The Distant Mirror Joanne Brown, Nancy St. Clair, 2005-12-08 Young adult historical fiction brings the past alive through stories of adventure suspense and mystery The genre is both complex and controversial encompassing novels that range from romance and fantasy to stark historical realism The book examines the various approaches to young adult historical fiction and explores the issues that it has engendered Part One focuses on the broader

issues spawned by the genre itself including its various subgenres the line between fiction and fact to what degree must an author adhere to historical accuracy time boundaries the diary format the protagonist as the outsider who is entitled to write what and literary concerns such as the relationship between accuracy and readability Part Two explores issues of contemporary interest such as race class gender the immigrant experience religion war and nationalism Thought provoking discussions of how these elements are treated in historical novels with emphasis on how current cultural values have shaped the fiction are presented Finally the question of whether novels in this genre are bound by anything other than their respective period setting is posed and it is contended that there are features common to YA historical novels that not only set the genre apart from other YA fiction but also contribute something unique to the larger genre The genesis for much classroom debate suggestions for class discussions and writing assignments as well as sample written responses of these debates from the authors classes are included Teachers librarians instructors of young adult literature courses and teen readers will find this an insightful analysis of YA historical fiction

Fifth Business Robertson Davies, 2001-01-01 The first book in Robertson Davies's acclaimed The Deptford Trilogy with a new foreword by Kelly Link Ramsay is a man twice born a man who has returned from the hell of the battle grave at Passchendaele in World War I decorated with the Victoria Cross and destined to be caught in a no man's land where memory history and myth collide As Ramsay tells his story it begins to seem

that from boyhood he has exerted a perhaps mystical perhaps pernicious influence on those around him His apparently innocent involvement in such innocuous events as the throwing of a snowball or the teaching of card tricks to a small boy in the end prove neither innocent nor innocuous Fifth Business stands alone as a remarkable story told by a rational man who discovers that the marvelous is only another aspect of the real For more than seventy years Penguin has been the leading publisher of classic literature in the English speaking world With more than 1 700 titles Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors as well as up to date translations by award winning translators Jihadi Culture on the World Wide Web Gilbert Ramsay,2013-10-10 Choice Outstanding Academic Title 2014 This volume examines jihadi content on the Internet by drawing on both Arabic and English primary source materials After examining this content as digital media the work looks at how it is productively consumed by online communities including how jihadi individuals construct themselves online and how jihadism is practiced and represented as an online activity The work also discusses the consumption of such jihadi media by those who are hostile to radical Islam and the relation between fantasy pleasure ideology and ordinary life This unique survey features case studies such as the cyberjihadi Irhabi 007 pro US and Israeli patriots who are often openly Islamophobic and Infovlad a forum that became the meeting place for radical Islamists and radical freelance counter terrorists This innovative approach to studying violent content on the Internet is a significant contribution to the literature that will appeal to anyone interested in political violence terrorism and political communication A Passion for Books D. Salwak,1999-04-23 Leading writers and critics including Margaret Drabble Alan Sillitoe and Ferdinand Mount share their passion for books and the joys of reading in an inspiring collection of essays and writings A Passion for Books is both a celebration of the value and importance of reading and a spirited defence against the many gloomy voices in our so called electronic age who say the book will soon be obsolete This book itself a joy to read is written for anyone who cares at all about the past and future of books and reading

Mordecai Richler's Imperfect Search for Moral Values Shana Rosenblatt Mauer,2022-08-15 From his debut as a novelist Mordecai Richler challenged provoked enraged entertained and surprised readers Criticizing him for his portrayals of Canada and accusing him of being anti Jewish many found his mix of progressive sympathies and illiberal satire confounding but hard to ignore His novels were too engaging their subjects crackled with contemporary relevance and their humour was irresistible Mordecai Richler's Imperfect Search for Moral Values is an investigation into Richler's novels and the conflicting reactions they provoked Taking into consideration the most prevalent and voluble responses to his novels Shana Mauer examines the texts themselves and assesses how they stand up to these reactions She asks whether the backlash was justified and whether these novels savaged Canada maligned the Jewish community disparaged women mocked gays and generally despaired of modern life and contemporary culture As the first study of Richler's entire corpus this book considers

these issues in the context of a long career one as consistent as it was varied in which an ideological discourse often but not always evolved Turning away from impressions assumptions and generalizations many informed by Richler s non fiction and on record comments Mauer focuses instead on the substance of the novels themselves finding there a restless search for lasting moral value Mordecai Richler s *Imperfect Search for Moral Values* explores the construction of literary texts that have made Richler one of the most intriguing and successful modern writers as well as an essential voice in Canadian and Jewish literature in the second half of the twentieth century *State of the Nation* John Daniel,Adam Habib,Roger Southall,2003 This anthology provides insightful political analysis of post apartheid South Africa Written by leading South African intellectuals these analyses cover topics such as unemployment trade unionism race relations land reform education international relations and the South Africanisation of the African economy Within each work the inherited apartheid legacy the policies introduced to overcome those legacies and the effectiveness of those policies are addressed *Quest for Silence* Harry A. Wilmer,2000 What ever happened to silence Actually nothing and Harry Wilmer takes great pains to show how we have submerged it under a toxic barrage of noise Using both clinical examples of the power of silence from his case histories and cultural values of silence he uncovers a astonishing theme in the Japanese idea of MA as silence Wilmer points out how silence gives meaning to words dreams thought action and music From his long experience as a Jungian analyst he weaves his ideas into an eminently practical treatise on the phenomenology of silence With many references to literature as well as his personal life experiences and crises he offers a readable and important new story of the universal and spiritual significance of silence in a world of jackhammer noise *Prison Life and Reflections* George Thompson,1850
