Stapledon Collection (Father of Science-Fiction) William Olaf Stapledon, 2024-01-19 This Excellent Collection brings together Stapledon's longer major books and a fine selection of shorter pieces and Science Fiction Books. This book created and collected in Olaf Stapledon's Most important Works illuminate the life and work of one of the most individual writers of the XX century a man who elevated political writing to an art. William Olaf Stapledon 1886-1950 is one of the great figures in the history of British science fiction. The philosophical depth and imaginative breadth of his novels signified an important stage in the development of the genre inspiring and influencing many subsequent writers. As a lecturer for the Workers Educational Association and The University of Liverpool, Stapledon began publishing academic essays in 1908 and took a doctorate in Philosophy in 1925. He was a relative late comer to fiction but eventually found in this expansive form a means of exploring his complex ideas of community and spirit. Last and First Men cover. In 1930 he published his first novel Last and First Men followed by Odd John 1935 Star Maker 1937 and Sirius 1944. Although Stapledon wrote other works of fiction these are the novels that made the greatest impact during his lifetime and which continue to receive widespread critical acclaim. This Collection included The Man Who Became a Tree A Modern Magician East Is West Arms Out of Hand A World of Sound The Flames The Road to the Aide Post A Man Divided Four Encounters Death into Life Last and First Men Last Men in London Odd John Sirius Star Maker Nebula Maker The Seed and the Flower Far Future Calling Olaf Stapledon Robert Crossley, 1994-07-01 William Olaf Stapledon is best remembered for the extraordinary works of speculative fiction he published between 1930 and 1950. As a novelist he was known as the spokesman for the Age of Einstein and has influenced writers as diverse as Virginia Woolf, Arthur C. Clarke and Doris Lessing. This biography is the first to draw on a vast body of unpublished and private documents, interviews, correspondence, archival material and papers in private hands to reveal fully the internal struggles that shaped Stapledon's life and reclaim for public attention a distinctive voice of the modern era. Late in his life in an unpublished letter to the future, Stapledon unwittingly provided the rationale for his biography. It is just possible that my very obscurity may fit me to speak more faithfully for my period than any of its great unique personalities. A pacifist in World War I, an advocate of European unity and world government, one of the first teachers in the Workers Educational Association and an early protestor against apartheid, Stapledon turned utopian beliefs into practical politics. With roots in the shipping worlds of Devon, Liverpool and the Suez Canal, he was transformed from a self-described provincial on the margins of English literary and political life into a visionary idealist who attracted the attention of scientists, journalists and novelists and given his left-wing political affiliations even the F B I. Stapledon's novels Last and First Men, Star Maker, Odd John and Sirius have gathered a passionate following and they have seldom been out of print in the last twenty-five years. But the personal experiences and political commitments that shaped this creative work have until now barely been known. Robert Crossley's work reveals how in public and in private in his social activism as in his fiction Olaf Stapledon embodied many of the modern era's anxieties and hopes that allow his works to continue to speak to and for the future. *Star Maker*
