Since 1996, T-System employees have worked hard to develop powerful solutions that positively impact the effectiveness of emergency care – today supporting more than 30 million patients every year. We achieved this through our deep knowledge of emergency medicine, our relationships with our clients and our relationships with each other.

We believe that coming to work should never be a job, but a place where you can innovate amongst friends and family. This pictorial takes an inside look at a few of the employees that make up T-System to depict how a strong corporate family lends itself to a strong company.

**The Christian Moses** Jaeda Charlotte Calaway, 2019-11-21 Two verses about Moses in the Bible have been the subject of debate since the first century In Exodus 33:20 God tells Moses that no one can see God and live but Numbers 12:8 says that Moses sees the form of the Lord How does one reconcile these two opposing statements Did Moses see God and who gets to decide The Christian Moses investigates how ancient Christians from the New Testament to Augustine of Hippo resolved questions of who can see God how one can see God and what precisely one sees Jaeda Calaway explains that the decision about whether and how Moses saw God was not a neutral exercise for an early Christian Rather it established the interpreter's authority to determine what was possible in divine human relations and set the parameters for the nature of humanity As a result Calaway argues interpretations of Moses' visions became a means for Jews and Christians to jockey for power allowing them to justify particular social arrangements relations and identities to assert the limits of humans in the face of divinity and to create an Other Seeing early Christians with new eyes The Christian Moses reassesses how debates on Moses' visions from the first through the fifth centuries were in reality debates on the boundaries of humanity
