Minority Rights in the Middle East Joshua Castellino, Kathleen A. Cavanaugh, 2013-04-25 Minority rights in the Middle East are subject to different legal regimes national law and international law as well as Islamic law This book investigates the treatment of ethnic and religious minorities in the region both from a historical and contemporary perspective before addressing three case studies Iraq Syria and Lebanon

Minority Rights in the Middle East Joshua Castellino, Kathleen A. Cavanaugh, 2013-04-25 Within the Middle East there are a wide range of minority groups outside the mainstream religious and ethnic culture This book provides a detailed examination of their rights as minorities within this region and their changing status throughout the twentieth and twenty first centuries The rights of minorities in the Middle East are subject to a range of legal frameworks having developed in part from Islamic law and in recent years subject to international human rights law and institutional frameworks The book examines the context in which minority rights operate within this conflicted region investigating how minorities engage with or are excluded from various sites of power and how state practice in dealing with minorities often ostensibly based on Islamic authority intersects with and informs modern constitutionalism and international law The book identifies who exactly can be classed as a minority group analysing in detail the different religious and ethnic minorities across the region The book also pays special attention to the plight of minorities who are spread between various states often as the result of conflict It assesses the applicable domestic legislative instruments within the three countries investigated as case studies Iraq Syria and Lebanon and highlights key domestic remedies that could serve as models for ensuring greater social cohesion and greater inclusion of minorities in the political life of these countries

Routledge Handbook of Minorities in the Middle East Paul S Rowe, 2018-09-20 The Routledge Handbook of Minorities in the Middle East gathers a diverse team of international scholars each of whom provides unique expertise into the status and prospects of minority populations in the region The dramatic events of the past decade from the Arab Spring protests to the rise of the Islamic state have brought the status of these populations onto centre stage The overturn of various long term autocratic governments in states such as Tunisia Egypt Libya and Yemen and the ongoing threat to government stability in Syria Iraq and Lebanon have all contributed to a new assertion of majoritarian politics amid demands for democratization and regime change In the midst of the dramatic changes and latent armed conflict minority populations have been targeted marginalized and victimized Calls for social and political change have led many to contemplate the ways in which citizenship and governance may be changed to accommodate minorities or indeed if such change is possible At a time when the survival of minority populations and the utility of the label minority has been challenged this handbook answers the following set of research questions What are the unique challenges of minority populations in the Middle East How do minority populations integrate into their host societies both as a function of their own internal choices and as a response to majoritarian consensus on their status Finally given their inherent challenges and the vast sweeping changes

that have taken place in the region over the past decade what is the future of these minority populations What impact have minority populations had on their societies and to what extent will they remain prominent actors in their respective settings This handbook presents leading edge research on a wide variety of religious ethnic and other minority populations By reclaiming the notion of minorities in Middle Eastern settings we seek to highlight the agency of minority communities in defining their past present and future **Minorities in the Middle East** David McDowall, Minority Rights Group, 1992

contexts the book investigates the resulting difficulties and opportunities for minority rights Bringing together scholars from a range of disciplines who are engaged in work on various unstable orders the book provides a unique and largely neglected perspective on present developments as well as addressing the pressing issue of the future of the minority rights regime at global regional and national levels This book will appeal to those with interests in minority rights human rights nationalism law and politics Routledge Handbook of Citizenship in the Middle East and North Africa Roel Meijer,James N.

Jewish Internationalism and Human Rights after the Holocaust Nathan A. Kurz, 2020-11-26 Nathan A Kurz charts the fraught relationship between Jewish internationalism and international rights protection in the second half of the twentieth century For nearly a century Jewish lawyers and advocacy groups in Western Europe and the United States had pioneered forms of international rights protection tying the defense of Jews to norms and rules that aspired to curb the worst behavior of rapacious nation states In the wake of the Holocaust and the creation of the State of Israel however Jewish activists discovered they could no longer promote the same norms laws and innovations without fear they could soon apply to the Jewish state Using previously unexamined sources Nathan Kurz examines the transformation of Jewish internationalism from an effort to constrain the power of nation states to one focused on cementing Israel s legitimacy and its status as a haven for refugees from across the Jewish diaspora

Transimperial Anxieties José D. Najar, 2023-06 From the late 1850s to the 1940s multiple colonial projects often in tension with each other influenced the formation of local transimperial and transnational political identities of Arab Ottoman subjects in the eastern Mediterranean and the Western Hemisphere Arab Ottoman men women and their descendants were generally accepted as whites in a racially stratified Brazilian society Local anxieties about color and race among white Brazilians and European immigrants however soon challenged the white racial status the Brazilian state afforded to Arab Ottoman immigrants In *Transimperial Anxieties* Jos D Najar analyzes how overlapping transimperial processes of migration and return community conflicts and social adaption shaped the gendered racial and ethnic identity politics surrounding Arab Ottoman subjects and their descendants in Brazil Upon arrival to the Brazilian Empire Arab Ottoman subjects were referred to as turcos an all encompassing ethnic identity encased in Islamophobia and antisemitism which forced the immigrants to renegotiate their identities in order to secure the possibility of upward mobility and national belonging By exploring the

relationship between race and gender in negotiating international and interimperial politics and law national identity and religion Transimperial Anxieties advances understanding of the local and global forces shaping the lives of Arab Ottoman immigrants and their descendants in Brazil and their reciprocity to state structure *Minority Politics in the Middle East and North Africa* Will Kymlicka, Eva Pförtl, 2018-02-02 Projects of democratic reform in the Middle East and North Africa have said little about the place of minorities and minority rights in their vision of reform implying that these issues are best deferred to some indefinite future While many people describe the Arab Spring as a battle for pluralism there is a reluctance to discuss what this pluralism might actually mean for the political claims of minorities for fear of triggering divisive conflicts and undemocratic tendencies Is there an alternative to this fearful deferral of minority politics Can we imagine transformative minority politics that is a form of minority politics that strengthens democratic reform in the region and that helps deepen a culture of human rights and democratic citizenship This volume explores whether this is indeed a realistic prospect in the Middle East and North Africa examining cases that include the Amazigh in North Africa the Copts in Egypt the Kurds in Iraq the Palestinians in Israel the minoritarian regimes in Syria and Bahrain and various ethnic minorities in Iran This book was originally published as a special issue of Ethnic and Racial Studies *The Middle East* United States. Congress. House. Committee on Foreign Affairs. Subcommittee on Near Eastern and South Asian Affairs, United States. Congress. Senate. Committee on Foreign Relations. Subcommittee on Near Eastern and South Asian Affairs, 1991 Near and Middle Eastern Series , **The Palestinian-Arab Citizens of Israel: Towards the Internationalisation of National Aspirations** Ilham Shahbari, 2021-01-28 The relations between the Israeli state and its Arab citizens have been distorted by the perception that national security concerns require the full rights of citizenship to be restricted for members of the Arab community However the national security of the state can also be affected by a poor reputation in the international community which plays a vital role in sustaining the existence of the state This created a space for Arab intelligentsia to use internationalisation as a means to promote their cause This study is designed to explore and analyse the internationalisation process and its impact regarding the Arab community in Israel It is a beneficial source to academics experts policymakers journalists and other experts and interested members of the public
