family and its role the relationship between the individual and society and individual decision making rights as well as their denial or curtailment Unpacking these issues in a vivid and innovative analysis the book recounts the prehistory of current conflicts over the family and gender while illuminating the relationship between social change normative shifts and the counter movements spawned in response to them Interrogating Gendered Pathologies Erin Clark, Michelle F. Eble, 2020-09-01

Interrogating Gendered Pathologies points out and critiques unjust patterns of pathology Erin A Frost and Michelle F Eble assemble a transdisciplinary approach from to technologies rhetorics philosophies epistemologies and biomedical data to consider the effects of biomedicine's gendered norms on people's lives Using a range of complementary and intersectional theoretical approaches contributors ask questions about rhetoric's role in healthcare and how it differs depending on patient embodiment and the ways nonnormative bodies are pathologized These chapters engage common narratives about the ways in which gender in healthcare is secondary and highlights the stories of people who have battled to prioritize their own bodies through extraordinary difficulties Employing a multiplicity of voices the book represents a number of different perspectives on what it might look like to return health and medical data to embodied experience to consider the effects of gendered and intersectional biomedical norms on lived realities and to subvert the power of institutions in ways that move us toward biomedical justice This collection contributes to the burgeoning field of health and medical rhetorics by rhetorically and theoretically intervening in what are often seen as objective and neutral decisions related to the body and to scientific and medical data about bodies Interrogating Gendered Pathologies will be of interest to feminist scholars in the field of rhetoric and writing studies specifically those in the rhetorics of health and medicine as well as scholars of technical communication feminist studies gender studies technoscience studies and bioethics Contributors Leslie Anglesey Mary Assad Beth Boser Lillian Campbell Marleah Dean Lori Beth De Hertogh Leandra Hernandez Elizabeth Horn Walker Caitlin Leach Jordan Liz Miriam Mara Cathryn Molloy Kerri Morris Maria Novotny Sage Perdue Colleen Reilly **Technology, health,**

and the patient consumer in the twentieth century Rachel Elder, Thomas Schlich, 2025-02-18 Technology and consumerism are two characteristic phenomena in the history of medicine and healthcare yet the connections between them are rarely explored by scholars. In this edited volume the authors address this disconnect noting the ways in which a variety of technologies have shaped patients' roles as consumers since the early twentieth century. Chapters examine key issues such as the changing nature of patient information and choice, patients' assessment of risk and reward and matters of patient role and of patient demand as they relate to new and changing technologies. They simultaneously investigate how differences in access to care and in outcomes across various patient groups have been influenced by the advent of new technologies and consumer based approaches to health. The volume spans the twentieth and twenty first centuries, spotlights an array of medical technologies and health products and draws on examples from across the United States and United Kingdom.

Health Law Anne-Maree Farrell, John Devereux, Isabel Karpin, Penelope Weller, 2017-05 Health Law Frameworks and Context adopts a theoretically informed and principles based approach to examining health law. Appealing to students and academic scholars alike, the text moves beyond traditional medical law frameworks to provide a broader contextual understanding of the way in which law intersects with health.

Fighting for Control Lina-Maria Murillo, 2025-01-07 *In Her Hands* Dr. Emma Day, 2023-08-01 *In Her Hands* examines the various strategies women have utilized to fight for recognition as individuals vulnerable to and living with HIV/AIDS across multiple settings since the 1980s. Taking a new chronological and thematic approach to the study of the US epidemic, it explores five arenas of women's AIDS activism: transmission and recognition, reproductive justice, safer sex campaigns for queer women, the carceral state and HIV prevention and treatment. In so doing, it moves the historical understanding of women's experiences of AIDS beyond their exclusion from the initial medical response and the role women played as the supporters of gay men. Asking how and on what terms women succeeded in securing state support, *In Her Hands* argues that women protesting the neglect of their health care needs always risked encountering punitive intervention on behalf of the symbolic needs of fetuses and children as well as wider society deemed to need protecting from them.

Reproductive Justice Patricia Zavella, 2020-05-19 2021 Outstanding Academic Title Choice Magazine Shows how reproductive justice organizations collaborative work across racial lines provides a compelling model for other groups to successfully influence change Patricia Zavella experienced firsthand the trials and judgments imposed on a working professional mother of color her own commitment to academia was questioned during her pregnancy as she was shamed for having children too young And when she finally achieved her professorship she felt out of place as one of the few female faculty members with children These experiences sparked Zavella s interest in the movement for reproductive justice In this book she draws on five years of ethnographic research to explore collaborations among women of color engaged in reproductive justice activism While there are numerous organizations focused on reproductive justice most are racially specific such as the National Asian Pacific American Women s Forum and Black Women for Wellness Yet Zavella reveals that many of these organizations have built coalitions among themselves sharing resources and supporting each other through different campaigns and struggles While the coalitions are often regional or even national the organizations themselves remain racially or ethnically specific presenting unique challenges and opportunities for the women involved Zavella argues that these organizations provide a compelling model for negotiating across differences within constituencies In the context of the war on women s reproductive rights and its disproportionate effect on women of color and increased legal violence toward immigrants and now incorporating an updated preface addressing the Dobbs decision which struck down Roe v Wade The Movement for Reproductive Justice demonstrates that a truly intersectional movement built on grassroots organizing culture shift work and policy advocating can offer visions of strength resiliency and dignity for all *Here Are My People*

David A. Reichard, 2024-06-01 Beginning in the late 1960s and throughout the 1970s a new generation of LGBT students in California began to organize publicly on college and university campuses inspired by contemporaneous social movements and informed by California s rich history of LGBT community formation and political engagement *Here Are My People* documents how a trailblazing group of queer student activists in California made their mark on the history of the modern LGBTQ movement and paved the way for generations of organizers who followed Rooted in extensive archival research and original oral histories *Here Are My People* explores how this organizing unfolded comparing different regions types of campuses and diverse student populations Through campus based organizations and within women s studies programs and despite various forms of reactionary resistance student organizers promoted LGBT themed educational programming and changes to curriculum provided peer support like counseling and hotlines and sponsored events showcasing queer creative practices

including poetry theater and film Collaborating across various campuses they formed regional and statewide alliances And importantly LGBT student organizers engaged California s vibrant gay liberation and lesbian feminist political communities forging new and important relationships in the movement which enhanced both on and off campus LGBT organizing
