crown prince Mohammed bin Zayed His reign has been characterized by the rise of the security apparatus and a micromanaged approach to governance Mohammed bin Zayed s strategy of fortification has focused on pre empting threats from the UAE s native population rather than from expatriates or foreign actors As a result he has consolidated power distributing its administration among his tribal and kinship allies In essence Mohammed bin Zayed has driven modernization in order to strengthen his grasp on power This book explores Mohammed bin Zayed s regime security strategy illustrating the network of alliances that seek to support his reign and that of his family In an ever turbulent region the UAE remains critical to understanding the evolution of Middle Eastern authoritarian control Marijuana David E. Newton,2017-01-16 This single volume resource provides sound up to date information and authoritative resources for research on the controversial topics of the use of marijuana for medical and recreational purposes and the effects of marijuana use on society The use of marijuana has consistently been a highly controversial polarizing and emotional topic so much so that social cultural and religious factors have largely influenced public opinion legislation and law enforcement s treatment of marijuana use At the same time much of the scientific information about the plant has largely been ignored in the policies and practices of the United States over the past 100 years Marijuana A Reference Handbook provides detailed coverage of the history and background of marijuana use in society with special emphasis on the present day in the United States It outlines the development of federal and state legislation with respect to marijuana use over the last century focusing on changes that are taking place in the second decade of the 21st century and examines the pros and cons of the use of marijuana for a variety of purposes The book presents readers with unbiased research based information about the effects benefits and risks of marijuana use Readers will also learn about the role of hemp across human history and about very recent legislative action on the use of marijuana for both recreational purposes and medical use Reforming Civil Procedure Dominic De Saulles,2019-05-16 Drawing on political social and economic theory Reforming Civil Procedure focuses on the English civil justice system by looking at its history and its processes The book considers the objectives of civil procedure and how it operates for and against particular societal groups and what ideas and behaviours impact upon it The reform of civil procedure has been beset with difficulties Some are caused by questions of culture and mind sets resistant to the changes some by a confusion and conflict of values some by overambitious reform efforts some by a failure to follow through on purpose clauses and some by swinging from laxity to rigidity with insufficient analysis This book makes a strong contribution to the field by synthesising the work of English writers with different views extending the work in England on the role of philosophy values process and culture in litigation and engaging extensively with American writers who have not previously been the subject of much attention in English civil procedural studies **2017 Catalog of Federal Domestic Assistance** United States. Guns and College Homicide Stephen K. Boss, 2019-01-10 At a time when mass shootings in schools and other public spaces have become commonplace it might seem surprising that American college campuses are not magnets for murderers but sanctuaries from them Because of remarkably effective gun safe policies deaths by firearms on college campuses are 1 000 times less frequent than in the U S public at large Drawing on crime data submitted in compliance with the Clery Act and public reports of those crimes this study inventories every documented homicide at a U S college or university between 2001 and 2016 making a compelling argument for using gun safe campuses as guides for broader public safety

Museums and Racism Kylie Message,2018-05-15 Racism is a hot topic in museums today as well as an urgent social issue Focused on the broad field of multicultural policy Museums and Racism examines how the Immigration Museum in Melbourne Australia has responded to political culture and public debate around racism Analysis focuses on the conceptualization of the Immigration Museum in the mid 1990s and on the most recent permanent exhibition to be opened there in 2011 which coincided with the publication of a new multicultural policy for Australia The opening of the National Museum of Australia in Canberra in the intervening period is also examined in some detail as a comparative case study to provide a sense of the broader national social and political context Message argues that each of the three episodes demonstrates the close relationship between museum and exhibition development on the one hand and policy politics and public opinion on the other hand Including a discussion of examples from the United States and other relevant contexts Museums and Racism is key reading for students and scholars of museum studies and cultural studies around the world The book should also be of great interest to museum practitioners and policymakers in the area of multiculturalism

Urban Planning in Mexico Paavo Monkkonen, Jorge

Canez, Aurora Echavarría, 2020-12-31 This book examines the scope of urban planning in Mexico through case studies of four municipalities Campeche Hermosillo Leon and Morelia that have recently updated their plans using new federal guidelines We seek to advance a research agenda on the impacts of planning and its effectiveness by proposing some foundations for how to assess planning processes as well as to provide guidance for the federal government of Mexico in its oversight of municipal planning practice and recommendations for the four cities we study We begin with the concern that the debate over whether urban planning in Mexico works suffers from a lack of shared definitions about what is and is not within the scope of urban planning and a shared conceptual framework for assessing the planning process The case studies were conducted as part of a graduate studio in the Department of Urban Planning at UCLA They rely on multiple interviews with planners and professionals in each city as well as documentary and data analysis and literature reviews We use a framework of five processes creating a plan implementing the plan raising revenue to fund urban infrastructure upgrading existing neighborhoods to ensure equal access across neighborhoods and investing in new infrastructure to support growth Each case presents a brief urban history and contextual data a description of local government planning activities the current plan the city's political history and transparency in local planning an assessment of planning processes the mechanisms for changing land uses and examples one infrastructure project and enforcement of land use rules and an evaluation of the plan itself including some GIS analysis local zoning and federal policy The book's recommendations fall into three areas making plans into part of an ongoing and iterative process increasing coordination between municipal budgeting and planning and creating transparency and public input to the planning process More specifically we find that new plans often ignore successes and failures of prior plans they do not periodically assess indicators to gauge impact and discretionary changes in between plan updates diminishes the importance of the plan itself In the second area we argue that the scope of planning must be

expanded The plan should be integrated with the municipal budgeting process and municipalities in Mexico should work to generate more local revenues to adequately fund plans Finally in the third area we recommend making planning documents zoning maps and basic data on urban conditions accessible to the public A lack of transparency and the often opaque decision making processes harm the legitimacy of governance We also outline how the federal government can play a role in advancing these recommendations for local planning processes
