Minority Ethnic Mobilization In The Russian Federation:

Minority Ethnic Mobilization in the Russian Federation Dmitry P. Gorenburg, 2003-05-05 This book explains how state institutions affect ethnic mobilization It focuses on how ethno nationalist movements emerge on the political arena develop organizational structures frame demands and attract followers It does so in the context of examining the widespread surge of nationalist sentiment that occurred through the Soviet Union and Eastern Europe in the late 1980s and early 1990s It shows that even during this period of institutional upheaval pre existing ethnic institutions affected the tactics of the movement leaders It challenges the widely held perception that governing elites can kindle latent ethnic grievances virtually at will to maintain power It argues that nationalist leaders can't always mobilize widespread popular support and that their success in doing so depends on the extent to which ethnicity is institutionalized by state structures It shifts the study of ethnic mobilization from the whys of its emergence to the hows of its development as a political force Nationalism for the

Masses Dmitry Primus Gorenburg, 1999 **Managing Ethnic Diversity in Russia** Oleh Protsyk, Benedikt Harzl, 2013-05-07

This book provides a comprehensive overview of the norms and practices of ethnic diversity management in the Russian Federation in the last twenty years It examines the evolution of the legal framework the institutional architecture and the policies intended to address the large number of challenges posed by Russia's immense ethno cultural diversity It analyses the legal social and political changes affecting ethno cultural relations and the treatment of ethnic minorities and assesses how ethnic diversity both influences and is shaped by transformations in Russian politics and society It concludes by appraising how successful or otherwise policies have been so far and by outlining the challenges still faced by the Russian Federation Historical Dictionary of the Russian Federation Robert A. Saunders, 2019-09-20

Straddling Europe and Asia the Russian Federation is the largest country in the world and home to a panoply of religious and ethnic groups from the Muslim Tatars to the Buddhist Buryats Over the past 40 years Russia has experienced the most dramatic transformation of any modern state The second edition of Historical Dictionary of the Russian Federation provides insight into this rapidly developing country This volume includes coverage of pivotal movements events and persons in the late Soviet Union 1985 1991 and contemporary Russia 1991 present This second edition of Historical Dictionary of the Russian Federation contains a chronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Russia *Politics in the Russian Regions* G. Gill, 2007-06-28

Prina, 2015-10-05 Using a human rights approach the book analyses the dynamics in the application of minority policies for

the preservation of cultural and linguistic diversity in Russia Despite Russia's legacy of ethno cultural and linguistic pluralism the book argues that the Putin leadership's overwhelming statism and promotion of Russian patriotism are inexorably leading to a reduction of Russia's diversity Using scores of interviews with representatives of national minorities civil society public officials and academics the book highlights the reasons why Russian law and policies as well as international standards on minority rights are ill equipped to withstand the centralising drive toward ever greater uniformity While minority policies are fragmented and feeble in contemporary Russia they are also centrally conceived which is exacerbated by a growing democratic deficit under Putin Crucially in today's Russia informal practices and networks are frequently utilised rather than formal channels in the sphere of diversity management Informal practices the book argues can at times favour minorities yet they more frequently disadvantage them and create the conditions for the co-optation of leaders of minority groups A dilution of diversity the book suggests is not only resulting in the loss of Russia's rich cultural heritage but is also impairing the peaceful coexistence of the individuals and groups that make up Russian society

Managing Diversity through Non-Territorial Autonomy Tove H. Malloy, Alexander Osipov, Balázs Vizi, 2015-07-23 Non territorial autonomy NTA is a statecraft tool that is increasingly gaining importance in societies seeking to accommodate demands by ethno cultural groups for a voice in cultural affairs important to the protection and preservation of their identity such as language education and religion As states recognize the specific rights of identity minorities in multicultural and multi ethnic societies they are faced with a need to improve their diversity management regimes NTA offers policy makers a range of options for institutional design adaptable to specific circumstances and historical legacies It devolves degrees of power through legal frameworks and institutions in specific areas of ethno cultural life while maintaining social unity at the core level of society Throughout Europe and North America NTA exists and is implemented at a state regional and local level Much has been written about the concept of autonomy and its usage as a statecraft tool in states facing regional division but little literature addresses its non territorial institutional and public administration functions This edited volume seeks to fill this gap Managing Diversity through Non Territorial Autonomy Assessing Advantages Deficiencies and Risks carves a space for contextual knowledge production on NTA in law as well as social and political sciences Contextual knowledge involves a description of institutions and their functionality as well as of the institutional and legal frames protecting these What are the institutions bodies and functions that ethno cultural groups can draw on when seeking to have a voice over their own affairs as well as over issues in society related to their identity production How are these entities incorporated and empowered to have a voice What degree of voice do they have and how are they designed to project this voice Thus contextual knowledge also involves critical assessment and risk analysis as well as penetrating insights as to the unintended consequences and hidden agendas that may inform NTA policies This volume is to provide both policy makers and ethno cultural groups with a tool kit that promotes social cohesion while respecting diversity This is the first volume in a series of five which will examine the protection and

representation of minorities through non territorial means Galvanizing Nostalgia? Marjorie Mandelstam Balzer, 2022-01-15 Galvanizing Nostalgia explores critical questions for the survival of Russia in its nominally federal form Will Russia fall apart along the lines of its internal republics as did the Soviet Union Based on cultural anthropology field and historical research in major republics of Eastern Siberia Sakha Yakutia Buryatia and Tyva Tuva this book highlights Indigenous concerns about self determination Marjorie Mandelstam Balzer suggests that a fragile and disorganized dynamic of nested sovereignties has developed within Russia Ecology activism has grown given new threats to the environment and accelerating climate challenges especially in the Arctic Focus on strategically chosen republics enables comparing and contrasting interethnic relations language politics and the salience of gender demography resource competition environmental degradation and increased spirituality Republics vary in their neocolonial relationships to Moscow authorities Some local leaders such as a politicized shaman use nostalgia for cultural achievements to galvanize citizens Since the Soviet Union collapsed cultural and political revitalization have been relatively more viable although still difficult in areas where Siberians have their own republics Red Racisms I. Law, 2016-01-14 This book analyzes racism in Communist and post Communist contexts examining the Red promise of an end to racism and the racial logics at work in the Soviet Union Central and Eastern Europe Cuba and China placing these in the context of global racialization **Ideology and Meaning-Making under the Putin Regime** Marlene Laruelle, 2025-01-14 Much has been written to try to understand the ideological characteristics of the current Russian government as well as what is happening inside the mind of Vladimir Putin Refusing pundits clichés that depict the Russian regime as either a cynical kleptocracy or the product of Putin's grand Machiavellian designs Ideology and Meaning Making under the Putin Regime offers a critical genealogy of ideology in Russia today Marlene Laruelle provides an innovative multi method analysis of the Russian regime's ideological production process and the ways it is operationalized in both domestic and foreign policies Ideology and Meaning Making under the Putin Regime reclaims the study of ideology as an unavoidable component of the tools we use to render the world intelligible and represents a significant contribution to the scholarly debate on the interaction between ideas and policy decisions By placing the current Russian regime into a broader context of different strains of strategic culture ideological interest groups and intellectual history this book gives readers key insights into how the Russo Ukrainian War became possible and the role ideology played in enabling it **Russian Nationalism** Marlene Laruelle, 2018-10-10 This book by one of the foremost authorities on the subject explores the complex nature of Russian nationalism It examines nationalism as a multilayered and multifaceted repertoire displayed by a myriad of actors It considers nationalism as various concepts and ideas emphasizing Russia's distinctive national character based on the country's geography history Orthodoxy and Soviet technological advances It analyzes the ideologies of Russia's ultra nationalist and far right groups explores the use of nationalism in the conflict with Ukraine and the annexation of Crimea and discusses how Putin's political opponents including Alexei Navalny make use of

end of the Soviet Union multiple ghosts haunt Russia its elites and its society from concern over demographic and economic decline to worry about the country's vulnerability to external intervention reviving the old notion of Russia as a besieged fortress Faced with both a West that emerged victorious from the Cold War and a shockingly dynamic China Russia constantly questions its identity and the notion that its fate is to bridge East and West This book offers a comprehensive overview of Russia's fears and challenges that could help the American public to understand how the country deals with its own issues and how this influences Russia's foreign policy including the ongoing war in Ukraine This is critical to understanding Russia's international stance and its impact on US policy and security

The Decline of Regionalism in Putin's Russia J. Paul Goode, 2011-05-11 This book reassesses Putin's attempt to reverse the decentralization of power that characterised centre regional relations in the 1990s focusing on regional responses to Putin's federal reforms It explains the decline of regionalism after 2000 in terms of the dynamics of regional boundaries understood as the juridical boundaries which demarcate a region's territorial extent and its resources institutional boundaries that sustain regional differences and cultural boundaries that define the ethnic or technocratic principles on which a region could claim legitimate existence The book questions the conventional wisdom regarding the success of Putin's regime It shows how regional governors responded not by attempting to deflect the reforms with outright resistance but by mimicking Putin's centralisation of power at the regional level In turn this facilitated the homogenisation of regional political regimes and regional mergers The book demonstrates how the reordering of regions advanced sporadically how pockets of resistance persist and how the potential for the revival of regionalism continues

The Troubles in Northern Ireland and Theories of Social Movements Lorenzo Bosi, Gianluca Fazio, 2025-10-01 This volume focuses on a number of research questions drawn from social movement scholarship How does nonviolent mobilisation emerge and persist in deeply divided societies What are the trajectories of participation in violent groups in these societies What is the relationship between overt mobilisation clandestine operations and protests among political prisoners What is the role of media coverage and identity politics Can there be non sectarian collective mobilisation in deeply divided societies The answers to these questions do not merely try to explain contentious politics in Northern Ireland instead they inform future research on social movements beyond this case Specifically we argue that an actor based approach and the contextualisation of contentious politics provide a dynamic theoretical framework to better understand the Troubles and the development of conflicts in deeply divided societies

Soviet and Post-Soviet Identities Mark Bassin, Catriona Kelly, 2012-04-26 Since the Soviet Union collapsed in 1991 questions of identity have dominated the culture not only of Russia but of all the countries of the former Soviet bloc This timely collection examines the ways in which cultural activities such as fiction TV cinema architecture and exhibitions have addressed these questions and also describes other cultural flashpoints from attitudes to language to the use of passports It discusses definitions of political and cultural nationalism as well as the myths institutions and practices that moulded and

expressed national identity From post Soviet recollections of food shortages to the attempts by officials to control popular religion it analyses a variety of unexpected and compelling topics to offer fresh insights about this key area of world culture Illustrated with numerous photographs it presents the results of recent research in an accessible and lively way

Federalism and Local Politics in Russia Cameron Ross, Adrian Campbell, 2008-10-27 This book examines federalism and regional and local politics in Russia Many commentators have alluded to the unique nature of Russia's dual transition and its difficult task of simultaneously reforming its economy and polity But there is in fact a third transition under way in Russia that is of no less importance the need to reconfigure central local relations and to create a stable and viable form of federalism Federal states are much more difficult to set up than unitary ones and forging a new federal system at the same time as privatising the economy and trying to radically overhaul the political system has clearly made Russia's transition triply difficult The book discusses how Vladimir Putin has re-asserted the power of the centre in Russia and tightened the federal government's control of the regions It shows how contrary to his rhetoric about developing Russia as a free and democratic state authoritarianism has been extended through his reorganisation of the Federation Council his usurpation of powers to dismiss regional assemblies and chief executives and his creation of seven unelected super governors The book explores a wide range of issues related to these developments including a comparative study of Russian federalism and local politics ethnic federalism the merging of federal units regional governors electoral and party reforms and regional and local politics It also includes case studies of local and regional politics in specific regions

People Changing Places Isabelle Côté, Matthew I. Mitchell, Monica Duffy Toft, 2018-07-04 While migration and population settlement have always been an important feature of political life throughout the world the dramatic changes in the pace direction and complexity of contemporary migration flows are undoubtedly unique Despite the economic benefits often associated with global regional and internal migration the arrival of large numbers of migrants can exacerbate tensions and give rise to violent clashes between local populations and recent arrivals This volume takes stock of these trends by canvassing the globe to generate new conceptual empirical and theoretical contributions The analyses ultimately reveal the critical role of the state as both an actor and arena in the migration conflict nexus
