One Caribbean Issues With Caribbean Integration And Development:

Rethinking Free Trade, Economic Integration and Human Rights in the Americas María Belén Olmos Giupponi, 2017-01-26 This monograph offers the first systematic overview of the protection of human rights in trade agreements in the Americas. Traditionally trade agreements in the Americas were concerned with economic questions and paid little attention to human rights. However, in the wake of the new regionalism which emerged at the end of the last century, more clauses addressing social issues such as labour rights and environmental standards were inserted in trade agreements. As economic integration increased, a framework for the protection of human rights evolved. This book argues that this framework allows for human rights protection on a transnational level while constructing regional identities. Looking at the four key regional integration processes namely the Caribbean Community, the Central American Integration System, the Andean Community of Nations and the Southern Common Market, and also at the North American Free Trade Agreement, it shows how the integration process has reached a considerable degree of consolidation. Writing on key sources in English for the first time, this book will be essential reading for all free trade and human rights scholars. CARICOM Report No. 1

Anthony Peter Gonzales, 2002 **Integration and International Dispute Resolution in Small States** Petra Butler, Eva Lein, Rhonson Salim, 2018-06-11 This book provides an insight into commercial relations between large economies and Small States, the benefits of regional integration, the role of Small States as financial centres, as well as B2B and State to State dispute resolution involving Small States. Several contributions allow the reader to familiarise themselves with the general subject matter, others scrutinise the particular issues Small States face when confronted with an international dispute and discuss new and innovative solutions. These solutions range from inventive ideas to help economic growth to appropriate mechanisms of dispute resolution including inter State dispute resolution and specific areas of arbitration such as tax arbitration. Researchers, policy advisors and practitioners will find a wealth of insights, information and practical ideas in this book. *Challenges and Opportunities in Regional Governance of Ocean Ecosystems* Lucia Fanning, Sebastian Unger, Robin Mahon, 2022-09-19 **CARICOM Single Market and Economy** Kenneth O.
