# MESSAGES from WATER and the UNIVERSE

Masaru Emoto's extensive years spent studying the power and potential of water have provided him with the knowledge to discuss its properties, its role in the creation of the universe and all of life, and why a perfection of love and gratitude can usher in a new age of happiness, well-being, and peace on Earth.

This cutting-edge book offers us proof that our prayers, goodwill, and positive words can heal us . . . as well as the planet. Through his fascinating accounts and stunning photographs, Emoto reveals the urgent messages from water and reminds us that the essence of life (and our own potential) lies in the love and gratitude we hold within our hearts.

Masaru Emoto was born in Japan in July 1943. In 1992 he received a doctorate from the Open International University as a doctor of alternative medicine. He began to discover the mystery of water as he learned the concept of micro-cluster water and Magnetic Resonance Analysis technology. Emoto has gained worldwide acclaim through his groundbreaking discovery that water is deeply connected to our individual and collective consciousness. He is also the author of the best-selling books *The Memory That Heals*, *The Hidden Messages in Water*, and *The Deep Power of Water*.

Explains the universal information code connecting every person, plant, animal, and mineral, and its applications in science, health care, and cosmic unity. Examines research on consciousness, quantum physics, animal and plant intelligence, emotional fields, Kirlian photography, and the effects of thoughts, emotions, and music on water. Reveals the connections between the work of Ervin Laszlo on the Akashic field, Rupert Sheldrake on morphogenetic fields, Richard Gerber on vibrational medicine, and Masaru Emoto on the memory of water. DNA dictates the physical features of an organism. But what dictates how something grows from the division of cells in a human being to the fractal patterns of a crystal? Massimo Citro reveals that behind the complex world of Nature lies a basic code, a universal information field also known as the Akashic field, which records all that was, is, and will be, that directs not only physical development and behavior but also energetic communication and interactions among all living and non-living things. The author examines research on consciousness, quantum physics, animal and plant intelligence, the power of intention, emotional fields, Kirlian photography, and the effects of thoughts, emotions, and music on water. Linking the work of Ervin Laszlo on the Akashic field, Rupert Sheldrake on morphogenetic fields, Richard Gerber on vibrational medicine, and Masaru Emoto on the memory of water, Citro shows how the universal information field connects every person, plant, animal, and mineral, a concept long known by shamans and expounded by perennial wisdom. Putting this science of the invisible to practical use, he explains his revolutionary system of vibrational medicine, known as TFF, which uses the information field to obtain the benefits of natural substances and medications in their pure informational form, offering side-effect-free remedies for health and well-being. **Bliss Is the Goal and the Path** Nithyananda Paramahansa, 2009. **The Keys to the Universe** Diana Cooper, Kathy Crosswell, 2010-12-01.
