The Phantom God John C. Wathey, 2022-10-15 Does neuroscience have anything to say about religious belief or the existence of God Some have tried to answer this question but in doing so most have strayed from the scientific method In The Phantom God computational biologist and neuroscientist John C Wathey Ph D tackles this problem head on exploring religious feelings not as the direct perception by the brain of some supernatural realm nor as the pathological misfiring of neurons but as a natural consequence of how our brains are wired Unlike other neurobiological studies of religion and spirituality The Phantom God treats mysticism not as something uniquely human and possibly supernatural in origin but as a completely natural phenomenon that has behavioral and evolutionary roots that can be traced far back into our vertebrate ancestry Grounded in evolutionary and behavioral biology this highly original and compelling book takes the reader on a journey through the neural circuitry of crying innate knowledge reinforcement learning emotional bonding embodiment interpersonal perception and the ineffable feeling of certainty that characterizes faith Wathey argues that the feeling of God s presence is spawned by innate neural circuitry similar to the mechanism that compels an infant to cry out for its mother In an adult this circuitry can be activated under conditions that mimic the extreme desperation and helplessness of infancy generating the compelling illusion of the presence of a loving powerful and all knowing savior When seen from this perspective the illusion also appears remarkably like one that has long been familiar to neurologists the phantom limb of the amputee spawned by the expectation of the patient s brain that the missing limb should still be there Including a primer on the basic concepts and terminology of neuroscience The Phantom God details the neural mechanisms behind the illusions and emotions of spiritual experience Religion is Not about God Loyal D. Rue, 2005 Annotation If religion is not about God then what on earth is it about Loyal Rue contends that religion is a series of strategies that aims to influence human nature so that we might think feel and act in ways that are good for us both individually and collectively *An Arrogant Nation That* Creates Its Own Reality: Rogene A. Buchholz, 2019-11-13 Americans seem prone to create their own reality in situations that have faced them over the past several years and this arrogance cost the country dearly Three events stand out as prime examples this arrogance The first of these events was the war in Iraq which was based on the false reality that the country possessed weapons of mass destruction and had ties to terrorist organizations The second example was the financial crisis of 2008 which was precipitated by the invention of new and complicated investment vehicles. The last example is the current Trump administration which was filled with falsehoods during the campaign and his first years in office such that one could not believe anything that this administration said This book is going to focus on religious reasons for this situation as I believe that it is the Christian religion that is largely at fault for this condition It is religion that has set up most Americans to believe our leaders when they outright lie and claim to know things beyond what the evidence will support and create a false reality that eventually comes crashing down to disrupt American life If our nation is ever going to be great it must quit living

in a fantasy world and give up a belief in magic as far as its future is concerned Decisions in government and business must be based on reality as it is and not on what we arrogantly think we can create The two go together as the more we try and create our own reality the less able we are to come to grips with the reality that actually exists The place to start is by recognizing the role the Christian religion has played in this phenomenon and letting go of the fantasies that comprise this religion and live a secular life that finds meaning and purpose in this world rather than in some hereafter We will not successfully deal with all the problems with which we are faced and have a political and economic system that works for everyone until this happens

God Loves You Infinitely! Andrew Keogh,2010-06-11 This book may be said to approach the conveying of the truth of the Catholic faith to newcomers on the basis of the Creeds that have stood the test of time In the final analysis conviction and conversion are the work of the Holy Spirit the spirit of Divine Love Therein lies a process of growth in which the goal is to be an aroma of Christ for God s sake St Paul Conversion is like the growth of a flower in which we rejoice when we see it in full bloom However without being rooted in good soil and nourished it will die Therein lies the importance and value of a catechesis and the emphasis on the Creed which has survived the onslaughts of two millennia

Mountain Conjure and Southern Root Work Orion Foxwood, 2021-01-01 Traditional Southern root magic and conjure from someone who learned the old ways growing up in rural Appalachia Folk magic conjurer and root worker Orion Foxwood invites you to take a walk through his native Appalachia through moonlit orchards and rural farms to the dark of the crossroads From the oral tradition of his ancestors to the voices of the spirits themselves Foxwood brings readers the secrets of Southern magic Working by the signs the ability to synchronize work such as farming fertility and orcharding Faith healing Settling the light candle magic Doctoring the root the ability to use herbs roots stones or animal parts for magic or for clearing cleansing and blessing a person Praying or dreaming true blessings of spirit God to a person place or thing as well as prophetic or predictive dreaming Blessing or cursing Mountain Conjure and Southern Root Work shows how to create magic in today s world with the old ways and traditions of Appalachia This book was previously published as The Candle and the Crossroads This new edition includes a foreword by Mat Auryn author of Psychic Witch **Creating Eartheaven in** Your Life Profound Transformation of Your Soul David H. Fastiggi, 2014-05-17 Creating Eartheaven in Your Life is unique and it is innate in all human beings Humanitys quest for a wholesome peaceful life goes unabated Our search for our better self that identifies with the reality of the world we live in all too often filled with grief and stress is juxtaposed with faith and hope for change or a miracle Do we just have faith expecting God will deliver humanity from the ills we have caused Should we just buckle down and be practical seeking solution with our rational self What kind of God do we actually know or are we seeking a relationship with an image of God taught to us What is the divine matrix and does a personal God speak to us Science stands for one view of creation and faith stands for another Is there a joining point of the two Has our species Homo sapiens stalled out in evolutionary development Is the world becoming a village of cooperation and mutual peace

seeking Can we continue the way we have been and survive our own arrogance What is the future of faith religion and spirituality The author in a comprehensive way takes us on a journey to explore answers to these questions and much more Eartheaven is a paradigm of integration between the souls development and our biological body and by extension all creation He delves into scientific reality while preserving in the beginning God created Creating Eartheaven in Your life is a deep exploratory of the souls life in the experience of hurt and suffering and the potential for there to be personal divine human embodiment and therefore earth peace Through ten fundamental teaching combining Jesus words of two thousand years ago an Aramaic understanding the authors revelatory experience in an apparition of Jesus his 44 years life experience psychology and science your reading and learning experience will be a challenge and liberation of the soul Profound transformation is needed and this codex offers the leverage needed to shift our life course towards personal awakening and transformation as well as providing a blue print for future generations Creating Eartheaven in Your Life brings us into universal principles of life a meeting for humanity without walls This volume of two addresses specifically transformation of the soul heaven unfolding Volume two addresses transformation of the body representing the earth and thus eartheaven Granted this book is not an easy read but proves to be a strong mirror reflecting back to us our lives and what we can become fulfilling humanitys evolutionary life potential and perhaps vital to our survival as a people **Conversations with Ecumenical Patriarch** Bartholomew I Olivier Clément, 1997 The Patriarch addresses the modern world in light of the essential message of the Church a Christianity of light and freedom Whether he speaks about ecumenism interfaith dialogue or the need for a sacramental ecology his words are both clear and prophetic The Cambridge Companion to Goethe Lesley Sharpe, 2002-05-02 The Cambridge Companion to Goethe provides a challenging yet accessible survey of this versatile figure not only one of the world's greatest writers but also a theatre director and art critic a natural scientist and state administrator The volume places Goethe in the context of the Germany and Europe of his lifetime His literary work is covered in individual chapters on poetry drama with a separate chapter on Faust prose fiction and autobiography Other chapters deal with his work in the Weimar Theatre his friendship with Schiller his scientific studies and writings his engagement with the visual arts with religion and philosophy the controversies surrounding his political standpoint and the impact of feminist criticism A wide ranging survey of reception inside and outside Germany and an extensive guide to further reading round off this volume which will appeal to students and specialists alike Bulletin of the Atomic Scientists ,1959-02 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world

Religion and Popular Culture Richard W. Santana, Gregory Erickson, 2016-11-08 Often considered to be in opposition American popular culture and popular religion are connected forming and informing new ways of thinking writing and practicing religion and theology Film television music sports and video games are integral to understanding the spiritual the

secular and the in between in the modern world In its revised second edition this book explores how religious issues of canonicity scriptural authority morality belief and unbelief are worked out not in churches seminaries or university classrooms but in our popular culture Topics new to this edition include lived religion digital technology new trends in belief and identification the film Noah 2014 the television series True Blood Kanye West's music the video game Fallout and media events of recent years Instructors considering this book for use in a course may request an examination copy here

Archaeologies of Consciousness Gyrus,2007 Collected for the first time these essays delve into the mysteries of the prehistoric human mind with intelligence passion and a radical approach to the unknowability of the evocative but obscure early chapters of the human story Starting from personal experiences with megalithic monuments and sites of ancient rock art Gyrus unfolds implications and speculations that keep one eye on the latest academic research the other on the unproven possibilities that intimacy with prehistoric relics affords Also includes a foreword by acclaimed antiquarian Julian Cope

Invoking the Beyond: Paul D. Collins, Phillip D. Collins, 2020-11-22 The Gnostic revival of the Enlightenment witnessed the erection of what could be called the Kantian Rift an epistemological barrier between external reality and the mind of the percipient Arbitrarily proclaimed by German philosopher Immanuel Kant this barrier rendered the world as a terra incognita Suddenly the world out there was deemed imperceptible and unknowable In addition to the outer world the cherished metaphysical certainties of antiquity the soul a transcendent order and God swiftly evaporated The way was paved for a new set of modern mythmakers who would populate the world out there with their own surrogates for the Divine Collectively these surrogates could be referred to as the Beyond because they epistemologically and ontologically overwhelm humanity In recent years the Beyond has been invoked by theoreticians literary figures intelligence circles and deep state operatives who share some variant of a technocratic vision for the world In turn these mythmakers have either directly or indirectly served elitist interests that have been working toward the establishment of a global government and the creation of a New Man Their hegemony has been legitimized through the invocation of a wrathful earth goddess a technological Singularity a superweapon and extraterrestrial gods All of these are merely masks for the same counterfeit divinity the Beyond

Lifecycles Christopher Bache,1998-06 Lifecycles combines the best scientific testimonies about reincarnation with
philosophically sound yet accessible arguments about its implications Lifecycles is the first book to both describe the
dynamics of rebirth and explore the ramifications of adopting a reincarnationist perspective The book begins with a masterful
synthesis of recent findings from consciousness research and near death studies It includes the work of such eminent
therapists and scholars as Stanislav Grof and Dr Ian Stevenson and critically surveys the most compelling evidence for
rebirth Lifecycles emphasizes the lessons for self awareness and spiritual growth inherent in a reincarnationist world view
showing us how we can reconnect with the order intelligence and beauty of the universe around us

Nietzsche and the

Aesthetic Eitan Machter,2025-09-29 This Brief focuses on Nietzsche's aesthetics not merely as an artistic field but as a way of understanding life itself Unlike his predecessors Nietzsche rather saw aesthetics as a fundamental principle aim of human existence This volume demonstrates how Nietzsche's aesthetic thinking is not simply an analysis of art but rather a comprehensive worldview shaping his approach to morality truth and the meaning of life It traces the development of aesthetics beginning with Nietzsche's first major work The Birth of Tragedy Machter appeals to the death of God one of Nietzsche's central claims as not just a theological statement but a cultural aesthetic one and also reflects on the Overman as a response to nihilism This volume appeals to students and researchers and presents Nietzsche's aesthetics as not an escape into the world of art but rather a call for individuals toward a meaningful life The Subject Index to Periodicals ,1920
