Reports in Anthropology and Archaeology University of Kentucky. Dept. of Anthropology, 1929 Reports in Archeology and Anthropology ,1929 Vol 2 Archaeological survey of Kentucky *The Williams Site in Christian County, Kentucky* William Snyder Webb, William Delbert Funkhouser, 1929 *Publications* University of Kentucky. Department of Anthropology, 1929 **Kentucky Archaeology** R. Barry Lewis, 2021-10-21 Kentucky's rich archaeological heritage spans thousands of years and the Commonwealth remains fertile ground for study of the people who inhabited the midcontinent before, during and after European settlement. This long-awaited volume brings together the most recent research on Kentucky's prehistory and early history, presenting both an accurate descriptive and an authoritative interpretation of Kentucky's past. The book is arranged chronologically from the Ice Age to modern times, when issues of preservation and conservation have overtaken questions of identification and classification. For each time slice of Kentucky's past, the contributors describe typical communities and settlement patterns, major changes from previous cultural periods, the nature of the economy and subsistence, artifacts, the general health and characteristics of the people, and regional cultural differences. Sites discussed include the Green River shell mounds, the Central Kentucky Adena mounds and enclosures, Eastern Kentucky rockshelters, the important Wickliffe site at the confluence of the Mississippi and Ohio rivers, Fort Ancient culture villages, and the fortified towns of the Mississippian period in Western Kentucky. The authors draw from a wealth of unpublished material and offer the detailed insights and perspectives of specialists who have focused much of their professional careers on the scientific investigation of Kentucky's prehistory. The book's many graphic elements—maps, artifact drawings, photographs, and village plans—combined with a straightforward and readable text, provide a format that will appeal to the general reader as well as to students and specialists in other fields who wish to learn more about Kentucky's archaeology.

A Catalog of Books Represented by Library of Congress Printed Cards Issued to July 31, 1942 ,1942 *Histories of Southeastern Archaeology* Shannon Tushingham, Jane Hill, Charles H. McNutt, 2002-03-18 This volume provides a comprehensive broad-based overview, including first-person accounts of the development and conduct of archaeology in the Southeast over the past three decades. *Histories of Southeastern Archaeology* originated as a symposium at the 1999 Southeastern Archaeological Conference (SEAC) organized in honor of the retirement of Charles H. McNutt following 30 years of teaching anthropology. Written for the most part by members of the first post-depression generation of southeastern archaeologists, this volume offers a window not only into the archaeological past of the United States but also into the hopes and despairs of archaeologists who worked to write that unrecorded history or to test scientific theories concerning culture. The contributors take different approaches, each guided by experience, personality, and location, as well as by the legislation that shaped the practical conduct of archaeology in their area. Despite the state-by-state approach, there are certain common themes, such as the effect or lack thereof of changing theory in Americanist archaeology, the explosion of contract archaeology, and its

relationship to academic archaeology goals achieved or not achieved and the common ground of SEAC This book tells us how we learned what we now know about the Southeast's unwritten past Of obvious interest to professionals and students of the field this volume will also be sought after by historians political scientists amateurs and anyone interested in the South Additional reviews A unique publication that presents numerous historical topical and personal perspectives on the archaeological heritage of the Southeast *Southeastern Archaeology* Reports in Archaeology and Anthropology University of Kentucky. Research Libraries,1979 **The Development of Southeastern Archaeology** Jay K. Johnson,1993-02-28 Ten scholars whose specialties range from ethnohistory to remote sensing and lithic analysis to bioarchaeology chronicle changes in the way prehistory in the Southeast has been studied since the 19th century Each brings to the task the particular perspective of his or her own subdiscipline in this multifaceted overview of the history of archaeology in a region that has had an important but variable role in the overall development of North American archaeology Some of the specialties discussed in this book were traditionally relegated to appendixes or ignored completely in site reports more than 20 years old Today most are integral parts of such reports but this integration has been hard won Other specialties have been and will continue to be of central concern to archaeologists Each chapter details the way changes in method can be related to changes in theory by reviewing major landmarks in the literature As a consequence the reader can compare the development of each subdiscipline As the first book of this kind to deal specifically with the region it will be valuable to archaeologists everywhere The general reader will find the book of interest because the development of southeastern archaeology reflects trends in the development of social science as a whole Contributors include Jay K Johnson David S Brose Jon L Gibson Maria O Smith Patricia K Galloway Elizabeth J Reitz Kristen J Gremillion Ronald L Bishop Veletta Canouts and W Fredrick Limp *The National Union Catalog, Pre-1956 Imprints* Library of Congress,American Library Association.
