Department of Education, 1993 **English I Course of Study and Ninth Grade Honors** Akron Board of Education, 1963 **Opportunities for Learning** Maureen T. Hallinan, 2025-06-15 Opportunities for Learning brings together the works of one of the most highly regarded past presidents of the American Sociological Association focusing on uncovering and addressing educational inequities in elementary and secondary schools Few sociologists of education can rival the depth and breadth of Maureen T Hallinan s contributions to the field This book compiles her writings some of which have never been published before to bring the full insight of both her sociological imagination and her theoretical and empirical research Through articles book chapters and invited lectures Hallinan explores the interplay among theory research and policy Other pieces focus on the importance of opportunities to learn peer friendships and ability grouping for instruction She writes in depth about various attempts of educational reform and the effects of Catholic schools Hallinan sought to address the enduring problems of sociological theorizing and research within education and her writings contribute important insights and provide foundations for the next generation of social scientists This collection demonstrates Hallinan s keen ability to communicate balanced inquiry by engaging multiple perspectives in her theoretical framework coupled with strong empirical testing of the relationships **The Hidden Principalship** Anthony P. Barber, 2013-11-12 The Hidden Principalship is a straightforward practical handbook for principals in the job or for professors to use as a guide for principal instructional programming Becoming a principal is similar to purchasing a house It is an investment A HUGE investment Consider this book as your inspection of the principalship As others are admiring the paint colors this text examines the foundation This book reviews issues of power change and culture but unlike the traditional ways that these and other topics may have been previously presented to you This text will expose the cracks in the foundation so you can see them and decide how you will handle them And at a lower price than any home inspection ever cost This text looks to discover thinking patterns that underlay the work and then provide a clear practical approach for not only the issue at hand but the great thinker behind the issue In addition the text also lends itself to college classrooms as it has case studies for each chapter which are meant to kindle conversation surrounding the topic Furthermore the sections Try It and Don t Try It give further testimony to the practical application of the information This book has a practical approach to leadership theory Each chapter has a Practical Advice section which provides solid guidance for future use **Course of Study in English, Grades 9-12** Hartford (Conn.). Public Schools, 1954 **Desegregating Ourselves** Edward Fergus, 2024-05-04 Challenge the biases and beliefs at the root of disproportionality Although the Supreme Court s landmark decision in Brown v Board of Education recognized the detrimental effects of racist ideology in American education disproportionality and inequality persist in our schools Desegregating Ourselves offers educators a framework for examining

and disrupting the deficit based biases and belief systems that undergird our education system and continue to harm minoritized students This groundbreaking book examines the root causes of persistent disproportionality including systemic inequality color blindness deficit thinking and poverty disciplining all of which create barriers to success for marginalized students Features include An in depth survey of race and racism in the American education system its laws and its policies all of which perpetuate systemic inequality and harmful stereotypes A practical framework for developing cross cultural skills and dispositions that challenge our biases and promote educational equity Concrete strategies for interrupting and replacing deficit based thinking and prejudices Powerful reflections based on survey data from over 4 000 educators which vividly illustrate how our beliefs manifest in schools and in our treatment of students Desegregating Ourselves is a critical guide for educators brave enough to address disproportionality by confronting the biases and belief systems that impact marginalized students By learning to cultivate cross cultural skills and dispositions educators can realize the vision of educational equity for all students

Built to Fail Robert K. Irvine,Randy K. Trani,2014-04-10 This book argues that American schools are marked by fundamental structural deficiencies that get in the way of student achievement The structural deficiencies are pervasive They include the emphasis on grade level building large schools and districts and insistence on building comprehensive high schools These structural deficiencies negatively impact achievement for all kids but they are particularly detrimental to at risk populations In fact at risk populations are negatively impacted to such a disproportionate degree that to continue to maintain these structural deficiencies borders on racism at the worst or pure negligence at the least After identifying the structural problems the authors consider what the best schools in the U S and other countries do to promote excellence Based on what works the authors offer suggestions for fixing the broken structure and promoting educational excellence The book ends with a self diagnostic tool to help schools and districts identify their structural deficiencies and prioritize an action plan for eliminating those deficiencies

Teaching Without Bells Joey Feldman, 2016-01-08 Small schools have the potential to fundamentally change the conditions of teaching and learning when practitioners deliberately exploit smallness and recognize relationships as a powerful mechanism for improving student achievement Feldman explains the dynamics of teaching in a small high school what having fewer students in a school affords teachers as well as the challenges for teaching that exist alongside the opportunities based on research teacher interviews and the author s own experiences as a practitioner in both small and large schools This book is for any educator or researcher who wants to better understand the kind of promising practices and professional norms that have been nurtured under conditions of smallness Being informed about what is possible and often facilitated in small schools will enable educators to better reflect on their own practice consider certain pedagogical strategies against the organizational characteristics of schools and make educated career choices Armed with this information educators and researchers can become more focused in their advocacy efforts and more empowered to improve our public high schools whether by redesigning them into small schools or by transplanting and translating small school practices and strategies

Integration Interrupted Karolyn Tyson, 2011-02-21 An all too popular explanation for why black students aren t doing better in school is their own use of the acting white slur to ridicule fellow blacks for taking advanced classes doing schoolwork and striving to earn high grades Carefully reconsidering how and why black students have come to equate school success with whiteness *Integration Interrupted* argues that when students

understand race to be connected with achievement it is a powerful lesson conveyed by schools not their peers Drawing on over ten years of ethnographic research Karolyn Tyson shows how equating school success with acting white arose in the aftermath of Brown v Board of Education through the practice of curriculum tracking which separates students for instruction ostensibly by ability and prior achievement Only in very specific circumstances when black students are drastically underrepresented in advanced and gifted classes do anxieties about the burden of acting white emerge Racialized tracking continues to define the typical American secondary school but it goes unremarked except by the young people who experience its costs and consequences daily The rich narratives in *Integration Interrupted* throw light on the complex relationships underlying school behaviors and convincingly demonstrate that the problem lies not with students but instead with how we organize our schools
