Correspondence of Major General Emory Upton, Vol. 2, 1875-1881 Salvatore Cilella,2024-01-12 Emory Upton 1839 1881 was thrust into the Civil War immediately upon graduation from the United States Military Academy at West Point in May of 1861 He was wounded three times during the war He participated in nearly ever major battle in the Eastern Theater including Fredericksburg Gettysburg and Spotsylvania where he led a prominent attack on entrenched Confederate positions a signal of Upton s brilliance as an officer and of his military creativity that foreshadowed his later work in revising the Army s tactics Upton was mustered out of service in 1866 and later named commandant of cadets at West Point a position that carved a path for Upton to focus more on Army tactics and reforms Until now the only lenses through which scholars could study Upton were two biographies published nearly a century apart but practically identical in scope and treatment of Upton The two volume Correspondence of Major General Emory Upton follows Upton through his enrollment at West Point to his extensive Army activities following the Civil War and contains the bulk of Emory Upton s wartime correspondence Volume two collects Upton s foreign correspondence and observations on military tactics and Army reform At the behest of U S Army Commanding General William T Sherman Upton was sent on a tour to study the armies of Asia and Europe and more specifically the German army after conclusion of the Franco Prussian War This tour resulted in the publication of his monumental The Armies of Europe and Asia which warned that the U S Army was woefully below the standards of European nations and between Upton s death in 1881 and the turn of the twentieth century military policy was fiercely debated in both the military and popular press Upton s ideas on reform were often central to the arguments and his letters and writings provoked a wide range of discussion over military and inevitably civilian issues These selected letters and reports expertly annotated and gathered from repositories across the country present a more complex human Emory Upton He is both the clean pure and spotless individual of Michie s biographies and the ambitious yet flawed Army officer obsessed with his career These volumes explore his trials and frustrations as well as his triumphs Salvatore G Cilella now retired was president of the Atlanta Historical Society He is the author of Upton s Regulars The 121st New York Infantry in the American Civil War and Fund Raising for Small Museums in Good Times and Bad **Japanese Idols Go to China** Xiaofei Tu,Wendy Xie,2022-10-25 This book situates the Chinese acceptance of Japanese popular culture specifically the intriguing and sometimes awkward relationship between the idol groups AKB48 and SNH48 within the broad context of nationalist ideology and international

relations in East Asia It aims to enhance the knowledge and understanding of the reader about contemporary East Asian cultural exchanges and nationalist expressions in concrete forms Additionally this book attempts to discover heretofore overlooked aspects of nationalism s metamorphosis in both China and Japan and challenge the existing scholarly and popular understandings of nationalism By interrogating the nationalism factor in popular culture in Chinese and Japanese contexts this books concludes that popular culture fandom can both be a culprit in promoting hegemonic political ideologies and serve as a potential antidote

**China-Japan Relations after World War Two** Amy King,2016-06-06 A rich empirical account of China s foreign economic policy towards Japan after World War Two drawing on hundreds of recently declassified Chinese sources Amy King offers an innovative conceptual framework for the role of ideas in shaping foreign policy and examines how China s Communist leaders conceived of Japan after the war The book shows how Japan became China s most important economic partner in 1971 despite the recent history of war and the ongoing Cold War divide between the two countries It explains that China s Communist leaders saw Japan as a symbol of a modern industrialised nation and Japanese goods technology and expertise as crucial in strengthening China s economy and military For China and Japan the years between 1949 and 1971 were not simply a moment disrupted by the Cold War but rather an important moment of non Western modernisation stemming from the legacy of Japanese empire industry and war in China *The British Library General Catalogue of Printed Books to 1975* British Library,1986

**The Organisational Dynamics of University Reform in Japan** Jeremy Breaden,2012 For several decades internationalisation has been a cornerstone of both Japanese government higher education policy and approaches to reform at an institutional level but Japan has still not managed to lose its reputation as a somewhat reclusive member of the global academic community Consensus on the potential of internationalisation to reinvigorate Japanese higher education is matched by the depth of recognition that universities have to date failed to internationalise successfully This book offers a new approach to Japan s internationalisation conundrum by proceeding from the inside out It presents an extended case study one university organisation that has been changed through its adoption of a radical program of internationalisation Through this case study Jeremy Breaden identifies patterns by which internationalisation is situated in administrative discourse and individual action and determines how these patterns in turn shape organisational practice The result is a multi dimensional narrative of organisational change that advances our understanding of both the dynamics of university reform and the concept of internationalisation one of the most durable yet contentious themes in the study of contemporary Japanese society With detailed analysis and an in depth case study this book

will be of interest to students and scholars of Japanese studies sociology and anthropology It will also prove valuable to professionals and policy makers working in higher education both in Japan and around the world **Technology and the Rise of Great Powers** Jeffrey Ding,2024-08-20 Technological revolutions have long been understood as one of the key factors affecting the rise of great powers Yet when these dynamics have been studied the focus tends to be on the moment of innovation where was a key technology invented In this book Jeffrey Ding argues that it s not innovation but rather the way a technology diffuses through a country that determines whether and how it strengthens the state The result is a new way to consider how technology and power have played out over history and what this might mean for the future To make this case Ding first outlines a new theory that centers on not the creation of new technology but its spread across society looking specifically at the role of education in promoting technological skill and literacy He then shows how this approach changes our understanding of three canonical cases Britian s rise during the first industrial revolution America s rise during the second industrial revolution and Japan s rise and decline during the third industrial revolution He then expands out to consider what this theory would predict for the coming competition between the United States and China in an AI driven fourth industrial revolution The result is an ambitious wide ranging take on how technology shapes world order Provided by publisher

**Innovating with Infrastructure** S. Gulyani,2001-09-12 How do industrial firms in developing countries contend with and survive acute shortages of physical infrastructure Gulyani examines the impact of inadequate power and freight transportation on the costs and competitiveness of Indian automobile firms and the innovative coping strategies that firms devise Using in depth firm level surveys and supply chain analysis this study provides a unique perspective into the infrastructure problem and possible solutions It identifies unconventional approaches and solutions that firms and governments can use to improve industrial access to infrastructure

**Mainstreaming Climate Change in Development Cooperation** Nicolien van der Grijp,2010-04-29 Climate change development and development cooperation are individually and jointly three politically sensitive complex issues especially in the context of relations between developed and developing countries This book tackles these issues by combining theoretical political and practical perspectives analysing the dominant paradigms and exploring the meaning of the concept of mainstreaming At the practical level it presents the results of case studies focusing on assistance provided by the European Union and key member states and the climate needs articulated by developing countries At the political level it highlights the sensitivities between developed and developing countries and examines the mainstreaming debate in various fora This book is valuable for policymakers academics politicians and non state actors working in the fields of development studies international law politics international relations economics climate change and environmental studies

**The History of Anglo-Japanese Relations 1600-2000** G. Daniels,C. Tsuzuki,2002-10-02 This pioneering collection of essays by Japanese British and Canadian scholars demonstrates how individuals government agencies and non governmental organizations have confirmed and challenged the ideas of diplomats

and statesmen Case studies of mutual perceptions feminism ceremonial theatre economic and social thought fine arts broadcasting labour and missionary activity all illustrate how varieties of nationalism and internationalism have shaped the development of Anglo Japanese relations Furthermore it reveals the British admiration of Japan and a desire to emulate Japanese efficiency as a recurring theme in debates on the condition of Britain in the twentieth century **The Dark Path** Williamson Murray, 2024-10-22 From an esteemed military historian a sweeping history of the revolutions in war fighting that have shaped the modern world Heraclitus wrote that war is the father of all and it has formed much of the modern world Although the fundamental nature of war has not altered over the centuries constant change innovation and adaptation have repeatedly reshaped how wars are fought in the West Revolutions in military practice cannot be separated from larger social developments in areas like logistics finance and economics and the culture of military organizations In **The Dark Path** Williamson Murray argues that the history of warfare in the West hinged on five revolutions which both reflected the social political and economic conditions that produced them and in turn influenced how those conditions evolved These five key turning points are the advent of the modern state which formed bureaucracies and professional militaries the Industrial Revolution which produced the financial and industrial means to sustain and equip large armies the French Revolution which provided the ideological basis needed to sustain armies through continent sized wars the merging of the Industrial and French Revolutions in the U S Civil War and the accelerating integration of technological advancement financial capacity ideology and government that unleashed the modern capacity for total warfare An ambitious work of synthesis this book shows how the world continually re creates war and how war in turn continually re creates the world **The British National Bibliography** Arthur James Wells, 2009 **Changing Lanes in China** Eric Thun, 2006-01-16 This book addresses two of the most important trends in political economy during the last two decades globalization and decentralization in the context of the world s most rapidly growing economic power China The intent is to provide a better understanding of how local political and economic institutions shape the ability of Chinese state owned firms to utilize foreign direct investment FDI to remake themselves in the transition from inefficient and technologically backward firms into powerful national champions In a global economy the author argues local governments are increasingly the agents of industrial transformation at the level of the firm Local institutions are durable over time and they have important economic consequences Through an analysis of five Chinese regions the treatment seeks to specify the opportunities and constraints that alternative institutional structures create how they change over time and ultimately how they prepare Chinese firms for the challenge of global competition Chinese Foreign Direct Investment Tao Qu, Milford B. Green, 2018-08-17 First published in 1997 this volume emerged in the wake of China s Open Door policy Qu and Green focus on the spatial aspects of foreign direct investment within China They aim to locate FDI within a subnational context with particular reference to the Chinese experience between 1979 and 1993 Issues explored include the philosophy objectives and process of inducing FDI the choice of cities

and the country of origin effect Issues explored include the philosophy objectives and process of inducing FDI the choice of cities and the country of origin effect
