Are there existing alternatives to corporate globalization? What are the prospects for, and commonalities between, communities and movements such as Occupy the World, Social Forum, and alternative economies? **Globalization Development and Social Justice** advances the proposition that another globalization is not only possible but already exists. It demonstrates that there are multiple pathways towards development with social justice and argues that enabling propositional agency rather than oppositional agency such as resistance is a more effective alternative to neoliberal globalization. El Khoury develops a theory of infraglobalization that emphasizes creative constitution, not just contestation, of global and local processes. The book features case studies and examples of diverse economic practice and innovative emergent political forms from the Global South and North.
