One Jump Ahead Jonathan Schaeffer, 2013-03-09 Why did I write this book I m still not sure After all I m a researcher which means I think I know how to write technical papers But writing for a n technical audience is something I know nothing about It took a lot of effort before I could force myself to sit down to write the first word Once I did however it was hard not to stop When I started this project I didn t know that I had a lot to say and in some sense the results show this The book is much longer than I even imagined it would be Worse yet is that there is a lot of material that I decided not to include It s a good thing that the publishers decided to limit how long the book could be However after much soul searching I think I now know the reasons why I wrote this book First and foremost this book tells an interesting story It s about the life of a checkers playing computer program Chinook from its creation in 1989 to its retirement in 1996 In reality the story revolves around two people with different views of the program As the creator of Chinook I wanted to push the program to become the best player in the world in much the same way that a father might encourage his son to excel at sports **One Jump Ahead** Mark L.
