**The Notion of Turning in Metaphysical Poetry** Carmen Dörge, 2018 In Metaphysical Poetry there is an emphasis on religious experience which often touches on diverse kinds of turning Among them are religious conversion a turn to God spatial movement turning in space divine transformation turning from one kind into another musical tuning turning as a requisite for harmony and circular turning Moreover there is a strong link between turning and its realisation through the language of the poems Focusing on John Donne and George Herbert this study explores various aspects of turning as well as their interrelation Dissertation Series Religion and Literature Religion und Literatur Vol 7 Subject Poetry

**The Revival of Metaphysical Poetry** Joseph Ellis Duncan, 1959 The Revival of Metaphysical Poetry was first published in 1959 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions The metaphysical style as expressed in its most distinguished and distinguishable form by the seventeenth century poet John Donne has had an increasing influence on latterday critics and poets Thus it is important to an understanding of literary history to examine this revival Professor Duncan traces the movement and analyzes changing interpretations of the style in the work of British and American poets and critics He shows that much of the new criticism and the metaphysical poetry of T S Eliot and that of the metaphysical style has thrived on fresh critical interpretation and vital

J. Smith, 1992-01-09 English metaphysical poetry from Donne to Marvell is conspicuously witty A J Smith seeks the central importance of wit in the thinking of the metaphysical poets and argues that metaphysical wit is essentially different from other modes of wit current in Renaissance Europe Formal theories and rhetorics of wit are considered both for their theoretical import and their appraisals of wit in practice Prevailing fashions of witty invention are scrutinized in Italian French and Spanish writings so as to bring out the nature and effect of various forms of wit conceited hieroglyphic transformational and others from which the metaphysical mode is distinguished He locates the basis of Renaissance wit in the received conception of the created order and a theory of literary innovation inherent in Humanist belief which led to novel couplings of time and eternity body and soul man and God Yet he finds that metaphysical wit distinctively works to discover a spiritual presence in sensible events and he traces its demise in the 1660s to changes in the understanding of the natural world associated with the rise of empirical science      *John Donne's Metaphysical Love Poetry* Sabine Strebel, 2019-03-25 Seminar paper from the year 2018 in the subject Didactics for the subject English Literature Works grade 2.0 Johannes Gutenberg University Mainz language English abstract Most people would think of Shakespeare if they were asked for the most famous poet of the Elizabethan era He invented the Shakespearean Sonnet after all which is probably the only type of Renaissance poem German students have to read during their school career However Shakespeare was not the only author of sonnets during this time Someone who deserves just as much acknowledgement in this area is John Donne who had an especially meteoric comeback in 1921 due to the publication of Eliot's essay The Metaphysical Poets Roland Greene an editor for the Princeton Encyclopedia of Poetry and Poetics shows in the encyclopedia that many scholars actually consider Donne to be one of the greatest poets in the English language His work focused on themes of love and devotion both the physical and spiritual kinds The latter can be also found in his poem A Valediction Forbidding Mourning In this poem Donne describes a situation every person who has fallen in love can relate to the lovers face an upcoming farewell Although the poem was written around 400 years ago it still addresses issues that can be found in several poems songs or other stories of our time Maybe it would be too easy to compare Donne's metaphysical love poetry to a current pop song since he

elaborates this valediction with something resembling a catchy refrain a series of four metaphysical conceits where he unleashes all his rhetorical cleverness as Greene calls it What the title suggests and what also emerges upon a first reading is that the speaker wishes to forbid any mourning about the parting of the two lovers They appear strong and well prepared since their love outshines the love of dull sublunary lovers 13 But after further reflection and rereading the poem the reader can deduce that the speaker is trying to cover up his worries and fears over the parting Baumlín raises the question of whether the last three stanzas in Donne's poem serve as a doubting promise that the speaker will return and a plea for the woman's continued faith

**The Metaphysical Poets** David Reid, 2014-06-11 The Metaphysical Poets provides an introduction to the work of six strikingly various and original poets Donne Herbert Crashaw Vaughan Marvell and Traherne By closely examining how the poems work the book aims to help readers at all stages of proficiency and knowledge to enjoy and critically appreciate the ways in which fantastic and elaborate styles may express private intensities The emphasis is on the differences covered by the term Metaphysical and on the rich and strange diversity of the poets' inner lives The book examines the expressive forms of interiority the characteristic inward turn of Metaphysical wit and compares the wit of its six poets with the non-introspective wit of poets such as Cowley the Cavaliers and the Augustans The discussion of each poet is preceded by a Life in which the biographical facts personal cultural and political are treated with a view to illuminating the concerns of the poems

**Metaphysical Poetry** David Palmer, 1970 **Four Metaphysical Poets** John Donne, Richard Willmott, 1985 Concentrating on the major works of Donne Marvell Vaughan and Herbert Richard Willmott has provided an anthology of metaphysical verse for readers coming to the poetry for the first time Metaphysical poetry is notorious for its difficulty in this selection Richard Willmott provides detailed explanatory notes giving in depth information on the period the poets and metaphysical style and to ensure a full understanding line by line exegesis of the poems themselves is given where necessary The anthology contains about 20-25 poems for each poet represented and a further section of other contemporary poetry which elucidates themes or approaches in the work of the four main poets in the collection and encourages readers to relate an individual poem to a broader context

**Four Metaphysical Poets** John Donne, Douglas Brooks-Davies, 1997 This anthology poems by John Donne George Herbert Andrew Marvell and Thomas The Visual in Metaphysical Poetry Mary Cole Sloane, 1981

*Five Metaphysical Poets* Joan Bennett, 1964-01-03 Mrs Bennett's Four Metaphysical Poets Donne Herbert Vaughan and Crashaw was issued under a new title in 1964 with an additional chapter on Andrew Marvell It is that text which is reprinted here In her study Mrs Bennett has analysed emphasised and illustrated the qualities of metaphysical poetry in general and the peculiarities of the individual poets She shows that if we retain the word metaphysical as a label for a poetic tradition it is as appropriate to Marvell as it is to Vaughan and more so than to Crashaw

European Metaphysical Poetry Frank Warnke, 2011-10-01 **The Varieties of Metaphysical Poetry** T. S. Eliot, 2018-06-01 The famed series of

Trinity College and Johns Hopkins lectures in which the Nobel Prize winner explored history poetry and philosophy While a

student at Harvard in the early years of the twentieth century T S Eliot immersed himself in the verse of Dante Donne and the nineteenth century French poet Jules Laforgue His study of the relation of thought and feeling in these poets led Eliot as a poet and critic living in London to formulate an original theory of the poetry generally termed metaphysical philosophical and intellectual poetry that revels in startlingly unconventional imagery Eliot came to perceive a gradual disintegration of the intellect following three metaphysical moments of European civilization the thirteenth seventeenth and nineteenth centuries The theory is at once a provocative prism through which to view Western intellectual and literary history and an exceptional insight into Eliot s own intellectual development This annotated edition includes the eight Clark Lectures on metaphysical poetry that Eliot delivered at Trinity College in Cambridge in 1926 and their revision and extension for his three Turnbull Lectures at Johns Hopkins University in Baltimore in 1933 They reveal in great depth the historical currents of poetry and philosophy that shaped Eliot s own metaphysical moment in the twentieth century

**Seven Metaphysical Poets**

Robert Ellrodt, 2000 Robert Ellrodt s study of seven poets springing from his wide ranging three volume work *Les Poètes métaphysiques anglais* challenges the postmodernist assumption that no definite or constant self can be traced in the works of a writer Distinct modes of self awareness different emphases in the perception of time and space and various ways of grasping the sensible and the spiritual the human and the divine jointly or separately characterize the minds of Donne and George Herbert Crashaw and Vaughan Lord Herbert Marvell and Traherne Fundamental mental structures affect their attitudes to love death and God and dictate their privileged modes of composition and expression Without neglecting the relations between these individual traits and the general evolution of thought from classical antiquity to the Renaissance or the immediate cultural environment in which each poet wrote this critical study maintains the primacy of individual choice of the unchanging self The book is not based on a theory but on a close scrutiny of the characteristic interplay of personal modes of thought and sensibility
