Linthicum, Sue Wier, 2023-05-03 Everyone at some point has encountered great pain in their lives but a single heart wrenching experience when I was a rebellious eighteen year old shook me to the core It not only changed the course of my life but continues to touch the hearts of those who hear the story today In this book you will read about my true life experiences on and off the mission field You will stand alongside me as I work with Mother Teresa in India You will witness the miracles I experience first hand in the Middle East and learn from my encounter with demons in the darkest corners of Africa Come along with me on this journey as we explore what unconventional faith looks like I will challenge you to take risks move beyond your past mistakes and develop a more authentic relationship with God **Borders, Fences and Walls** Elisabeth Vallet, 2016-04-08 Twenty years after the fall of the Berlin Wall the question remains Do good fences still make good neighbours Since the Great Wall of China the Antonine Wall built in Scotland to support Hadrian's Wall the Roman Limes or the Danevirke fence the wall has been a constant in the protection of defined entities claiming sovereignty East and West But is the wall more than an historical relict for the management of borders In recent years the wall has been given renewed vigour in North America particularly along the U S Mexico border and in Israel Palestine But the success of these new walls in the development of friendly and orderly relations between nations or indeed within nations remains unclear What role does the wall play in the development of security and insecurity Do walls contribute to a sense of insecurity as much as they assuage fears and create a sense of security for those behind the line Exactly what kind of security is associated with border walls This book explores the issue of how the return of the border fences and walls as a political tool may be symptomatic of a new era in border studies and international relations Taking a multidisciplinary approach this volume examines problems that include security issues the recurrence and or decline of the wall wall discourses legal approaches to the wall the wall industry and border technology as well as their symbolism role objectives and efficiency
