## **Moral Textures Feminist Narratives In The Public Sphere:**

*Moral Textures* María Pía Lara,1998 In this original work Maria Pia Lara develops a new approach to public sphere theory and a novel understanding of the history of the feminist struggle

**Inclusion and Democracy** Iris Marion Young,2002-04-18 Democratic equality entails a principle that everyone whose basic interests are affected by policies should be included in the process of making them Yet individuals and groups often claim that decision making processes are dominated by only some of the interests and perspectives in the society What are the ideals of inclusion through which such criticisms should be made and which might guide more inclusive political practice This book considers that question from the point of view of norms of democratic communication processes of representation and association and how wide the scope of political jurisdictions should be Democratic theorists have not sufficiently attended to the ways processes of debate and decision making often marginalize individuals and groups because the norms of political discussion are biased against some forms of expression Inclusion and Democracy broadens our understanding of democratic communication by reflecting on the positive political functions of narrative rhetorically situated appeals and public protest It reconstructs concepts of civil society and public sphere as enacting such plural forms of communication among debating citizens in large scale societies The book considers issues of the scope of the polity at two levels global and local The scope of a polity should extend as wide as the scope of social and economic interactions that raise issues of justice Today this implies the need for global democratic institutions At a more local level processes of residential segregation and the design of municipal jurisdictions often result in the ability for actions in one locale to affect those in other locales without those making the decisions having to include some of those affected in the decision making process Metropolitan governments which preserve significant local autonomy may therefore be necessary to promote political equality

**The Oxford Handbook of American Philosophy** Cheryl Misak,2008-09-25 Cheryl Misak presents the first collective study of the development of philosophy in North America from the 18th century to the end of the 20th century Twenty six leading experts examine

distinctive features of American philosophy trace notable themes and consider the legacy and influence of notable figures This will be the first reference point for future work on the subject and a fascinating resource for anyone interested in modern philosophy or American intellectual history      Envisioning Human Geographies Paul Cloke, Philip Crang, Mark Goodwin, 2014-02-24 Bringing together many of the leading human geographers from around the English speaking world Envisioning Human Geographies offers a series of personal visions for the future of human geography The result is a vigorous and far sighted debate about what human geography could and should be concerned with in the twenty first century The individual contributors develop their arguments to address the shape and direction of human geographies with each chapter looking forward and envisioning an intellectual future for the subject The result is a set of powerful statements written around the themes of space nature enclosure political economy non representation post colonialism feminism post structuralism computation morality spirituality activism The statements are tied via an introduction that discusses the ideological academic and aesthetic prompts that fire the human geographical imagination Envisioning Human Geographies maps out important new territories of enquiry for human geography and is essential reading for all students studying the nature and philosophy of the subject      **Routledge Handbook of Social and Cultural Theory** Anthony Elliott, 2013-12-04 If today students of social theory read Jurgen Habermas Michel Foucault and Anthony Giddens then proper regard to the question of culture means that they should also read Raymond Williams Stuart Hall and Slavoj Zizek The Routledge Handbook of Social and Cultural Theory offers a concise comprehensive overview of the convergences and divergences of social and cultural theory and in so doing offers a novel agenda for social and cultural research in the twenty first century This Handbook edited by Anthony Elliott develops a powerful argument for bringing together social and cultural theory more systematically than ever before Key social and cultural theories ranging from classical approaches to postmodern psychoanalytic and post feminist approaches are drawn together and critically appraised There are substantive chapters looking at among others structuralism and post structuralism critical theory network analysis feminist cultural thought cultural theory and cultural sociology Throughout the Handbook there is a strong emphasis on interdisciplinarity with chapters drawing from research in sociology cultural studies psychology politics anthropology women s studies literature and history Written in a clear and direct style this Handbook will appeal to a wide undergraduate and postgraduate audience across the social sciences and humanities      Discourse, Desire, and Fantasy in Jurgen Habermas' Critical Theory Kenneth MacKendrick, 2008-03-25 This book argues that J rgen Habermas critical theory can be productively developed by incorporating a wider understanding of fantasy and imagination as part of its conception of communicative rationality and communicative pathologies Given that meaning is generated both linguistically and performatively MacKendrick argues that desire and fantasy must be taken into consideration as constitutive aspects of intersubjective relations His aim is to show that Habermasian social theory might plausibly renew its increasingly severed ties with the early critical theory of the Frankfurt

School by taking account of these features of practice life thus simultaneously rekindling the relevance of the nearly forgotten emancipatory intent in his earlier work and rejuvenating an emphasis on the contemporary critique of reason This innovative new study will be of interest to those focusing on the early writings of Habermas the writings of the Frankfurt School and the relation between critical theory hermeneutics and psychoanalysis Kant and Theology Pamela Sue Anderson, Jordan Bell, 2010-07-29

**Narrative Power** Ken Plummer, 2019-05-29 Narratives are the wealth of nations they animate life sustain culture and cultivate humanity They regulate and empower us bringing both joy and discontent And they are always embedded in ubiquitous power stories shape power and power shapes story In this provocative and original study Ken Plummer takes us on a journey to explore some of the key dimensions of this narrative power His main focus is on what he calls narratives of suffering and how these change through transformative narrative actions across an array of media forms The modern world is in crisis and long standing narratives are being challenged in five major directions through deep inequalities global state complexities digital risks the perpetual puzzle of truth and the ever emerging contingencies of time Asking how we can build sustainable stories for a better future the book advocates the cultivation of a narrative hope a narrative wisdom and a politics of narrative humanity Narrative Power suggests novel directions for enquiry discusses a raft of innovative ideas and concepts and sets a striking new agenda for research and action

**Anarchafeminism** Chiara Bottici, 2021-11-18 How can we be sure the oppressed do not become oppressors in their turn How can we create a feminism that doesn't turn into yet another tool for oppression It has become commonplace to argue that in order to fight the subjugation of women we have to unpack the ways different forms of oppression intersect with one another class race gender sexuality disability and ecology to name only a few By arguing that there is no single factor or arche explaining the oppression of women Chiara Bottici proposes a radical anarchafeminist philosophy inspired by two major claims that there is something specific to the oppression of women and that in order to fight that we need to untangle all other forms of oppression and the anthropocentrism they inhabit Anarchism needs feminism to address the continued subordination of all femina but feminism needs anarchism if it does not want to become the privilege of a few Anarchafeminism calls for a decolonial and deimperial position and for a renewed awareness of the somatic communism connecting all different life forms on the planet In this new revolutionary vision feminism does not mean the liberation of the lucky few but liberation for all living creatures from both capitalist exploitation and an androcentric politics of domination Either all or none of us will be free

**American Insomniac** Jim Smith, 2025-08-22 American Insomniac Reflections on the future of a dying democracy is a compilation of academic articles blog pieces other writings and op eds written during the first years of the twenty first century about current political economic cultural and social events which are shaping our reality The author Jim Smith has a unique perspective stemming from his childhood experiences of growing up on the carnival living in a rural area experiencing poverty and homelessness and then radicalization through the anti war and civil rights movements of the 1960 s

and 1970 s The writings are about the great challenges facing the future of democracy the struggle for equality and equity and will hopefully add to a civil discourse on the solutions to the social economic and cultural problems that are interwoven within the times we live in These issues and concerns have kept thinking people awake at night trying to figure out how we got here how to reach a consensus for solutions for the common good and how to protect the gains made in the prior century from the forces at work to deconstruct and destroy them currently Hence the title American Insomniac The problems and challenges are complex The forces at work on all sides are equally complex with intentions that are both noble and immoral No perspective is purely evil or purely altruistic But there is still truth facts and progress to oppose lies fiction and barbarism

This is one person s attempt to add to this conversation *Migrations and Mobilities* Seyla Benhabib, Judith

**Ritual Making Women** Jan Berry, 2017-07-05 Ritual Making

Women looks at the way in which women s making of ritual has emerged from the rapidly developing field of women s

spirituality and theology The author uses ethnographic material to explore how the construction of ritual uses story making

and embodied action to empower women Ritual far from being a timeless and universal practice is shown to be a contextual

and gendered performance in which women subvert conventional distinctions of private and public The book combines

narrative and case study material and draws on feminist theology and theory social anthropology and gender studies

**Insurgent Truth** Lida Maxwell, 2019-05-31 When Chelsea Manning was arrested in May 2010 for leaking massive amounts of classified Army and diplomatic documents to WikiLeaks she was almost immediately profiled by the mainstream press as a troubled person someone who had experienced harassment due to her sexual orientation and gender non

conformity and who leaked documents not on behalf of the public good but out of motives of personal revenge or as

suggested in the New York Times delusions of grandeur Compared implicitly to Daniel Ellsberg s apparently selfless devotion

to the truth and the public good Manning comes up short in these profiles a failed whistleblower who deserves pity rather

than political solidarity The first book length theoretical treatment of Manning s actions *Insurgent Truth* argues for seeing

Manning s example differently as an act of what the book terms outsider truth telling Bringing Manning s truth telling into

conversation with democratic feminist and queer theory the book argues that outsider truth tellers such as Manning tell or

enact unsettling truths from a position of social illegibility Challenging the social alignment of credibility with gendered

classed and raced traits outsider truth tellers reveal oppression and violence that the dominant class would otherwise not see

and disclose the possibility of a more egalitarian form of life Read as outsider truth telling the book argues that Manning s

acts were not aimed at curbing corporate or governmental bad acts but instead at transforming public discourse and agency

and inciting a solidaristic public The book suggests that Manning's actions offer a productive example of democratic truth telling for all of us Lida Maxwell develops this argument through an examination of Manning's prison writings the lengthy chat logs between Manning and the hacker who eventually turned her in various journalistic artistic and academic responses to Manning and by comparing Manning's example and writings with the work and actions of other outsider truth tellers including Cassandra Virginia Woolf Bayard Rustin and Audre Lorde Showing the shortcomings of existing approaches to truth and politics Maxwell advances a new theoretical framework through which to understand truth telling in politics not only as a practice of offering a pre political common ground of facts to politics but also as the practice of unsettling public discourse by revealing the oppression and domination that it often masks **Against Recognition** Lois McNay,2008-02-04

In this book Lois McNay argues that the insights of the recognition theorists are undercut by their reliance on an inadequate account of power **Artists, Cosmopolitanism, and the Civic Imagination** Maria Rovisco,2025-02-17 Artists

Cosmopolitanism and the Civic Imagination unpacks the political agency of artists by looking at artists as moral reflexive and political agents Do artists play a role in civil society Can artists make a difference in the world In what ways do artists act politically To address these questions this book moves away from a focus on social organisation and the production of art to ask how artists attach meaning to their interventions in social and political conditions Maria Rovisco draws from in depth interviews with UK based visual artists and theatre practitioners with a migrant background and semiotic analysis of a theatre play visual artworks and film texts to argue that artists are quintessential cosmopolitans who care deeply about changing society for the better By explaining how artists get involved in cross cultural encounters this book reveals the processes of listening reflection imagination social learning and moral intentionality through which artists imagine and realise their visions of a better world In so doing it offers a new direction in thinking about the intersection of art and politics by showing how artists play a crucial role in building a civic culture outside traditional sites of political participation This book will be essential reading for students and scholars across the social sciences and the humanities with interests in migration citizenship and the public sphere cultural sociology media and culture cosmopolitanism and art Living Through

the Soviet System Leo Lowenthal,2017-07-05 For a period of over seventy years after the 1917 revolutions in Russia talking about the past either political or personal became dangerous The situation changed dramatically with the new policy of glasnost at the end of the 1980s The result was a flood of reminiscence almost nightly on television and more formally collected by new Russian oral history groups and also by Western researchers Daniel Bertaux and Paul Thompson both began collecting life story and family history interview material in the early 1990s and this book is the outcome of their initiative Living Through the Soviet System analyzes through personal accounts how Russian society operated on a day to day level It contrasts the integration of different social groups the descendants of the pre revolutionary upper classes the new industrial working class or the ethnically marginalized Russian Jews It examines in turn the implications of family relationships working

mothers absent fathers and caretaking grandmothers patterns of eating together and of housing the secrecy of sex the suppression of religion and the small freedoms of growing vegetables on weekends on a dacha plot Because of its basis in direct testimonies the book reveals in a highly readable and direct style the meaning for ordinary men and women of living through those seven dark decades of a great European nation Because of the centrality of Soviet Russia to the history of the twentieth century world this book will be of interest to a wide range of readers It will be of importance to students researchers and teachers of history and sociology as well as specialists in East European and other communist societies

**On Living Through Soviet Russia** Daniel Bertaux, Anna Rotkirch, Paul Thompson, 2004-08-02 For a period of over seventy years after the 1917 revolutions in Russia talking about the past either political or personal became dangerous The new policy of glasnost at the end of the 1980s resulted in a flood of reminiscence almost nightly on television and more formally collected by new Russian oral history groups and western researchers This book is a fascinating collection of life stories and family history interview material collected by the editors and two Russian groups of interviewers

**Fluid Gender, Fluid Love** Deirdre Byrne, Wernmei Yong Ade, 2018-10-16 Gender and love are so intimately interconnected that it sometimes seems as though they bring each other into being But their relationship is shifting as human society develops new understandings of identity gender and the self The chapters in this volume explore the convoluted and ever changing nature of love gender and identity from a variety of disciplines and perspectives bearing testimony to the perennial appeal of this field of inquiry There are chapters on the historical constructions of love and gender the philosophical aspects the faultlines in twenty first century heteronormativity and the challenges of love from and within the margins Gender and love are interdisciplinary and this volume will appeal to scholars from all disciplinary protocols
