Men without Maps John Ibson, 2019-10-22 In Men without Maps John Ibson uncovers the experiences of men after World War II who had same sex desires but few affirmative models of how to build identities and relationships Though heterosexual men had plenty of cultural maps provided by nearly every engine of social and popular culture gay men mostly lacked such guides in the years before parades organizations and publications for queer persons Surveying the years from shortly before the war up to the gay rights movement of the late 1960s and early 70s Ibson considers male couples who balanced domestic contentment with exterior repression as well as single men whose solitary lives illuminate unexplored aspects of the queer experience Men without Maps shows how in spite of the obstacles they faced midcentury gay men found ways to assemble their lives and senses of self at a time of limited acceptance

The Mourning After John Ibson, 2018-11-01 On the battlefields of World War II with their fellow soldiers as the only shield between life and death a generation of American men found themselves connecting with each other in new and profound ways Back home after the war however these intimacies faced both scorn and vicious homophobia The Mourning After makes sense of this cruel irony telling the story of the

unmeasured toll exacted upon generations of male friendships John Ibson draws evidence from the contrasting views of male closeness depicted in WWII era fiction by Gore Vidal and John Horne Burns as well as from such wide ranging sources as psychiatry texts child development books the memoirs of veterans children and a slew of vernacular snapshots of happy male couples In this sweeping reinterpretation of the postwar years Ibson argues that a prolonged mourning for tenderness lost lay at the core of midcentury American masculinity leaving far too many men with an unspoken ache that continued long after the fighting stopped forever damaging their relationships with their wives their children and each other **Arthur**

Photographs Annie Griffiths, 2014 Capturing the moment in which a firecracker explodes into a burst of electric energy or the last rays of the sun as it stretches across a red rock valley certain special photos offer an unrivalled conduit to the world around us **Renaissance Go-Betweens** Andreas Höfele, Werner von Koppenfels, 2011-12-22 The volume analyses some of

the travelling and bridge building activities that went on in Renaissance Europe mainly but not exclusively across the

Channel true to Montaigne's epoch making program of describing the passage. Its emphasis on Anglo Continental relations ensures a firm basis in English literature but its particular appeal lies in its European point of view and in the perspectives it opens up into other areas of early modern culture such as pictorial art philosophy and economics. The multiple implications of the go between concept make for structured diversity. The chapters of this book are arranged in three stages. Part 1 Mediators focuses on influential go betweens both as groups like the translators and as individual mediators. The second part of this book Mediations is concerned with individual acts of mediation and with the mental topographies they presuppose reflect and redraw in their turn. Part 3 Representations looks at the role of exemplary intermediaries and the workings of mediation represented on the early modern English stage. Key features: High quality anthology on phenomena of cultural exchange in the Renaissance era. With contributions by outstanding international experts.

Fires of Pentecost on the Battlefield James R. Kilmer, The greatest opportunities to reach others for Jesus lie within our circles of influence. These are the days when we can experience the miraculous working power of the Latter Rain. Only the Holy Spirit can break through enemy lines to rescue captives in today's all out battle against truth. Author Jim Kilmer goes beyond urging our need for the Holy Spirit. He demonstrates through real life experiences how to break through the crust of worldliness and indifference to find those being drawn by the Spirit. You will be amazed at the practical and simple ways that a baptism of the Holy Spirit will access hearts that may appear hard and far from God. Apart from fanaticism you will know the genuine fulfillment of the promise. You shall receive power after that the Holy Ghost is come upon you and you shall be witnesses.

Geographies of Embodiment in Early Modern England Mary Floyd-Wilson, Garrett A. Sullivan, 2020-04-15. Geographies of Embodiment in Early Modern England gathers essays from prominent scholars of English Renaissance literature and history who have made substantial contributions to the study of early modern embodiment. Historical phenomenology affect cognition memory and natural philosophy. It provides new interpretations of the geographic dimensions of early modern embodiment emphasizing the transactional and dynamic aspects of the relationship between body and world. The geographies of embodiment encompass both cognitive processes and cosmic environments and inner emotional states as well as affective landscapes. Rather than always being territorialized onto individual bodies ideas about early modern embodiment are varied both in their scope and in terms of their representation. Reflecting this variety this volume offers up a range of inquiries into how early

modern writers accounted for the exchanges between the microcosm and macrocosm. It engages with Gail Kern Paster's groundbreaking scholarship on embodiment, humoralism, the passions, and historical phenomenology throughout and offers new readings of Edmund Spenser, William Shakespeare, Thomas Nashe, John Milton, and others. Contributions consider the epistemologies of navigation and cartography, the significance of geohumoralism, the ethics of self-mastery, theories of early modern cosmology, the construction of place, memory, and perceptions of an animate spirit world.
