Pagan Holiday On The Trail Of Ancient Roman Tourists:

Pagan Holiday Tony Perrottet, 2007 Pagan Holiday Tony Perrottet, 2009-05-06 The ancient Romans were responsible for many remarkable achievements Roman numerals straight roads but one of their lesser known contributions was the creation of the tourist industry The first people in history to enjoy safe and easy travel Romans embarked on the original Grand Tour journeying from the lost city of Troy to the Acropolis from the Colossus at Rhodes to Egypt for the obligatory Nile cruise to the very edge of the empire And as Tony Perrottet discovers the popularity of this route has only increased with time Intrigued by the possibility of re creating the tour Perrottet accompanied by his pregnant girlfriend sets off to discover life as an ancient Roman The result is this lively blend of fascinating historical anecdotes and hilarious personal encounters interspersed with irreverent and often eerily prescient quotes from the ancients a vivid portrait of the Roman Empire in all its complexity and wonder *To be a Roman* Margaret A. Brucia, Gregory Neil Daugherty, 2007-01-01 Each chapter in this workbook designed for middle and high school aged students focuses on a particular topic Several pages explain the topic in a lively and readable fashion and are then followed by objective exercises and suggestions for student projects and classroom discussions

Jewish Travel in Antiquity Catherine Hezser, 2011 This book provides the first comprehensive study of Jewish travel and mobility in Hellenistic and Roman times based on a critical analysis of Jewish Graeco Roman and early Christian literary epigraphic and archaeological sources and a social historical evaluation of the material Catherine Hezser shows that certain segments of ancient Jewish society were quite mobile Mobility seems to have increased in the later Roman period when an extensive road system facilitated travel within the province of Syria Palestine and the neighbouring Middle Eastern regions Second Temple Judaism was centralized with Jerusalem as its central space and seat of priestly authority In post 70 rabbinic Judaism on the other hand connections between rabbis could be established through mutual visits and second and third degree contacts only Mobility formed the basis of the establishment of a decentralized rabbinic network in Palestine and Babylonia in late antiquity Numerous narrative and halakhic traditions indicate the importance of mobility for communication and the exchange of knowledge amongst rabbis It is argued that the rabbis who were most mobile sat at the nodal points of the rabbinic network and elicited the largest amount of influence They would have combined business travel with scholarly exchange Scholars journeys between Palestine and Babylonia are viewed within the wider context of Rome and Persia s economic and cultural exchange in which Jews just like Christians may have played the role of intermediaries

Sites Unseen Dianne Harris, D. Fairchild Ruggles, 2007-05-27 Sites Unseen challenges conventions for viewing and interpreting the landscape using visual theory to move beyond traditional practices of describing and classifying objects to explore notions of audience and context While other fields such as art history and geography have engaged poststructuralist theory to consider vision and representation the application of such inquiry to the natural or built environment has lagged behind This book by treating landscape as a spatial psychological and sensory encounter aims to bridge this gap opening a

new dialogue for discussing the landscape outside the boundaries of current art criticism and theory As the contributors reveal the landscape is a widely adaptable medium that can be employed literally or metaphorically to convey personal or institutional ideologies Walls gates churchyards and arches become framing devices for a staged aesthetic experience or to suit a sociopolitical agenda The optic stimulation of signs symbols bodies and objects combines with physical acts of climbing and walking and sensory acts of touching smelling and hearing to evoke an overall vision of landscape Sites Unseen considers a variety of different perspectives including ancient Roman visions of landscape the framing techniques of a Moghul palace and a contemporary case study of Christo s The Gates as examples of human attempts to shape our sensory cognitive and emotional experiences in the landscape [More Book Lust](#) Nancy Pearl,2009-09-29 Whether you re searching for the perfect read for yourself or for a friend More Book Lust offer eclectic recommendations unlike those in any other reading guide available In this followup to the bestselling Book Lust popular librarian Nancy Pearl offers a fresh collection of 1 000 reading recommendations in more than 120 thematic intelligent and wholly entertaining reading lists For the friend wanting to leave her job Living Your Dream offers good armchair dreaming books about people who have left stodgy jobs to do what they love Are you a budding chef Fiction For Foodies includes books that sneak in a recipe or two along with a tantalizing plot For the James Bond wannabe Crime is a Globetrotter features crime novels set in various locations around the world such as Tibet Sweden and Sicily In the book s introduction Pearl jokes If we were at a twelve step meeting together I would have to stand up and say Hi I m Nancy P and I m a readaholic Booklist magazine plays off this obsession while echoing a sentiment of Nancy Pearl s fans everywhere A self confessed readaholic Pearl lets us benefit from her addiction May she never seek recovery Indeed [A Seven Year Cycle Reading Plan](#) C.S. pedagogical palaver **John Greaves, Pyramidographia and Other Writings, with Birch's Life of John Greaves** John Anthony Butler, 2019-01-22 This is a modern spelling edition of John Greaves's *Pyramidographia* 1646 together with some miscellaneous travel writings letters and a biography of Greaves by Thomas Birch It includes a full scholarly introduction and detailed notes This book is the first of its kind in English and undertakes a scientific evaluation of the pyramids through metrics using state of the art instruments and drawing on both ancient and modern authorities amongst which is included Arab and Persian writers as well as Western sources Greaves's work is distinguished from others by his refusal to be drawn into mystical or theological speculation and is an excellent example of how seventeenth century scientists may be said to have pioneered modern methods of scientific inquiry Greaves discusses the age of the pyramids their purpose the nature of their builders and the methods he believes were used to erect them It may be said that he is probably the earliest genuine English Egyptologist and that *Pyramidographia* is indeed the earliest scientific treatise on the subject Greaves's travel writings which also contain a great deal of measurement show readers how he approached his sojourn in foreign lands and his letters give some measure of the man and his relationships with fellow scientists and patrons The biography by Thomas Birch further fills out Greaves's life and career *Interdisciplinary Explorations of Postmortem Interaction* Estella Weiss-Krejci, Sebastian Becker, Philip Schwyzer, 2022-06-23 In the present as in the past the dead have been deployed to promote visions of identity as well as ostensibly wider human values Through a series of case studies from ancient Egypt through prehistoric historic and present day Europe this book discusses what is constant and what is locally and historically specific in our ways of interacting with the remains of the dead their objects and monuments Postmortem interaction encompasses not only funerary rituals and intergenerational engagement with forebears but also concerns encounters with the dead who died centuries and millennia ago Drawing from a variety of disciplines such as archaeology bioarchaeology literary studies ancient Egyptian philology and sociocultural anthropology this volume provides an interdisciplinary account of the ways in which the dead are able to transcend temporal distances and engender social relationships Until quite recently literary sciences and archaeology were generally regarded as incommensurable in their aims methodologies and source material Although archaeologists and literary critics have been increasingly willing to borrow concepts and terminology from the other discipline this book is one example of a genuinely collaborative endeavor This is an open access book *The Best Travel Writing 2009* Sean O'Reilly, 2010-12-30 This is the collection of the best travel writing of the year much of it never published before from big names in travel literature and emerging new writers The Best Travel Writing 2009 is the sixth volume in the annual *Travelers Tales* series launched in 2004 to celebrate the world's best travel writing from Nobel Prize winners to emerging new writers The points of view and perspectives are global and themes encompass high adventure spiritual growth romance hilarity and misadventure service to humanity and encounters with exotic cuisine Reading these stories is like sitting in a cafe filled with fellow travelers swapping tales about past adventures and ideas where to head next
