One Magisterium How Nature Knows Through Us:

One Magisterium, 2014 *Liberating Sociology: From Newtonian Toward Quantum Imaginations: Volume 1: Unriddling the Quantum Enigma* Mohammad H. Tamdgidi, 2020-01-20 In this major new study in the sociology of scientific knowledge social theorist Mohammad H Tamdgidi reports having unriddled the so called quantum enigma This book opens the lid of the Schrödinger's Cat box of the quantum enigma after decades and finds something both odd and familiar Not only the cat is both alive and dead it has morphed into an elephant in the room in whose interpretation Einstein Bohr Bohm and others were each both right and wrong because the enigma has acquired both localized and spread out features whose unriddling requires both physics and sociology amid both transdisciplinary and transcultural contexts The book offers in a transdisciplinary and transcultural sociology of self knowledge framework a relativistic interpretation to advance a liberating quantum sociology Deeper methodological grounding to further advance the sociological imagination requires investigating whether and how relativistic and quantum scientific revolutions can induce a liberating reinvention of sociology in favor of creative research and a just global society This however necessarily leads us to confront an elephant in the room the quantum enigma In *Unriddling the Quantum Enigma* the first volume of the series commonly titled *Liberating Sociology From Newtonian toward Quantum Imaginations* sociologist Mohammad H Tamdgidi argues that unriddling the quantum enigma depends on whether and how we succeed in dehabituating ourselves in favor of unified relativistic and quantum visions from the historically and ideologically inherited classical Newtonian modes of imagining reality that have subconsciously persisted in the ways we have gone about posing and interpreting or not the enigma itself for more than a century Once this veil is lifted and the enigma unriddled he argues it becomes possible to reinterpret the relativistic and quantum ways of imagining reality including social reality in terms of a unified nonreductive creative dialectic of part and whole that fosters quantum sociological imaginations methods theories and practices favoring liberating and just social outcomes The essays in this volume develop a set of relativistic interpretive solutions to the quantum enigma Following a survey of relevant studies and an introduction to the transdisciplinary and transcultural sociology of self knowledge framing the study overviews of Newtonianism relativity and quantum scientific revolutions the quantum enigma and its main interpretations to date are offered They are followed by a study of the notion of the wave particle duality of light and the various experiments associated with the quantum enigma in order to arrive at a relativistic interpretation of the enigma one that is shown to be capable of critically cohering other offered interpretations The book concludes with a heuristic presentation of the ontology epistemology and methodology of what Tamdgidi calls the creative dialectics of reality The volume essays involve critical comparative integrative reflections on the relevant works of founding and contemporary scientists and scholars in the field This study is the first in the monograph series *Tayyeb Series in East West Research and Translation of Human Architecture Journal of the Sociology of Self Knowledge* XIII 2020 published by OKCIR Omar Khayyam

Center for Integrative Research in Utopia Mysticism and Science Utopystics OKCIR is dedicated to exploring in a simultaneously world historical and self reflective framework the human search for a just global society It aims to develop new conceptual methodological theoretical historical practical pedagogical inspirational and disseminative structures of knowledge whereby the individual can radically understand and determine how world history and her his selves constitute one another Reviews Mohammad H Tamdgidi s Liberating Sociology From Newtonian Toward Quantum Imaginations Volume 1 Unriddling the Quantum Enigma hits the proverbial nail on the head of an ongoing problem not only in sociology but also much social science namely many practitioners allegiance consciously or otherwise to persisting conceptions of science that get in the way of scientific and other forms of theoretical advancement Newtonianism has achieved the status of an idol and its methodology a fetish the consequence of which is an ongoing failure to think through important problems of uncertainty indeterminacy multivariation multidisciplinary and false dilemmas of individual agency versus structure among many others Tamdgidi has done great service to social thought by bringing to the fore this problem of disciplinary decadence and offering in effect a call for its teleological suspension thinking beyond disciplinarity through drawing upon and communicating with the resources of quantum theory not as a fetish but instead as an opening for other possibilities of social including human understanding The implications are far reaching as they offer as the main title attests liberating sociology from persistent epistemic shackles and thus many disciplines and fields connected to things social This is exciting work A triumph The reader is left with enthusiasm for the second volume and theorists of many kinds with proverbial work to be done Professor Lewis R Gordon Honorary President of the Global Center for Advanced Studies and author of Disciplinary Decadence Living Thought in Trying Times Routledge Paradigm 2006 and Freedom Justice and Decolonization Routledge forthcoming 2020 Social sciences are still using metatheoretical models of science based on 19th century newtonian concepts of time and space Mohammad H Tamdgidi has produced a tour de force in social theory leaving behind the old newtonian worldview that still informs the social sciences towards a 21st century non dualistic non reductionist transcultural transdisciplinary post Einsteinian quantum concept of TimeSpace Tamdgidi goes beyond previous efforts done by titans of social theory such as Immanuel Wallerstein and Kyriakos Kontopoulos This book is a quantum leap in the social sciences at large Tamdgidi decolonizes the social sciences away from its Eurocentric colonial foundations bringing it closer not only to contemporary natural sciences but also to its convergence with the old Eastern philosophical and mystical worldviews This book is a masterpiece in social theory for a 21st century decolonial social science A must read Professor Ramon Grosfoguel University of California at Berkeley Tamdgidi s Liberating Sociology succeeds in adding physical structures to the breadth of the world changing vision of C Wright Mills the man who mentored me at Columbia Relativity theory and quantum mechanics can help us to understand the human universe no less than the physical universe Just as my Creating Life Before Death challenges bureaucracy s conformist orientation so does Liberating Sociology liberate the infinite possibilities inherent in us Given our

isolation in the Coronavirus era we have time to follow Tamdgidi in his journey into the depth of inner space where few men have gone before It is there that we can gain emotional strength just as Churchill Roosevelt and Mandela empowered themselves That personal development was needed to address not only their own personal problems but also the mammoth problems of their societies We must learn to do the same Bernard Phillips Emeritus Sociology Professor Boston University

Recovering Nature John P. O'Callaghan, Thomas S. Hibbs, 2016-10-11 The recovery of nature has been a unifying and enduring aim of the writings of Ralph McInerny Michael P Grace Professor of Medieval Studies at the University of Notre Dame director of the Jacques Maritain Center former director of the Medieval Institute and author of numerous works in philosophy literature and journalism While many of the fads that have plagued philosophy and theology during the last half century have come and gone recent developments suggest that McInerny's commitment to Aristotelian Thomism was boldly if quietly prophetic In his persistent clear and creative defenses of natural theology and natural law McInerny has appealed to nature to establish a dialogue between theists and non theists to contribute to the moral and political renewal of American culture and particularly to provide some of the philosophical foundations for Catholic theology This volume brings together essays by an impressive group of scholars including William Wallace O P Jude P Dougherty John Haldane Thomas DeKoninck Alasdair MacIntyre David Solomon Daniel McInerny Janet E Smith Michael Novak Stanley Hauerwas Laura Garcia Alvin Plantinga Alfred J Freddoso and David B Burrell S C

Exodus from Rome Volume 1 Dr. Todd D. Baker, 2014-05-01 Written by a former Roman Catholic of eighteen years and former candidate for the Roman Catholic priesthood Dr Todd Baker objectively and honestly examines the grandiose claims of the Papacy and the Roman Catholic Church in the critical light of Scripture and the evidence of history to show where Rome has greatly erred This multi volume work provides a controversial overview on the basic doctrines distinctive of Roman Catholicism so the open Catholic can learn how these beliefs practices and traditions of Rome contradict Scripture and do not have the support of a consistent uniform history from the days of Jesus the apostles and the first three centuries of the early church and on With over 1 billion adherents to the Roman Catholic Church it is incumbent for the Bible believer to know the difference between the real Gospel of Scripture versus the Gospel of Rome and how they are not one and the same Gospel in the end In a day of man pleasing ecumenical compromise with Rome this book is sorely needed to remind the Protestant church that the real differences between Rome and the Bible have not changed since the Reformation and must be reiterated and defended today on the exclusive ground of Scripture alone being the supreme authority in faith and practice for every Christian believer Dr Todd D Baker is president of Brit Hadashah Ministries and Pastor of Shalom Shalom Messianic Congregation in Dallas Texas He holds a Bachelor of Science degree in biblical studies a Master of Theology degree from Dallas Theological Seminary and a Ph D in Philosophy and Apologetics from Trinity Seminary under the auspices of Liverpool University at Liverpool England He is the staff theologian and writer for Zola Levitt Ministries and has appeared on the television program Zola Levitt Presents several

The Development of Moral Theology Charles E.

Curran,2013-11-08 Charles Curran in his newest book The Development of Moral Theology Five Strands brings a unique historical and critical analysis to the five strands that differentiate Catholic moral theology from other approaches to Christian ethics sin and the manuals of moral theology the teaching of Thomas Aquinas and later Thomists natural law the role of authoritative church teaching in moral areas and Vatican II Significant changes have occurred over the course of these historical developments In addition pluralism and diversity exist even today as illustrated for example in the theory of natural law proposed by Cardinal Ratzinger In light of these realities Curran proposes his understanding of how the strands should influence moral theology today A concluding chapter highlights the need for a truly theological approach and calls for a significant change in the way that the papal teaching office functions today and its understanding of natural law In a work useful to anyone who studies Catholic moral theology The Development of Moral Theology underscores in the light of the historical development of these strands the importance of a truly theological and critical approach to moral theology that has significant ramifications for the life of the Catholic church

Article 36 of the Belgic Confession Vindicated against Dr. Abraham Kuyper Philippus Jacobus Hoedemaker, 2019-05-01 To this day Abraham Kuyper stands as a shining example of responsible and effective Christian action in all areas of life A leading journalist theologian churchman and politician in the late 19th and early 20th centuries Kuyper effectuated during a career spanning 50 years an astonishing metamorphosis of the Dutch political and ecclesiastical landscape Lifting high the banner of the universal lordship of Christ he managed to revitalize a moribund political party and mobilize the so called kleyne luyden the little guys into a social ecclesiastical educational and political force to be reckoned with And he did all of this while proclaiming There is not a square inch in the whole domain of our human existence over which Christ who is Sovereign over all does not cry Mine What is less well understood is the degree to which Kuyper spoke out of two sides of his mouth In fact Kuyper shortchanged his trumpeted Christocratic agenda in the interest of political expediency From early on he redefined theological categories in order to implement a dualism between church and state that could allow him to harness the church as a political action committee in the secularized democratic environment all the while posturing as a champion of historic Christian theopolitical civilization The epicenter of this revaluation of Christian values was Article 36 of the Belgic Confession which mandated that the civil magistrate remove and prevent all idolatry and false worship that the kingdom of anti christ may be thus destroyed and the kingdom of Christ promoted This in the view of Kuyper and his movement was a denial of true Calvinism which championed freedom of conscience and religion Hoedemaker disputed this arguing that Kuyper had set up a straw man Did Article 36 really entail violation of conscience and the elimination of religious freedom No this was a smokescreen In fact Kuyper's solution was the problem as it did not take the Bible seriously Hoedemaker returned to the Reformed fathers to recover a sound Reformed political theology capable of being defended and advanced in the modern world Hoedemaker had once stood shoulder to shoulder with Kuyper to advance the very same agenda of Christ's lordship over every area of life But he came to realize that Kuyper's practical agenda deviated fundamentally from this proclaimed agenda starting with the separation from the national church and culminating in Kuyper's mutilation A A van Ruler of Article 36 This book presents Hoedemaker's argument involving a detailed analysis of Kuyper's

Montzka Harold W. Montzka,Harold W. Montzka,2010-02 Unlike today s world religious views the belief in one Supreme Being was once a widespread phenomenon In The Separation of Heaven and Earth author Harold Montzka provides evidence of this contemporary view with new arguments By studying anthropology and the history of religions Montzka shows evidence for the belief system of the egalitarian hunters who spread across the globe In the Near East the area from the mountains in Turkey to the Persian Gulf people traded freely without evidence of borders or conflict Then social hierarchy became evident in a small area Shortly after this a number of hierarchical sites appeared suddenly and society saw massive buildings city walls ethnic divisions trade to benefit the elites war and instability Developed over forty years The Separation of Heaven and Earth points out that a single cosmological theme was present in ancient literature as well as recent preliterate hierarchies The cosmology justifying the elites in hierarchical societies provided for the society by control of nature Those few groups who have remained egalitarian do not use this cosmology They are not dependent on the rituals of a social hierarchy they depend on the providence of their creator
