Democracy in China Jiwei

Ci,2019-11-19 Four decades of reform fostered a democratic mentality in China Now citizens are waiting for the government to catch up Jiwei Ci argues that the tensions between a largely democratic society and an undemocratic political system will trigger a crisis of legitimacy compelling the Communist Party to become agents of democratic change or collapse **Social**

Disciplining and Civilising Processes in China Thomas Heberer,2023-08-11 This book argues that a major part of the Chinese government's road map formulated in 2017 to modernise China comprehensively by 2049 is the process of social disciplining It contends that the Chinese state sees that modernisation and modernity encompass not only economic and political administrative change but are also related to the organisation of society in general and the disciplining of this society and its individuals to create people with modernised minds and behaviour and that moreover the Chinese state is aspiring to a modernity with Chinese characteristics The question of modernising by disciplining was extensively dealt with in the twentieth century by leading Western social scientists including Max Weber Norbert Elias and Michel Foucault who argued that disciplining extending from external coercion towards the internalisation of restraints is indispensable for achieving social order and thereby for civilisation but defined from a European perspective in relation to developments in Europe This book therefore not only discusses the Chinese experience of social disciplining but also by looking at a non Western society identifies universal tendencies of societal change and social disciplining and separates them from particular occurrences **Self-Development Ethics and Politics in China Today** Gil Hizi,2025-10-01 This volume takes readers on

a journey into a central aspect of life in China so called self development Whether prompted by the cultural values of educational success capitalist competition for wealth or the Chinese Communist Party's prescriptions for good citizenship few people in China are immune to the impetus to improve themselves and thus bring about a better future Contributors to this volume interdisciplinary sinologists draw on materials from practices in education labor and self help as they spotlight keywords by which individuals make sense of their self development journeys including new forms of resistance to social norms Rather than simply classify self development by different activities or groups the chapters map together ethical features that cut across Chinese society Contributors explore the nuanced and ambivalent attitudes towards self development of individuals navigating various requirements and pursuing more complete forms of existence In so doing they offer a snapshot of China that intersects with timely global concerns **Making China Modern** Klaus Mühlhahn,2019-01-14

Thoughtful probing a worthy successor to the famous histories of Fairbank and Spence that will be read by all students and scholars of modern China William C Kirby coauthor of Can China Lead It is tempting to attribute the rise of China to Deng Xiaoping and to recent changes in economic policy But China has a long history of creative adaptation In the eighteenth century the Qing Empire dominated a third of the world's population Then as the Opium Wars and the Taiping Rebellion ripped the country apart China found itself verging on free fall More recently after Mao China managed a surprising recovery rapidly undergoing profound economic and social change A dynamic story of crisis and recovery failure and triumph Making

China Modern explores the versatility and resourcefulness that guaranteed China's survival powered its rise and will determine its future. Chronicles reforms, revolutions and wars through the lens of institutions, often rebutting Western impressions. New Yorker: A remarkable accomplishment. Unlike an earlier generation of scholarship, Making China Modern does not treat China's contemporary transformation as a postscript. It accepts China as a major and active player in the world, places China at the center of an interconnected and global network of engagement, links domestic politics to international dynamics and seeks to approach China on its own terms. Wen-hsin Yeh, author of Shanghai Splendor.

The Currency of Truth Emily H. C. Chua, 2023-04-03. China's news sector is a place where newsmakers, advertising executives, company bosses and Party officials engage one another in contingent and evolving arrangements that run from cooperation and collaboration to manipulation and betrayal. Drawing on long-term ethnographic fieldwork with journalists, editors and executives at a newspaper in Guangzhou, The Currency of Truth brings its readers into the lives of the people who write, publish and profit from news in this milieu. The book shows that far from working as mere cogs in a Party propaganda machine, these individuals are immersed in fluidly shifting networks of formal and informal relationships which they carefully navigate to pursue diverse goals. In The Currency of Truth, Emily H. C. Chua argues that news in China works less as a medium of mass communication than as a kind of currency as industry players make and use news articles to create agreements, build connections and protect and advance their positions against one another. Looking at the ethical and professional principles that well-intentioned and civically minded journalists strive to uphold and the challenges and doubts that they grapple with in the process, Chua brings her findings into conversation around post-truth news and the crisis of professional journalism in the West. The book encourages readers to rethink contemporary news, arguing that rather than setting out from the assumption that news works either to inform or deceive its publics, we should explore the post-public social and political imaginaries emerging among today's newsmakers and remaking the terms of their practice.
