Month Sea Encounters Gaza:

A Month by the Sea Dervla Murphy, 2015-05-12 Dervla Murphy recounts the events people and ironies she encountered while living in Gaza during Summer 2011 **Civil Society, Post-Colonialism and Transnational Solidarity**

Marie-Violaine Louvet, 2016-06-28 Civil Society Post Colonialism and Transnational Solidarity originates from Louvet's observation of the strong commitment of a layer of Irish civil society from the man on the street to political parties associations and trade unions to the defence of one antagonist or the other in the Israeli Palestinian conflict beginning with the Six Day War in 1967 and increasingly so after the Lebanon Wars at the start of the 1980s and the Second Intifada 2000 2005 This book observes how this phenomenon is particularly striking in Northern Ireland where Israeli and Palestinian flags have been flown by Unionists and Nationalists as signs of solidarity and identification Louvet sheds light on the dynamics and strategies at play in the Middle East conflict in Northern Ireland but also in the Republic of Ireland a country considered to be widely sympathetic to the Palestinian cause With an overarching perspective highlighting the influence of Irish colonial history over the motives and discourse of the different levels of mobilization in civil society this book shows the global movement towards the fragmentation and specialization of transnational solidarity actions in Ireland **Interstices of**

Space and Memory Sreedevi Santhosh, Samjaila TH, Sneha Suresh, Preethi S., 2025-03-07 The conference intersectionally locates memory and space that reconstruct city chronotopes to explore how identities are reconfigured in metropolitan Indian cities In taking recourse in locating turning points that could be historical political or cultural in the life of Metropolitan Indian Cities the perspective that is brought together with personal and collective stories that are recorded in Art Literature Curated Projects Museums is that these moments reshape human values ethos in Cities The assumption made is that at specific moments in time turning points with the pandemic for instance the spirit of the city changes It highlights how human beings in cities account for such changes the IIHS runs a postcard project on human lives during the plague and corona being an example It uses focal moments in the City as the lens to discuss Art Literature and City Design The House Divided Barnaby Rogerson, 2024-07-02 An incisive look at the past present and future of the religious divide that lies at the heart of the Middle East At the heart of the Middle East with its regional conflicts and proxy wars is a 1400 year old schism between Sunni and Shia To understand this divide and its modern resonances we need to revisit its origins which go back to the death of the Prophet Muhammad in 632 the accidental coup that set aside the claims of his son Ali and the slaughter of Ali's own son Husayn at Karbala These events known to every Muslim have created a slender faultline in the Middle East The House Divided follows these narratives from the first Sunni and Shia caliphates through the medieval empires of the Arabs Persians and Ottomans to the contemporary Middle East It shows how a complex range of identities and rivalries religious ethnic and national have shaped the region jolted by the seismic shift of the Iranian Revolution of 1979 Rogerson's original approach takes the modern chessboard of nation states and looks at each through its particular history of

empires and occupiers minorities and resources sheikhs and imams The result is wide ranging empathy understanding and insight a book that is vital for anyone wishing to understand many of the current tensions in the Middle East today *Your Place or Mine?* Ethel Crowley,2013-03-22 Ireland's economy is being scrutinised daily by everyone from politicians to pub goers but what about the deeper questions of Ireland's sense of identity and community Socially Ireland is in a period of rapid change is it time to get behind the numbers and look at who we really are In *Your Place or Mine* sociologist Ethel Crowley looks at our attitudes to home place family sexuality and community Do we still need the traditional forms of connection to home family community and locality in the highly globalised society in which we live Do we still like to stay within the heart of a familiar comfort zone or are we willing to push its boundaries *Your Place or Mine* captures some of the complexities of contemporary Ireland What is the impact of globalisation and multiculturalism Are community values really declining Despite a more liberal attitude to sexuality are we a liberal society Ethel Crowley mixes warm hearted biography and sociological rigour to create a set of reflections on finding our place in the world as a country and as individuals Crowley uses an exciting innovative approach to identify and describe the cultural transformations of contemporary Ireland Mixing personal memories with sociologically informed debate she provides an insightful and imaginative explanation of how Ireland has combined the local with the global Professor Tom Inglis School of Sociology University College Dublin **Modern Cities** William Solesbury,2019-04-30 This book presents ten types of city that are the product of the modernisation of the world in the past two centuries That modernisation has changed the economic social and political context in which cities have developed as well as the form and function of cities themselves Of the ten city types detailed some of them like national capitals resorts for pilgrims or gamblers or tourists city states or cosmopolitan cities are not entirely new kinds of city since they existed in pre modern times but their modern forms exhibit novel characteristics Others like megacities of 10 million plus populations boom towns satellite cities cities created by migrants or refugees cities under communist rule and exploding cities of super rapid growth are unique to modern times Each type is described and analysed and also exemplified in brief city profiles with photographs All in all over 50 cities in the modern world are featured here including Astana Mecca Singapore Buenos Aires Shenzhen Bangalore Milton Keynes Salt Lake City Magnitogorsk and Ulaanbaatar These accounts draw on research news reports guidebooks film and fiction and personal travels **Handbook of British Travel Writing** Barbara Schaff,2020-09-07 This handbook offers a systematic exploration of current key topics in travel writing studies It addresses the history impact and unique discursive variety of British travel writing by covering some of the most celebrated and canonical authors of the genre as well as lesser known ones in more than thirty close reading chapters Combining theoretically informed astute literary criticism of single texts with the analysis of the circumstances of their production and reception these chapters offer excellent possibilities for understanding the complexity and cultural relevance of British travel writing **Amours irlandaises** Maryse Viannet,2021-11-18 Maryse Viannet se rend une nouvelle fois en Irlande Elle loge

The Interception of Vessels on the High Seas Efthymios Papastavridis, 2014-08-28 The principal aim of this book is to address the international legal questions arising from the right of visit on the high seas in the twenty first century This right is considered the most significant exception to the fundamental principle of the freedom of the high seas the freedom in peacetime to remain free of interference by ships of another flag It is this freedom that has been challenged by a recent significant increase in interceptions to counter the threats of international terrorism and WMD proliferation or to suppress transnational organised crime at sea particularly the trafficking of narcotics and smuggling of migrants The author questions whether the principle of non interference has been so significantly curtailed as to have lost its relevance in the contemporary legal order of the oceans The book begins with an historical and theoretical examination of the framework underlying interception This historical survey informs the remainder of the work which then looks at the legal framework of the right of visit contemporary challenges to the traditional right interference on the high seas for the maintenance of international peace and security interferences to maintain the bon usage of the oceans navigation and fishing piracy *jure gentium* and current counter piracy operations off the coast of Somalia the problems posed by illegal unregulated and unreported fishing interdiction operations to counter drug and people trafficking and recent interception operations in the Mediterranean Sea organised by FRONTEX **Alexander the Great and the Logistics of the Macedonian Army** Donald W.

generation and makes it accessible Careful analyses of terrain climate and supply requirements are throughout combined in a masterly fashion to help account for Alexander's strategic decision in the light of the options open to him The chief merit of this splendid book is perhaps the way in which it brings an ancient army to life as it really was and moved the hours it took for simple operations of washing and cooking and feeding animals the train of noncombatants moving with the army this is a book that will set the reader thinking There are not many books on Alexander the Great that do New York Review of Books The most important work on Alexander the Great to appear in a long time Neither scholarship nor semi-fictional biography will ever be the same again Engels at last uses all the archaeological work done in Asia in the past generation and makes it a

The Sacred Bridge Anson F. Rainey, R. Steven Notley, 2006 Of all the writings held sacred by the world's religions only the Bible presents a message linked to geography This is not just the location of religious centers but the experience of a people in its land a people that has insisted on its God-given right to self-identity throughout the ages and in defiance of all forces that sought to deny it All Jews and Christians who profess to find the source of their faith in these Scriptures look to the experiences of that people depicted in the Bible as examples and role models for their search after the Divine will and for their moral conduct among men The religious experiences of that ancient people took place in relation to a geographical setting generally a small postage stamp on the face of the globe a patch of terrain in the southern part of the eastern Mediterranean littoral The Bible is replete with geographical information not as a guidebook for travelers or a textbook on geography but often almost incidental to the message Yet without the geography that message is often obscured or vitiated for the uninformed reader The present atlas seeks to introduce the reader to the geographical elements that can help to make real the social historical and spiritual experience of the People of the Book Publisher **The Monthly Review** Ralph Griffiths, George Edward Griffiths, 1816 **Monthly Review; Or New Literary Journal** Ralph Griffiths, George Edward Griffiths, 1816 Editors May 1749 Sept 1803 Ralph Griffiths Oct 1803 Apr 1825 G E Griffiths Monthly Weather Review, 1986 *The Monthly magazine* Monthly literary register, 1843 *War Monthly*, 1975 **The Monthly Review, Or, Literary Journal**, 1816 **Jewish Travel in Antiquity** Catherine Hezser, 2011 This book provides the first comprehensive study of Jewish travel and mobility in Hellenistic and Roman times based on a critical analysis of Jewish Graeco-Roman and early Christian literary epigraphic and archaeological sources and a social historical evaluation of the material Catherine Hezser shows that certain segments of ancient Jewish society were quite mobile Mobility seems to have increased in the later Roman period when an extensive road system facilitated travel within the province of Syria Palestine and the neighbouring Middle Eastern regions Second Temple Judaism was centralized with Jerusalem as its central space and seat of priestly authority In post-70 rabbinic Judaism on the other hand connections between rabbis could be established through mutual visits and second and third degree contacts only Mobility formed the basis of the establishment of a decentralized rabbinic network in Palestine and Babylonia in late antiquity Numerous narrative and halakhic traditions indicate the importance of

mobility for communication and the exchange of knowledge amongst rabbis It is argued that the rabbis who were most mobile sat at the nodal points of the rabbinic network and elicited the largest amount of influence They would have combined business travel with scholarly exchange Scholars journeys between Palestine and Babylonia are viewed within the wider context of Rome and Persia s economic and cultural exchange in which Jews just like Christians may have played the role of intermediaries *The Monthly Magazine, Or, British Register* ,1843
