More Than a Woman a Woman Marine Karen Haynes, 2015-11-30 Inspiration of this book came to me while I was serving on Recruiting Duty in Shreveport Louisiana I discovered that there were not only myths about what male marines encounter in basic training but more myths about the women marines training Most of what I heard was negative Some of what I heard was that all women marines were masculine None of them were heterosexual I listened as some said that before meeting me that they believed that most of the women that joined the marines were unattractive Also incapable of landing a husband I also heard that only women that did not want to accomplish much in life joined the marines Most of those that I spoke with were thinking as I did before I joined That women could not join the Marine Corps That this branch of the armed services was dominated and designed only for men My goal in writing this book is to share the fact that not only can women become marines but that it can also be a very rewarding experience To also know that I understand just like any occupation everyone will not become a marine If they could we would not be such a recognized branch For those that want a rewarding adventure I feel that they should be a marine The Marine Corps recruiting motto The Few the Proud the Marines shows that the important thing is the quality of the person which is what is looked for and developed That's why many women that have celebrated successful careers in the Marine Corps can say proudly that they are more than women they are women marines

*Women, Warfare and Representation* Emerald M. Archer, 2017-07-13 Women Warfare and Representation considers the various ways the American servicewoman has been represented throughout the 20th century and how those representations impact the roles she is

permitted to inhabit While women have a relatively short history in the American military the last century shows an evolution of women s direct participation in war despite the need to overcome societal sex role expectations The primary focus is on the American case but Emerald Archer also introduces a comparative element showing how women s integration in the military differs in other countries including Great Britain Canada and Israel Adopting an interdisciplinary approach the book draws on military history theory and social psychology to offer a more complete and integrated history of women in the military and their representation in society      **Continental Marine** ,1994-02      **We are Marines!** Linda Cates Lacy,2004
