One Child The Story Of Chinas Most Radical Experiment:

One Child Mei Fong, 2015-11-03 A Pulitzer Prize winning journalist offers an intimate investigation of China's one child policy and its consequences for families and the nation at large For over three decades China exercised unprecedented control over the reproductive habits of its billion citizens Now with its economy faltering just as it seemed poised to become the largest in the world the Chinese government has brought an end to its one child policy It may once have seemed a shortcut to riches but it has had a profound effect on society in modern China Combining personal portraits of families affected by the policy with a nuanced account of China's descent towards economic and societal turmoil Mei Fong reveals the true cost of this controversial policy Drawing on eight years of research Fong reveals a dystopian legacy of second children refused documentation by the state only children supporting their parents and grandparents and villages filled with ineligible bachelors A vivid and thoroughly researched piece of on the ground journalism One Child humanizes the policy that defined China and warns that the ill effects of its legacy will be felt across the globe *The Guardian* UK **One Child** Mei

Jecker, 2020-05-01 We live at a time when the human lifespan has increased like never before As average lifespans stretch to new lengths what impact should this have on our values Should our values change over the course of our ever increasing lifespans Nancy S Jecker coins the term the life stage relativity of values to capture the idea that at different stages of our lives different ethical concerns shift to the foreground During early life infants and small children hold dear the value of being cared for and nurtured by someone they trust and their vulnerability and dependency make these the right values for them By early adulthood and continuing into midlife the capacity for greater physical and emotional independence gives people reason to place more emphasis on autonomy and the ability to freely choose and carry out their plan of life During old age heightened risk for chronic disease and disability gives us a reason to shift our focus again emphasizing safeguarding our central capabilities and keeping our dignity and self respect intact Despite different values becoming central at different stages of life we often assume the standpoint of someone in midlife who is in the midst of planning a future adulthood that stretches out before them Jecker coins the term midlife bias to refer to the privileging of midlife Midlife bias occurs when we assume that autonomy should be our central aim at all life stages and give it priority in a wide range of ethical decisions The privileging of midlife raises fundamental problems of fairness It also suggests the possibility of large gaps in the ethical principles and theories at hand *Ending Midlife Bias* New Values for Old Age addresses these concerns in a step wise fashion focusing on later life Jecker first introduces a philosophical framework that extends moral theorizing to older adults addressing midlife bias the life stage relativity of values human capabilities and dignity time s passage the narrative self and justice between old and young She then turns to policy and practice and explores ethical issues in bioethics long term care personal robotic assistants care of the dying and newly dead ageism in medical research the allocation of healthcare mandatory retirement and the future of population aging
