drawing on comparative sociological research among Russian Jewish immigrants Although citizens of Jewish origin ostensibly left the former Soviet Union to flee persecution and join their co religionists Israeli North American and German Jews were universally disappointed by the new arrivals tenuous Jewish identity In turn Russian Jews whose identity had been shaped by seventy years of secular education and assimilation into the Soviet mainstream hoped to be accepted as ambitious and hard working individuals seeking better lives These divergent expectations shaped lines of conflict between Russian speaking Jews and the Jewish communities of the receiving countries Since her own immigration to Israel from Moscow in 1991 Remennick has been both a participant and an observer of this saga This is the first attempt to compare resettlement and integration experiences of a single ethnic community former Soviet Jews in various global destinations It also analyzes their emerging transnational lifestyles Written from an interdisciplinary perspective this book opens new perspectives for a diverse readership including sociologists anthropologists political scientists historians Slavic scholars and Jewish studies specialists

American Jewry and the Re-Invention of the East European Jewish Past Markus Krah, 2017-11-20 The postwar decades were not the golden era in which American Jews easily partook in the religious revival liberal consensus and suburban middle class comfort Rather it was a period marked by restlessness and insecurity born of the shock about the Holocaust and of the unprecedented opportunities in American society American

Jews responded to loss and opportunity by obsessively engaging with the East European past. The proliferation of religious texts on traditional spirituality, translations of Yiddish literature, historical essays, photographs and documents of shtetl culture, theatrical and musical events culminating in the Broadway musical *Fiddler on the Roof* illustrate the grip of this past on post 1945 American Jews. This study shows how American Jews reimagined their East European past to make it usable for their American present. By rewriting their East European history, they created a repertoire of images, stories and ideas that have shaped American Jewry to this day.

A History of Displaced Knowledge: Austrian Refugees from National Socialism in Australia Philipp Strobl, 2025-04-07. This book follows ideas and knowledge that migrated in the cultural baggage of Austrian refugees who fled to Australia in 1938 and 1939 because of National Socialism. By telling and comparing the stories of twenty six different lives, it highlights the processes of acquisition, transportation, translation and adaption of ideas, knowledge and cultural capital. This provides a unique and colourful insight into the impact of a group of refugees on their host society over several decades. As the book shows, there were many different ways in which displaced people relied upon their social and cultural capital to first escape their oppressive homeland and then build new lives. Once they had arrived in Australia, they used very different approaches to negotiate and promote their knowledge and to exercise agency.

Becoming Post-Communist Eli Lederhendler, 2023. The closing decade of the 20th century witnessed dramatic upheavals across landscapes that had once housed most of the world's Jewish population: the overturning of the East European Communist governments and the fall of the USSR, accompanied by a major Jewish emigration movement. The experts contributing to this volume apply interdisciplinary approaches to analyze and interpret the shifting post communist social and political realities and aid our understanding of recent events.

Handbook of Multicultural Counseling Joseph G. Ponterotto, 2001-04-25. This Second Edition of the *Handbook of Multicultural Counseling* marks an important turning point. It brings together the voices of some pioneers who have paved the way and introduces us to new voices who, while influenced by the pioneers, have taken different paths. Because the multicultural community is well represented in content and scholarship in this second addition, the reader can be assured that the viewpoints represented in this book speak to the core issues of the field. I am excited about this *Handbook* because the authors answer the question that is often heard at many a conference: Where is the research to support multicultural counselling? I am equally excited about this *Handbook* because it breaks new ground by using as its anchor oral histories, which demonstrates that for many of us, multicultural counselling is not simply a research agenda but a life-long journey that cannot always be measured. The underlying theme of social justice only reinforces our commitment to this journey. Drs. Ponterotto, Casas, Suzuki and Alexander have once again helped shape the multicultural conversation. To those who have often said, Where is the research, look no further: Donald B. Pope-Davis, University of Notre Dame. Its First Edition set a standard for a then emerging field. Now, *The Handbook of Multicultural Counseling*, Second Edition, presents not merely an update of the original but a completely reconceived work reflecting the
