PETER. GILL,2020 **Collision Course** Hans Greimel,William Sposato,2021-06-22 Named one of the Best Business Books of 2021 by The Wall Street Journal In Japan it s called the Ghosn Shock the stunning arrest of Carlos Ghosn the jet setting CEO who saved Nissan and made it part of a global automotive empire Even more shocking was his daring escape from Japan packed into a box and put on a private jet to Lebanon after months spent in a Japanese detention center subsisting on rice gruel This is the saga of what led to the Ghosn Shock and what was left in its wake Ghosn spent two decades building a colossal partnership between Nissan and Renault that looked like a new model for a global business but the alliance s shiny image fronted an unsteady tense operation Culture clashes infighting among executives and engineers dueling corporate traditions and government maneuvering constantly threatened the venture Journalists Hans Greimel and William Sposato have followed the story up close with access to key players including Ghosn himself Veteran Tokyo based reporters they have witnessed the end of Japan s bubble economy and attempts at opening Japan Inc to the world They ve seen the fraying of keiretsu Japan s traditional skein of business relationships and covered numerous corporate scandals of which the Ghosn

Shock and Ghosn's subsequent escape stand above all. Expertly reported, Collision Course explores the complex suspicions around what and who was really responsible for Ghosn's ouster and why one of the top executives in the world would risk everything to escape the country. It explains how economics, history, national interests, cultural politics, and hubris collided, crumpling the legacy of arguably the most important foreign businessman ever to set foot in Japan. This gripping, unforgettable narrative full of fascinating characters serves as part cautionary tale, part object lesson, and part forewarning of the increasing complexity of doing global business in a nationalistic world.

Virales Marketing in der Automobilindustrie: Die Zukunft der Kommunikationspolitik? Markus Figiel, 2014-06

Ziel dieser Arbeit ist es zu untersuchen, ob das virale Marketing in der Automobilindustrie blo einen temporären Trend darstellt oder sich innerhalb der Rahmenbedingungen der Automobilindustrie als ein wichtiges und nachhaltiges Kommunikationsinstrument etablieren kann. Dazu werden die theoretischen Grundlagen und die Kernelemente des viralen Marketings vorgestellt. Nach der Schaffung eines umfassenden Wissens über das virale Marketing wird untersucht, wie sich die relevanten Rahmenbedingungen der Automobilindustrie auf den Einsatz des viralen Marketings auswirken. Anschließend wird ein spezifisches Vorgehen bei viralen Kampagnen in der Automobilindustrie abgeleitet. In Bezug auf die zentrale Untersuchungsfrage zeigt sich, dass die Individualisierung des Konsumenten, das hohe produktbezogene Involvement sowie der wettbewerbsintensive und zyklische Markt den Einsatz des viralen Marketings in der Automobilindustrie begünstigen. Der komplexe Kaufentscheidungsprozess und die mangelnde Anwendbarkeit des viralen Marketings im B2B-Bereich stellen enorme Einschränkungen dar, die durch die begünstigenden Rahmenbedingungen nicht kompensiert werden können. Dies führt zur Schlussfolgerung, dass das virale Marketing langfristig eine untergeordnete Rolle als Kommunikationsinstrument in der Automobilindustrie einnehmen wird.

Information Modelling and Knowledge Bases XXIV P. Vojtáš, Y. Kiyoki, H. Jaakkola, 2013-01-08

With the growth in our reliance on information systems and computer science, information modeling and knowledge bases have become a focus for academic attention and research. The amount and complexity of information, the number of levels of abstraction, and the size of databases and knowledge bases all continue to increase, and new challenges and problems arise every day. This book is part of the series Information Modelling and Knowledge Bases, which concentrates on a variety of themes such as the design and specification of information systems, software engineering, and knowledge and process management. Attention is also paid to theoretical disciplines including cognitive science, artificial intelligence, logic, linguistics, and analytical philosophy. Selected papers cover many areas of information modeling and knowledge bases, namely theory of concepts, database semantics, knowledge representation.

software engineering WWW information management context based information retrieval ontological technology image databases temporal and spatial databases document data management process management cultural modeling social networks personalization interfaces data mining and many others The book will be of interest to all those involved in research and application in these academic areas

The Life of the Automobile Steven Parissien, 2014-05-13 The Life of the Automobile is the first comprehensive world history of the car The automobile has arguably shaped the modern era more profoundly than any other human invention and author Steven Parissien examines the impact development and significance of the automobile over its turbulent and colorful 130 year history Readers learn the grand and turbulent history of the motor car from its earliest appearance in the 1880s as little more than a powered quadricycle and the innovations of the early pioneer carmakers The author examines the advances of the interwar era the Golden Age of the 1950s and the iconic years of the 1960s to the decades of doubt and uncertainty following the oil crisis of 1973 the global mergers of the 1990s the bailouts of the early twenty first century and the emergence of the electric car This is not just a story of horsepower and performance but a tale of extraordinary people of intuitive carmakers such as Karl Benz Sir Henry Royce Giovanni Agnelli Fiat Andr Citro n and Louis Renault of exceptionally gifted designers such as the eccentric Ohio born Chris Bangle BMW and of visionary industrialists such as Henry Ford Ferdinand Porsche the Volkswagen Beetle and Gene Bordinat the Ford Mustang among numerous other game changers Above all this comprehensive history demonstrates how the epic story of the car mirrors the history of the modern era from the brave hopes and soaring ambitions of the early twentieth century to the cynicism and ecological concerns of a century later Bringing to life the flamboyant entrepreneurs shrewd businessmen and gifted engineers that worked behind the scenes to bring us horsepower and performance The Life of the Automobile is a globe spanning account of the auto industry that is sure to rev the engines of entrepreneurs and gearheads alike

Design for Transport Mr Mike Tovey, 2013-01-28 The central premise of Design for Transport is that the designer's role is to approach design for transport from the point of view of the user People have a

collection of wants and needs and a significant proportion of them are to do with their requirements for mobility The authors show how creative designers can take a user focused approach for a wide range of types of transport products and systems In so doing their starting point is one of creative dissatisfaction with what is currently available and their specialist capability is in imagining and developing new solutions which respond to that opportunity How this is tackled varies depending on the context and the variety of solutions produced reflects the different aspirations and needs of the people they are designing for The chapters cover user needs and transport design and the transport system transport design case studies and the case for the automobile A conclusion briefly signals what the future for transport design might be Lavishly illustrated throughout in four colour Design for Transport is an imaginative and rigorous guide to how designers can take a user centred and socially responsible approach to tackling a range of types of transport from systems to products and from bicycles to automobiles demonstrating a rich array of solutions through case studies

ChainBound Walid el Houri,2013 Every so often a book comes along which challenges everything we think we know about love and relationships a book that takes us on an incredible journey and allows us to glimpse those rare moments in life when love truly conquers all and sometimes the most unlikely candidates find themselves drawn to each other like bees to nectar This is one such book In this book you will discover that true love has no boundaries It is the glue that holds the pages of life together for two unlikely souls who just happen to discover that love is timeless and does not come with an expiration date This book represents the intense love a man has for his wife It s an uncommon union to be sure but make no mistake about it for the love shared by these two unlikely people is real and true You only need to read this love letter written by man to his wife to understand that true love cannot be quenched or stopped it continues to grow into something intense and beautiful What makes this book special is that it proves that fairytales can really come true when you let them Here s one that did I was both entertained and fascinated It is a powerful story and well told A great read John Hughes Wilson
