Levy, 2019-05-07 This book undertakes a critical reappraisal of Minimalism through an examination of three key painters Robert Mangold David Novros and Jo Baer By establishing their substantive engagements with Minimalist discourse as well as their often overlooked artistic exchanges with their sculptor peers it demonstrates that painting crucially informed the movement s development serving not only as an object of critique but also as a crucible for its most central tenets It also poses broader disciplinary implications as it historicizes and challenges Minimalism s death of painting critiques that have been so influential to theories of modernism and postmodernism in the visual arts Encyclopedia of the Sixties Abbe A. Debolt, James S. Baugess, 2011-12-12 Comedian Robin Williams said that if you remember the 60s you weren t there This encyclopedia documents the people places movements and culture of that memorable decade for those who lived it and those who came after Encyclopedia of the Sixties A Decade of Culture and Counterculture surveys the 1960s from January 1960 to December 1969 Nearly 500 entries cover everything from the British television cult classic The Avengers to the Vietnam War and the civil rights movement The two volume work also includes biographies of artists architects authors statesmen military leaders and cinematic stars concentrating on what each individual accomplished during the 1960s with brief postscripts of their lives beyond the period There was much more to the Sixties than flower power and LSD and the entries in this encyclopedia were compiled with an eye to providing a balanced view of the decade Thus unlike works that emphasize only the radical and revolutionary aspects of the period to the exclusion of everything else these volumes include the political and cultural Right taking a more academic than nostalgic approach and helping to fill a gap in the popular understanding of the era **Understanding Minimalist Art: A Simple Guide to Big Ideas** Nova Martian, 2025-05-04 Understanding Minimalist Art A Simple Guide to Big Ideas offers readers a comprehensive and approachable introduction to

artists who have been marginalized until now such as Raoul Hague Peter Grippe and Robert Mallery Strikingly illustrated throughout *The New Monuments and the End of Man* spans the decades from Hiroshima to the Fall of Saigon when the atomic bomb cast its shadow over American art *Robert Smithson* Robert Smithson,Eugenie Tsai,Cornelia H. Butler,Thomas E. Crow,Alexander Alberro,Museum of Contemporary Art (Los Angeles, Calif.),Moira Roth,Whitney Museum of American Art,2004 This catalogue is the major study of Smithson 1938 1973 who is most renowned as an early earthworks artist and creator of Spiral Jetty a 1 500 foot rock coil dramatically situated in the Great Salt Lake **Danish Modern** Mark Mussari,2016-06-16 Danish Modern explores the development of mid century modernist design in Denmark from historical analytical and theoretical perspectives Mark Mussari explores the relationship between Danish design aesthetics and the theoretical and cultural impact of Modernism particularly between 1930 and 1960 He considers how Danish designers responded to early Modernist currents the Stockholm Exhibition of 1930 their rejection of Bauhaus aesthetic demands their early fealty to wood and materials and the tension between cabinetmaker craft and industrial production as it challenged and altered their aesthetic approach Tracing the theoretical foundations for these developments Mussari discusses the writings and works of such figures as Poul Henningsen Arne Jacobsen Hans Wegner Nanna Ditzel and Finn Juhl Intelligent Action Timothy Ridlen,2024-06-14 Through archival research and analysis of artworks by Gyorgy Kepes Allan Kaprow Mel Bochner and Suzanne Lacy among others Intelligent Action examines how these artists brought alternatives to dominant conceptions of research and knowledge production The book is organized around specific institutional formations artistic research centers proposals exhibitions on college campuses and the establishment of new schools or pedagogic programs Formal and social analysis demonstrate how artists responded to ideas of research knowledge production information and pedagogy Works discussed were produced between 1958 and 1975 a moment when boundaries between media were breaking down in response to technological cultural and generational change In the context of academia these artistic practices have taken up the look feel or language of various research and teaching practices In some cases artists bent to the demands of the cold war research university while in others artists developed new modes of practice and pedagogy Reading these works through their institutional histories author Tim Ridlen shows how artistic research practices and artistic subjectivity developed in the long 1960s within and alongside academia transforming the role of artists in the process *Aspects* Edward A. Vazquez,2018-01-02 Stretching lengths of yarn across interior spaces American artist Fred Sandback 1943 2003 created expansive works that underscore the physical presence of the viewer This book the first major study of Sandback explores the full range of his art which not only disrupts traditional conceptions of material presence but also stages an ethics of interaction between object and observer Drawing on Sandback s substantial archive Edward A Vazquez demonstrates that the artist s work with all its physical slowness and attentiveness to place as well as its relationship to minimal and conceptual art of the 1960s creates a link between viewers and space that is best understood as sculptural even as it almost

surpasses physical form At the same time the economy of Sandback's site determined practice draws viewers focus to their connection to space and others sharing it As Vazquez shows Sandback's art aims for nothing less than a total recalibration of the senses as the spectator is caught on neither one side nor the other of an object or space but powerfully within it **Soft Is Fast** Meredith Morse,2023-08-15 An innovative analysis of Simone Forti's interdisciplinary art viewing her influential 1960s dance constructions as negotiating the aesthetic strategies of John Cage and Anna Halprin Simone Forti's art developed within the overlapping circles of New York City's advanced visual art dance and music of the early 1960s Her dance constructions and related works of the 1960s were important for both visual art and dance of the era Artists Robert Morris and Yvonne Rainer have both acknowledged her influence Forti seems to have kept one foot inside visual art's frames of meaning and the other outside them In **Soft Is Fast** Meredith Morse adopts a new way to understand Forti's work based in art historical analysis but drawing upon dance history and cultural studies and the history of American social thought Morse argues that Forti introduced a form of direct encounter that departed radically from the spectatorship proposed by Minimalism and prefigured the participatory art of recent decades Morse shows that Forti's work negotiated John Cage's ideas of sound score and theater through the unique approach to movement essentially improvisational and grounded in anatomical exploration that she learned from performer and teacher Ann later Anna Halprin Attentive to Robert Whitman's and La Monte Young's responses to Cage Forti reshaped Cage's concepts into models that could accommodate Halprin's charged spaces and imagined interpenetrative understanding of other bodies Morse considers Forti's use of sound and her affective use of materials as central to her work examines Forti's text pieces little discussed in art historical literature analyzes Huddle considered one of Forti's signature works and explicates Forti's later improvisational practice Forti has been relatively overlooked by art historians perhaps because of her work's central concern with modes of feeling and embodiment unlike other art of the 1960s which was characterized by strategies of depersonalization and affectlessness **Soft Is Fast** corrects this critical oversight **Reconstructing Exhibitions in Art Institutions** Natasha Adamou,Michaela Giebelhausen,2023-07-13 **Reconstructing Exhibitions in Art Institutions** spans exhibition histories as anti apartheid activism within South African community arts collectivities and trade unions in Argentina Civil Rights movements and Black communities in Baltimore institutional self critique within the neoliberal museum reframing feminisms in USA and revisiting Cold War Modernisms in Eastern Europe among other themes An interdisciplinary project with a global reach this edited volume considers the theme of exhibitions as political resistance as well as cultural critique from global perspectives including South Africa Latin America Eastern Europe USA and West Europe The book includes contributions by ten authors from the fields of art history social sciences anthropology museum studies provenance research curating and exhibition histories The edited volume finally examines exhibition reconstructions both as a symptom of advanced capitalism geopolitical dynamics and social uprisings and as a critique of imperial and capitalist violence Art historical areas covered in

the book include conceptualism minimalism modern painting global modernisms archives and community arts This volume will be of interest to a wide range of audiences including art historians curators gallery studies and museum professionals and also to scholars and students from the fields of anthropology ethnography sociology and history It would also appeal to a general public with an interest in modern and contemporary art exhibitions
