illustrate the potential measurement has and how this can make a big difference to your ecommerce website's performance. For those experienced in ecommerce we wanted to provide you with a list of metrics and to help you present the right information to your leadership so they take notice. There's a saying what gets measured gets done. But in a digital world that's constantly evolving metrics too need to be reimagined as customer behaviors and expectations change. Ben guides readers through digital measurement maturity to rally the entire organization around what matters better outcomes for customers and driving meaningful business growth. Brian Solis Global Innovation Evangelist Salesforce and author of LifeSCALE.

Highlights from the book We want people who read this book to understand the importance of measurement how it can point you in the right direction and you grow your ecommerce revenue. We have outlined this in the book with the following items:

- 4 different levels of digital measurement maturity and checklists on how to improve.
- The specific metrics aligned to maturity and job role in the organisation.
- How to organise your team to measure and action your data.
- Learn to build your digital benchmark.
- Understand how to diagnose trading and campaign performance.

We want people to create a culture of measurement and think about measurement before any project starts and not after the website has gone live. Every day measurement is not in place you are completely blind to what your website visitors are doing and what you need to do to generate more profit. This book is for Chief Digital Officers, Senior leaders in digital, Heads of Ecommerce, Media teams, CRM teams, Traders, Merchandisers, Heads of finance.

The Economics of Fintech Sahoko Kaji, Teruo Nakatsuma, Masahiro Fukuhara, 2021-02-20. This book is a collection of academic lectures given on fintech, a topic that has been written about extensively but only from a business or technological point of view. In contrast to other publications on the subject, this book shows the reader how fintech should be understood in relation to economics, financial theory, policy, and law. It provides introductory explanations on fintech-related concepts and instruments such as blockchains, crypto assets, machine learning, high frequency trading, and AI. The collected lectures also point to surrounding issues including start-ups, monetary policy, asset management, cyber, and other security and stability of financial systems. The authors include professors, a former central bank official, current officials at Japan's Financial Services Authority, a lawyer, the former dean of the Asian Development Bank Institute, and private sector professionals at the frontline of fintech. The book is most suitable for those both within and outside of academia who are beginning to learn about fintech and wish to successfully take part in the revolution that is certain to have wide-ranging effects on our economy and society.
