Moral, Believing Animals Christian Smith, 2003-07-10 What kind of animals are human beings And how do our visions of the human shape our theories of social action and institutions In *Moral Believing Animals* Christian Smith advances a creative theory of human persons and culture that offers innovative challenging answers to these and other fundamental questions in sociological cultural and religious theory Smith suggests that human beings have a peculiar set of capacities and proclivities that distinguishes them significantly from other animals on this planet Despite the vast differences in humanity between cultures and across history no matter how differently people narrate their lives and histories there remains an underlying structure of human personhood that helps to order human culture history and narration Drawing on important recent insights in moral philosophy epistemology and narrative studies Smith argues that humans are animals who have an inescapable moral and spiritual dimension They cannot avoid a fundamental moral orientation in life and this says Smith has profound consequences for how sociology must study human beings

Handbook of the Sociology of Morality Steven Hitlin, Stephen Vaisey, 2010-10-17 Human beings necessarily understand their social worlds in moral terms orienting their lives relationships and activities around socially produced notions of right and wrong Morality is sociologically understood as more than simply helping or harming others it encompasses any way that individuals form understandings of what behaviors are better than others what goals are most laudable and what proper people believe feel and do Morality involves the explicit and implicit sets of rules and shared understandings that keep human social groups intact Morality includes both the shoulds and should nots of human activity its proactive and inhibitive elements At one time sociologists were centrally concerned with morality issues like social cohesion values the goals and norms that structure society and the ways individuals get socialized to reproduce those concerns In the last half century however explicit interest in these topics has waned and modern sociology has become uninterested in these matters and morality has become marginalized within the discipline But a resurgence in the topic is happening in related disciplines psychology neurology philosophy and anthropology and in the wider national discourse Sociology has much to offer but is not fully engaged in this conversation Many scholars work on areas that would fall under the umbrella of a sociology of morality but do not self identify in such a manner nor orient their efforts toward conceptualizing what we know and should know along these dimensions The *Handbook of the Sociology of Morality* fills a niche within sociology making explicit the shared

concerns of scholars across the disciplines as they relate to an often overlooked dimension of human social life It is unique in social science as it would be the first systematic compilation of the wider social structural cultural cross national organizational and interactional dimension of human moral understood broadly thought feeling and behavior

Christopraxis Andrew Root,2014 Since the late 1970 s practical theology has had a significant voice and influence in the academy While many have seen great hope and potential in this work not everyone has agreed Some for instance have examined the conversation and found by focusing on the concrete and lived experiences of humanity by and large practical theology has not had the theological vision to present frameworks for understanding concrete and lived experience with divine action So argues Andrew Root who in Christopraxis seeks to reset the entire edifice of practical theology on a new foundation While not minimizing practical theology s commitment to the lived and concrete Root argues that practical theology has neglected deeper theological underpinnings and seeks to create a practical theology that seeks to be fully post postmodern post Aristotelian and that in seeking to attend to doctrines such as divine action and justification is properly and fully theological

Reason to Believe David Smilde,2007-07-02 Based on fieldwork among Pentecostal men in Caracas Venezuela this ethnography seeks an explanation for the explosion of Evangelical Protestantism unraveling the cultural and personal dynamics of Evangelical conversion to show how and why these men make the choice to convert and how they come to have faith in a new system of beliefs

Faith, Family, and Filipino American Community Life Stephen M. Cherry,2014-01-03 Stephen M Cherry draws upon a rich set of ethnographic and survey data collected over a six year period to explore the roles that Catholicism and family play in shaping Filipino American community life From the planning and construction of community centers to volunteering at health fairs or protesting against abortion this book illustrates the powerful ways these forces structure and animate not only how first generation Filipino Americans think and feel about their community but how they are compelled to engage it over issues deemed important to the sanctity of the family Revealing more than intimate accounts of Filipino American lives Cherry offers a glimpse of the often hidden but vital relationship

between religion and community in the lives of new immigrants and allows speculation on the broader impact of Filipino immigration on the nation The Filipino American community is the second largest immigrant community in the United States and the Philippines is the second largest source of Catholic immigration to this country This ground breaking study outlines how first generation Filipino Americans have the potential to reshape American Catholicism and are already having an impact on American civic life through the engagement of their faith **Becoming Catholic** David Yamane,2014 The history of Christianity and particularly of Roman Catholicism has been profoundly shaped by conversion for centuries from the first apostles to such prominent modern converts as John Henry Newman St Elizabeth Ann Seton G K Chesterton Thomas Merton and Graham Greene In this work David A Yamane offers a study of Roman Catholic converts in contemporary America

Revelation, Resistance, and Mormon Polygamy Merina Smith,2013-08-15 In Revelation Resistance and Mormon Polygamy historian Merina Smith explores the introduction of polygamy in Nauvoo a development that unfolded amid scandal and resistance Smith considers the ideological historical and even psychological elements of the process and captures the emotional and cultural detail of this exciting and volatile period in Mormon history She illuminates the mystery of early adherents acceptance of such a radical form of marriage in light of their dedication to the accepted monogamous marriage patterns of their day When Joseph Smith began to reveal and teach the doctrine of plural marriage in 1841 even stalwart members like Brigham Young were shocked and confused In this thoughtful study Smith argues that the secret introduction of plural marriage among the leadership coincided with an evolving public theology that provided a contextualizing religious narrative that persuaded believers to accept the principle This fresh interpretation draws from diaries letters newspapers and other primary sources and is especially effective in its use of family narratives It will be of great interest not only to scholars and the general public interested in Mormon history but in American history religion gender and sexuality and the history of marriage and families Christianity and 'the World' David Martin,2021-01-01 David Martin was one of the world s leading commentators on secularization theory He was also a committed and lifelong reader of English poetry Christianity and The World develops Martin s argument against simplistic secularization narratives with reference to the history of poetry

a topic with which few social theorists have been concerned Martin shows the enduring but ever changing centrality of Christian thought and practice in its many different forms to English poetry Always mindful that the most important aspects of poetry s history can be captured only by attending to the minutest particulars of individual poems and poets Martin s study sheds unexpected light on a wide range of English poets from Spenser and Shakespeare to T S Eliot and Geoffrey Hill The result is a study at once informed by an authoritative sociological perspective on secularization and richly coloured by the singular intensity of Martin s own reading life

The End of Youth Ministry? (Theology for the Life of the World)

Andrew Root,2020-03-17 What is youth ministry actually for And does it have a future Andrew Root a leading scholar in youth ministry and practical theology went on a one year journey to answer these questions In this book Root weaves together an innovative first person fictional narrative to diagnose the challenges facing the church today and to offer a new vision for youth ministry in the 21st century Informed by interviews that Root conducted with parents this book explores how parents perspectives of what constitutes a good life are affecting youth ministry In today s culture youth ministry can t compete with sports test prep and the myriad other activities in which young people participate Through a unique parable style story Root offers a new way to think about the purpose of youth ministry not happiness but joy Joy is a sense of experiencing the good For youth ministry to be about joy it must move beyond the youth group model and rework the assumptions of how identity and happiness are imagined by parents in American society

Narrative Apologetics Alister E. McGrath,2019-10-15 The Bible is a narrative the story of God s creation humankind s fall and God s plan of redemption And it is filled with countless smaller stories that teach us about people history and the nature of God It s no surprise that God would choose to reveal himself to us in story after all he hardwired us for story Despite this we so often attempt to share our faith with others not through story but through systems arguments and talking points methods that appeal only to our mind and neglect our imagination and our emotions In this groundbreaking book scholar and author Alister McGrath lays a foundation for narrative apologetics Exploring four major biblical narratives enduring stories from our culture such as Tolkien s The Lord of the Rings and Lewis s The Chronicles of Narnia and personal narratives from people such as Augustine of Hippo and Chuck Colson McGrath shows how we can both understand and share our faith in terms of story

Pentecostalism,

Postmodernism, and Reformed Epistemology Yoon Shin,2021-12-27 In Pentecostalism Postmodernism and Reformed Epistemology Yoon Shin critically builds on James K A Smith s postmodern Pentecostal epistemology with the aid of Reformed epistemology It takes the reader through an interdisciplinary journey that expositis and illumines the relationship among Pentecostal spirituality continental and analytic philosophy postliberalism moral psychology and philosophy of emotion This work clarifies misunderstandings of Smith in Smith and between continental and analytic epistemology constructively and coherently synthesizing the sources through interdisciplinary analysis and thereby demonstrating the value of mashup philosophy The resulting epistemology strengthens the mostly descriptive epistemology of Smith with the

warrant criteria of Alvin Plantinga **The ^ADecline of the Secular University** C. John Sommerville, 2006-06-29 The American university has embraced a thorough secularism that makes it increasingly marginal in a society that is characterized by high levels of religious belief The very secularization that was supposed to be a liberating influence has resulted in the university's failure to provide leadership in political cultural social and even scientific arenas In *The Decline of the Secular University* C John Sommerville explores several different ways in which the secular university fails in its mission through its trivialization of religion He notes how little attention is being given to defining the human so crucial in all aspects of professional education He alerts us to problems associated with the prevailing secular distinction between facts and values He reviews how the elimination of religion hampers the university from understanding our post Cold War world Sommerville then shows how a greater awareness of the intellectual resources of religion might stimulate more forthright attention to important matters like our loss of a sense of history how to problematize secularism the issue of judging religions the oddity of academic moralizing and the strangeness of science at the frontiers Finally he invites the reader to imagine a university where religion is not ruled out but rather welcomed as a legitimate voice among others Sommerville's bracing and provocative arguments are sure to provoke controversy and stimulate discussion both inside and outside the academy

Catholic High Schools James L. Heft S. M., 2011-06-01 Catholic high schools in the United States have been undergoing three major changes the shift to primarily lay leadership and teachers the transition to a more consumerist and pluralist culture and the increasing diversity of students attending Catholic high schools James Heft argues that to navigate these changes successfully leaders of Catholic education need to inform lay teachers more thoroughly conduct a more profound social analysis of the culture and address the real needs of students After presenting the history of Catholic schools in the United States and describing the major legal decisions that have influenced their evolution Heft describes the distinctive and compelling mission of a Catholic high school Two chapters are devoted to leadership and other chapters to teachers students alternative models of high schools financing and the key role of parents who today may be described as post deferential to traditional authorities including bishops and priests Written by an award winning teacher scholar and recognized educational leader in Catholic education *Catholic High Schools* should be read by everyone interested in religiously affiliated educational institutions particularly Catholic education

What Is a Person? Christian Smith, 2010 The task of understanding human beings what we ourselves are our constitution and condition is a perennial problem in philosophy and related disciplines Smith argues here that our understanding of human persons is threatened by technological development and capricious academic theories alike seeking to deny or relativize the personhood of humanity Smith's book puts a stake in the ground in defense of a view of the human that is genuinely humanistic in the traditional sense and capable of sustaining with intellectual coherence things like modern human rights and universal benevolence **Religion** Christian Smith, 2019-03-26 A groundbreaking new theory of religion Religion remains an important influence in the world today yet the social sciences

are still not adequately equipped to understand and explain it This book advances an innovative theory of religion that goes beyond the problematic theoretical paradigms of the past Drawing on the philosophy of critical realism and personalist social theory Christian Smith explores why humans are religious in the first place uniquely so as a species and offers an account of secularization and religious innovation and persistence that breaks the logjam in which religious scholarship has been stuck for so long Certain to stimulate debate and inspire promising new avenues of scholarship Religion features a wealth of illustrations and examples that help to make its concepts accessible to readers This superbly written book brings sound theoretical thinking to a perennially thorny subject and a new vitality and focus to its study *Ethics Lost in Modernity*
Matthew Vest,2023-07-21 Ethics Lost in Modernity Reflections on Wittgenstein and Bioethics turns to the philosopher Ludwig Wittgenstein as a guide to understand the immense success yet great danger of bioethics Matthew Vest traces the story of bioethics since its inception in the late 1960s as a way to uncover a number of hidden assumptions within modern ethics that relies upon scientific theorizing as the fundamental way of thinking Autonomy and utilitarianism in particular are two nearly unquestioned goals of scientific theorizing that are easily accessible but at what cost Vest argues that such an ethics enacts a thin moral calculation that runs the risk of enslaving ethics to scientism Far from the depth of religious ethos and practices of virtue modern ethics is lost amidst thin ethical theories enacting a language game that instrumentalizes ethics in service of technological bureaucratic and professional end goals He proposes that true moral living is far from anti science but rather is envisioned best when ethics and science are balanced with keen insights from ancient sacred cosmology
