

## Mosquitoes, Mosquitoes!

Mosquitoes, mosquitoes,  
stop torturing me,  
why can't you behave  
more considerately,  
you've bitten me practically  
down to the bone,  
mosquitoes, mosquitoes,  
please leave me alone!

Mosquitoes, mosquitoes,  
you're hard to ignore,  
I itch and I scratch,  
I can't stand anymore,  
you've bitten my bottom,  
you've bitten my top,  
mosquitoes, mosquitoes,  
I'm begging you, stop!

Mosquitoes, mosquitoes,  
I honestly feel  
it's time that you went  
somewhere else for a meal,  
you've bitten me places  
I can't even see,  
mosquitoes, mosquitoes,  
stop torturing me!

*The Ethics and Poetics of Alterity in Asian American Poetry* Xiaojing Zhou, 2006-05 Poetry by Asian American writers has had a significant impact on the landscape of contemporary American poetry and a book length critical treatment of Asian American poetry is long overdue In this groundbreaking book Xiaojing Zhou demonstrates how many Asian

American poets transform the conventional I of lyric poetry based on the traditional Western concept of the self and the Cartesian I to enact a more ethical relationship between the I and its others Drawing on Emmanuel Levinas's idea of the ethics of alterity which argues that an ethical relation to the other is one that acknowledges the irreducibility of otherness Zhou offers a reconceptualization of both self and other Taking difference as a source of creativity and turning it into a form of resistance and a critical intervention Asian American poets engage with broader issues than the merely poetic They confront social injustice against the other and call critical attention to a concept of otherness which differs fundamentally from that underlying racism sexism and colonialism By locating the ethical and political questions of otherness in language discourse aesthetics and everyday encounters Asian American poets help advance critical studies in race gender and popular culture as well as in poetry The Ethics and Poetics of Alterity is not limited however to literary studies it is an invaluable response to the questions raised by increasingly globalized encounters across many kinds of boundaries The Poets Marilyn Chin Kimiko Hahn Myung Mi Kim Li Young Lee Timothy Liu David Mura and John Yau **Asian American Poets** Guiyou Huang, 2002-05-30 Even though Asian American literature is enjoying an impressive critical popularity attention has focused primarily on longer narrative forms such as the novel And despite the proliferation of a large number of poets of Asian descent in the 20th century Asian American poetry remains a neglected area of study Poetry as an elite genre has not reached the level of popularity of the novel or short story partly due to the difficulties of reading and interpreting poetic texts The lack of criticism on Asian American poetry speaks to the urgent need for scholarship in this area since perhaps more than any other genre poetry most forcefully captures the intense feelings and emotions that Asian Americans have experienced about themselves and their world This reference book overviews the tremendous cultural contributions of Asian American poets Included are alphabetically arranged entries on 48 American poets of Asian descent most of whom have been active during the latter half of the 20th century Each entry begins with a short biography which sometimes includes information drawn from personal interviews The entries then discuss the poet's major works and themes including such concerns as family racism sexism identity language and politics A survey of the poet's critical reception follows In many cases the existing criticism is scant and the entries offer new readings of neglected works The entries conclude with bibliographies of primary and secondary texts and the volume closes with a selected general bibliography **Transnational Asian American Literature** Shirley Lim, 2006 Examines the diasporic and transnational aspects of Asian American literature and engages works of prose and poetry as aesthetic articulations of the fluid transnational identities formed by Asian American writers *Worlding Sei Shônagon* Valerie Henitiuk, 2012-06-16 The Makura no S shi or The Pillow Book as it is generally known in English is a collection of personal reflections and anecdotes about life in the Japanese royal court composed around the turn of the eleventh century by a woman known as Sei Shônagon Its opening section which begins haru wa akebono or spring dawn is arguably the single most famous passage in Japanese literature Throughout its long life The Pillow Book has

been translated countless times It has captured the European imagination with its lyrical style compelling images and the striking personal voice of its author Worlding Sei Sh nagon guides the reader through the remarkable translation history of The Pillow Book in the West gathering almost fifty translations of the spring dawn passage which span one hundred and thirty five years and sixteen languages Many of the translations are made readily available for the first time in this study The versions collected in Worlding Sei Sh nagon are an enlightening example of the many ways in which translations can differ from their source text undermining the idea of translation as the straightforward transfer of meaning from one language to another one culture to another Published in English     Reading the Book of Nature in the Dutch Golden Age, 1575-1715

Eric Jorink,2010-10-25 Traditionally Dutch scientific culture of the Golden Age is regarded as rational pragmatic and utilitarian The role of Christiaan Huygens Johannes Swammerdam and Antoni van Leeuwenhoek in the so called Scientific Revolution was recognised long ago as was the fact that the revolutionary philosophy of Ren Descartes made its first impact in the Netherlands This book challenges the traditional picture First it shows how nature was regarded as a second book of God next to the Bible For many contemplating investigating representing and collecting natural objects was a religious activity Secondly this book demonstrates that the deconstruction of the old view of nature was partly caused by the pioneering exegetical research conducted in the Dutch Republic more specifically the emergence of radical biblical criticism

**The Greenwood Encyclopedia of Asian American Literature** Guiyou Huang,2008-12-30 Asian American literature dates back to the close of the 19th century and during the years following World War II it significantly expanded in volume and diversity Monumental in scope this encyclopedia surveys Asian American literature from its origins through 2007 Included are more than 270 alphabetically arranged entries on writers major works significant historical events and important terms and concepts Thus the encyclopedia gives special attention to the historical social cultural and legal contexts surrounding Asian American literature and central to the Asian American experience Each entry is written by an expert contributor and cites works for further reading and the encyclopedia closes with a selected general bibliography of essential print and electronic resources While literature students will value this encyclopedia as a guide to writings by Asian Americans the encyclopedia also supports the social studies curriculum by helping students use literature to learn about Asian American history and culture as it pertains to writers from a host of Asian ethnic and cultural backgrounds including Afghans Chinese Japanese Koreans Filipinos Iranians Indians Vietnamese Hawaiians and other Asian Pacific Islanders The encyclopedia supports the literature curriculum by helping students learn more about Asian American literature In addition it supports the social studies curriculum by helping students learn about the Asian American historical and cultural experience

*The Poem and the Insect* David Spooner,2002-03-19 This book is an extension of Dr Spooner s previous work on the interplay of insect processes and human culture as discussed in *The Metaphysics of Insect Life* ISP 1995 It continues the application of the literary philosophical and scientific methods employed there to the main currents in the evolution of
