The Architecture of Illegal Markets Jens Beckert, Matías Dewey, 2017-07-21 From illegal drugs stolen artwork and forged trademarks to fraud in financial markets the phenomenon of illegality in market exchanges is pervasive Illegal markets have great economic significance have relevant social and political consequences and shape economic and political structures Despite the importance of illegality in the economy the field of economic sociology unquestioningly accepts the premise that the

institutional structures and exchanges taking place in markets are law abiding in nature This volume makes a contribution to changing this Questions that stand at the centre of the chapters are What are the interfaces between legal and illegal markets How do demand and supply in illegal markets interact What role do criminal organizations play in illegal markets What is the relationship between illegality and governments Is illegality a phenomenon central to capitalism Anchored in economic sociology this book contributes to the analysis and understanding of market exchanges in conditions of illegality from a perspective that focuses on the social organization of markets Offering both theoretical reflections and case studies the chapters assembled in the volume address the consequences of the illegal production distribution and consumption of products for the architecture of markets It also focuses on the underlying causes and the political and social concerns stemming from the infringement of the law

Drinking in Context Gerry Stimson, Marcus Grant, Marie Choquet, Preston Garrison, 2013-05-13 Drinking beverage alcohol is a widespread source of individual and social pleasure in most countries around the world Yet some drinking patterns can lead to serious physical mental and social harms Drinking in Context is intended to complement existing volumes dealing with international alcohol policy by focusing on three main themes drinking patterns targeted interventions and partnership development An understanding that patterns of drinking are important predictors of outcomes has led to a growing realization that alcohol policies and prevention strategies need to focus on excessive or irresponsible drinking As a result there has been a shift towards interventions that address the targeted reduction of harm These approaches recognize socio cultural differences and avoid trying to impose a one size fits all solution In this context multi stakeholder partnerships offer an excellent opportunity to promote the complex mix of measures required by each society Shared responsibilities lead to shared solutions
