La giustizia penale nel Tribunale di Campagna di Nevano* ,2002-06-04 The Vision of Rome in Late Renaissance France Margaret M. McGowan,2000-01-01 The French vision of Rome was initially determined by travel journals guide books and a rapidly developing trade in antiquities Against this background Margaret McGowan examines work by writers such as Du Bellay Grevin Montaigne and Garnier and by architects and artists such as Philibert de L'Orme and Jean Cousin showing how they drew upon classical ruins and reconstructions not only to re-enact past meanings and achievements but also more dynamically to interpret the present She explains how Renaissance Rome enhanced by the presence of so many signs of ancient grandeur provided a fertile source of artistic creativity Study of the fragments of the past tempted writers to an imaginative reconstruction of whole forms while the new structures they created in France revealed the artistic potency of the incomplete and the fragmentary **Same-Sex Marriage in Renaissance Rome** Gary Ferguson,2016-07-09 From the tenor of contemporary discussions it would be easy to conclude that the idea of marriage between two people of the same sex

is a uniquely contemporary phenomenon Not so argues Gary Ferguson in *Same Sex Marriage in Renaissance Rome* Making use of substantial fragments of trial transcripts Gary Ferguson brings the story of a same sex marriage to life in striking detail He unearths an incredible amount of detail about the men their sex lives and how others responded to this information which allows him to explore attitudes toward marriage sex and gender at the time Emphasizing the instability of marriage in premodern Europe Ferguson argues that same sex unions should be considered part of the institution s complex and contested history

Janello Torriani and the Spanish Empire Cristiano Zanetti,2017-07-10 Janello Torriani known in the Spanish speaking world as Juanelo Turriano Cremona Italy ca 1500 Toledo Spain 1585 is the greatest among Renaissance inventors and constructors of machines Contemporary literates and mathematicians celebrated Janello Torriani and his creations in their writings It is striking how such fame turned into nearly complete oblivion leaving only a few clues of a blurred and distorted memory dispersed here and there This book wishes to show the central role that artisans formed in the Vitruvian tradition played in demonstrating through practical mathematics an increasing and positive control over Nature a step rooted in humanist culture and foundational for the understanding of those historical processes known as the Scientific and the Industrial Revolutions

East Meets West in the Middle Ages and Early Modern Times Albrecht Classen,2013-09-03 This new volume explores the surprisingly intense and complex relationships between East and West during the Middle Ages and the early modern world combining a large number of

critical studies representing such diverse fields as literary German French Italian English Spanish and Arabic and other subdisciplines of history religion anthropology and linguistics The differences between Islam and Christianity erected strong barriers separating two global cultures but as this volume indicates despite many attempts to Other the opposing side the premodern world experienced an astonishing degree of contacts meetings exchanges and influences Scientists travelers authors medical researchers chroniclers diplomats and merchants criss crossed the East and the West or studied the sources produced by the other culture for many different reasons As much as the theoretical concept of Orientalism has been useful in sensitizing us to the fundamental tensions and conflicts separating both worlds at least since the eighteenth century the premodern world did not quite yet operate in such an ideological framework Even though the Crusades had violently pitted Christians against Muslims there were countless contacts and a palpable curiosity on both sides both before during and after those religious warfares
