

AUTOMATIC HEATING

Controls

The Chevrolet Air Flow Heater provides all-year comfort regardless of weather. In winter, the desired temperature is automatically maintained, using either outside or inside air. In the summer, maximum ventilation is assured by large, unrestricted air inlets.

HEATING

"Temp" Knob — Move to position that maintains desired car temperature.

"Blower-Air" Knob — Move to "Outside Air." Use "Inside Air" in congested traffic. In either location, blower automatically starts, and may be regulated or stopped by moving upper portion of knob.

DEFROSTING

"Def" Knob — With heater operating, move "Def" knob to right just enough to keep windshield clear.

SUMMER VENTILATION

"Blower-Air" Knob — Move to "Summer Vent" position. Be sure "Temp" knob is at extreme left.
