## **Onboard Croatian Learn A Language Before You Land:**

**Becoming a Somebody** Steven Nyczkyk, 2019-09-21 Ignat Kaneff arrived in Canada in 1951 with a mere five dollars to his name no English and very little education Within five years he had started a construction company and broken ground on his first subdivision kicking off a career as one of the country's top businessmen His is one of Canada's great immigrant success stories

*How the Ship Changed My Life* Goran Žganec, 2025-01-03 Due to the difficulty to find a job in his city Goran chooses the type of career that changed his life He started to work on a cruise ship in the hospitality industry in 2013 He has three contracts in three different cruise ships He considers this experience the most difficult but also the most valuable that life has taught him Working on a vessel requires huge sacrifices like being miles away for more than half a year from family and friends working with different nationalities and cultures brutally heavy pace of minimal ten working hours every day and often even more without normal sleeping hours but on the other hand a piece of relaxation that makes it very special such as travelling to various attractive world tourist destinations and creating unforgettable friendships and adventures Because of his soccer dream he left the cruiser in 2016 together with Elizabeth from Peru back then his girlfriend today his wife and since 2017 they live in Munich Germany From the first day spent on the ship during all the rich experiences and adventures until the last disembarkation through magical Peru and a special proposal on the beautiful Machu Picchu to the current life in Germany he continues to explore new places and shares his soccer passion Ship life inspired him to write this book and motivate people in achieving their biggest goals because he strongly believes that everything is possible if the person really wants it

*The Hand* Brett Stephan Bass, 2017-04-19 Here we stand you and I gazing with wonderment at the heavens not realizing the breadth and depth of what we humans call reality defined by our dictionaries as fidelity to nature As a species Homo sapiens in Latin wise person has been the end result so far of a grand evolutionary experiment that has taken 4.54 billion years since the earth formed and our hominin species arrived 100 000 200 000 years ago migrating from the Rift Valley of Africa approximately 60 000 years ago to populate the earth So why do you and I exist Is existence or conscious awareness ephemeral disposed of in a mere blink of a cosmic eye like a newspaper read and then discarded Or rather does human consciousness surrender its fleshy tomb to continue on a journey to a dimension housing a continuum beyond the current understanding of man Physicists and astronomers continue a slow and deliberate trek to attempt to unmask the composition and complexion of reality In their quest to reconcile Einstein's general relativity the world we live in with the quantum world the subatomic building blocks which make life possible scientists have been met with seemingly insurmountable obstacles defying attempts to untangle the grand enigma of existence in order to construct a Theory of Everything Adding to the confusion religious dogma desperately clings to tales of fiction intent on impeding man's search for the truth Emerson Alexander Weiss in *The Hand* admonishes us not to walk through life with a blindfold shielding us from the illuminating light of enlightenment His quest to understand himself and to unravel the

mysteries of the universe plots a course that is intended for Homo sapiens to contemplate in earnest in a quest to find eternity's gate
