An Ordinary Mission of God Theology Andrew R. Hardy, 2022-04-13 The mission church literature seems to be dominated by idealized conceptions of the benefits of equipping congregations to participate in local mission work This investigation challenges this idealism by paying critical attention to congregants' ordinary theologies that develop in reaction to the communication of *Missio Dei* theology to them Their voices are absent from the formal literature The study employs rescripting methodology to modify key assumptions made in the formal ecclesiological literature by drawing on insights that come from Christians' ordinary theological voices The study traces how the introduction of a *Missio Dei* theology to a British Reformed congregation had a significant impact on them A small team of Christian leaders communicated *Missio Dei* theology to this church over a period of six years It found that mission changes came at substantial personal cost to the church's members 1 a schism occurred when congregants attempted to remove the leader responsible for these changes from his office as church pastor and a third of congregants left the church because they did not want to embrace the church's new mission identity 2 three divergent groups then emerged two of them wanted different kinds of churches that seemed incompatible 3 two thirds of members supported and participated in the church's mission activities which put strains on some of their families 4 unresolved tensions continued to impact the congregation throughout the whole change process 5

unexpectedly for a Reformed church a third group made up of women developed prophetic practices that arose due to the mediation of Missio Dei theology. Vitality this thesis challenges the notion that helping churches to become mission focused will make them thrive. *Missional: Impossible!* Francis Rothery, 2014-01-07 Mainline Christianity in the West is dying. Addiction to hierarchical and bureaucratic power is killing it. A management god and a mission god have usurped the Way of Christ. In the midst of decline the missional movement is attempting to reboot the church. Its goal is to remake a New Christian West through mission leadership mapping and planning. Yet it is trapped in the language and methods of modernity. Its final solution is a polarizing vision of cultural domination by one social group the Christians. The Way of Life and Truth has been forgotten. Christ is not a conquering King, a written Word or an absolute Idea but a divine Human Being. Social wholeness can only be realized through a rediscovery of Conversation, Reconciliation and Empowerment. These reflect Christ's practices of eternal dialogue and reciprocal giving in small communities. Through this mutual Way of Life people of all faiths and none can discover deep within themselves. Our Un Known G d A gentle voice is whispering in the heart of all humanity. I am the Way. *Churches, Cultures, and Leadership* Mark Lau Branson, Juan F. Martinez, 2023-02-28 In a world that is more culturally diverse than ever pastors and lay leaders need skills and competencies to serve in multicultural contexts. This rich blend of astute analysis and practical guidance offers a praxis of paying attention, study and discernment that leads to genuine reconciliation and shared life empowered by the gospel. *Church Planting in the Secular West* Paas, 2016 An expert study of church planting in the most secular part of contemporary Europe. In this book Stefan Paas offers thoughtful analysis of reasons and motives for missionary church planting in Europe and he explores successful and unsuccessful strategies in that post Christian secularized context. Drawing in part on his own involvement with planting two churches in the Netherlands Paas explores confessional motives, growth motives and innovation motives for church planting in Europe tracing them back to different traditions and reflecting on them from theological and empirical perspectives. He presents examples from the European context and offers sound advice for improving existing missional practices. Paas also draws out lessons for North America in a chapter coauthored with Darrell Guder and John Franke. Finally Paas weaves together the various threads in the book with a theological defense of church planting. Presenting new research as it does this critical missiological perspective will add significantly to a fuller understanding of church planting in our contemporary context.

Better Together Jim Tomberlin, Warren Bird, 2012-02-27 Thousands of Protestant churches are perplexed by plateaued or declining attendance while other congregations nearby thrive. Is there a way for them to combine forces drawing on both their strengths in ways that also increase their missional impact? Church merger consultant Jim Tomberlin with co writer Warren Bird makes the case that mergers today work best not with two struggling churches but with a vital momentum filled lead church partnering with a joining church. In this new book they provide a complete practical hands on guide for church leaders of both struggling and vibrant churches so that they can understand the issues, develop strategies and execute a

variety of forms of merger for church expansion and renewal to reinvigorate declining churches and give them a second life

Church Transfusion Neil Cole, Phil Helfer, 2012-09-19 Just as our life is in our blood the life for Christ's body is in His blood Changing a church is more than a new goal or direction Our churches need more than an organizational transition we need a full transfusion of Jesus blood His life within every disciple Anything less than that will only perpetuate more of the dysfunction and unhealthy church practices that have already plagued us for too long We are in desperate need of the internally transforming power of the gospel of grace and the presence of Christ so that our salvation is then worked out in a way the rest of the world will notice It isn't enough that we

believe in the facts contained in the gospel we must allow the gospel itself to infect our souls and transform us from within. The DNA of Jesus' lifeblood is needed in our churches and nothing shy of a full transfusion that touches every cell will be sufficient. In this book, Neil Cole, author of *Organic Church*, Church Transfusion and Journeys to Significance, and Phil Helfer, co-founders of Church Multiplication Associates, will first point out that change is possible with God but only with God. In the second half of the book, they will lay out some of the actual practical considerations to weigh if you want to release real organic health in your church. Using multiple examples of very different kinds of churches that have been through the process, the authors present ways that leadership and practices need to change in order to release organic church movements from their midst. Chapters cover Leadership shifts, necessary Detoxification from dependence issues, How to ignite change virally, How to grandparent movements, How to measure success in movements. This book, another in the Leadership Network series, applies organic life principles to established churches with practical help that is holistic and natural. The content in this book will be helpful whether you are pastor of an established church or wanting to revitalize a small organic church. Jesus didn't die and rise from the dead so that we can be like everyone else in the world. Our faith is more than just a better doctrine or a bigger goal with a capital giving campaign; it is a better life. Jesus is the difference, and what a difference he makes. Don't be satisfied with less.

Green Shoots out of Dry Ground John P. Bowen, 2013-01-25. All over Canada, from coast to coast, there is new life in the Christian church. In spite of declining numbers, every Christian tradition has stories to tell of new ministries, fledgling Christian communities, and fresh expressions of church springing up, sometimes in unlikely places. Here, seventeen authors with experience in areas such as church revitalization, innovative ministry, evangelism, and church planting reflect on what they are seeing and how the lessons they have learned can guide us into ways of health and vitality. They tell us about immigrant churches and indigenous ministries, about youth, research, and environmental concerns about churches in the city and churches in the country, about leadership and spirituality. Scattered throughout the book are ten exciting stories of new ministries and new churches from different traditions and different parts of the country, all seeking to engage their communities with the Gospel. Does the church in Canada have a future? The answer these authors give is a resounding yes: green shoots can grow out of dry ground if we are prepared to rise to the challenge and follow where the Spirit of God leads. This book is timely, comprehensive, challenging, and deeply encouraging.

Urban Ministry Reconsidered R. Drew Smith, Stephanie Boddie, Ronald E. Peters, 2018-08-14. Christian ministries often struggle to account for urbanization's growing force, complexities, and reach and to formulate theologically and sociologically appropriate responses. *Urban Ministry Reconsidered* features a collection of original essays by leading scholars and practitioners that explores current issues and challenges in urban communities. Together, these articles consider how cultural and structural frameworks have led to new conceptualizations and configurations of urban ministry. In addition, they examine the degree to which the social, spiritual, and organizational priorities of urban ministries have been reconceived in response to these shifts.
