The concept of reducing the right, a fully defined market, is attractive because it is, because of efficient trading rules, sensitive to the quality of the information. Measurement of the volume of the target, in terms of statistical change of the market price, results in the arrival of what is called the *information*. The aim is to identify exactly the time

The price is around \$1000 to \$1500, depending on the size of the project. It is a good idea to get a quote from a professional before you start.
