Miracle Or Design? Albert Fishlow,1994 **Development Strategies in East Asia and Latin America** Akio

Hosono, Neantro Saavedra-Rivano,1998-07-15 A fresh insight on the unequal impact of development policies in East Asia and Latin America Written by economists and political scientists from Brazil Chile Korea Japan Malaysia and the US chapters share a political economy perspective and are the result of collaborative work coordinated by researchers at the University of Tsukuba Japan In addition to chapters on particular countries and on broad subjects there are three chapters presenting detailed comparisons of pairs of countries Brazil and Korea Indonesia and Mexico Chile and Malaysia **Rethinking**

Development Economics Ha-Joon Chang,2003 Impressive provides a very good compendium of what are usually classified as heterodox development economics an excellent volume Journal of International Development This important new collection tackles the failure of neoliberal reform to generate longterm growth and reduce poverty in many developing and transition economies As dramatically demonstrated in the collapse of the WTO s Seattle talks there is increasing dissatisfaction in both developing and developed countries with the emerging neoliberal global economic order The resignations of Joseph Stiglitz and Ravi Kanbur from the World Bank emphasize that this disillusionment with the orthodoxy now exists at the very heart of the establishment Yet the increasing demand for an alternative to this orthodoxy is not being met Over the last few decades the older generation of development economists have been edged out of most major universities particularly in the USA The situation in most developing countries is even worse although there is more demand for alternatives to orthodox development economics these countries have even less capability to generate such alternatives Rethinking Development Economics is intended to fill this gap It addresses key issues in development economics ranging from macroeconomics finance and governance to trade industry agriculture and poverty Bringing together some of the foremost names in the field this comprehensive and timely collection constitutes a critical staging post in the future of development economics *Learning from the Asian Tigers* Sanjaya Lall,1996-11-04 This is a collection of papers on

industrial policy the role of governments in promoting industrial development and the particular significance of technology development Two essays deal with the general debate on industrial policy and the nature of technology development two are critical appraisals of the World Bank s approach to the debate on governments and markets four are case studies of policy making on aspects of industrialisation three in Asia and one in Africa **Industrial Policy in the Middle East and North**

Africa Ahmed Galal,2008-04-01 Most governments in the Middle East and North Africa MENA region use trade policy to protect certain industries provide tax incentives to promote a particular type of investment and make subsidized credit available to firms of a certain size Such government intervention known as industrial policy is the topic of this book The aim is to assess whether state intervention leads to net benefits to society why policymakers intervene and how to bring about a healthier balance between states and markets Answers to these questions are given in six chapters based on research papers

that were presented at a conference held in Cairo in November 2005 and include case studies on Egypt Morocco Turkey and Jordan Contributors Hasan Ersel Ahmed Galal Najib Harabi Nihal El Megharbel Mustapha Nabli and Marcus Noland An Egyptian Center for Economic Studies World Bank Publication

Corruption and the Global Economy Kimberly Ann Elliott, 1997 The recently adopted OECD convention outlawing bribery of foreign public officials is welcome evidence of how much progress has been made in the battle against corruption The financial crisis in East Asia is an indication of how much remains to be done Corruption is by no means a new issue but it has only recently emerged as a global issue With the end of the Cold War the pace and breadth of the trends toward democratization and international economic integration accelerated and expanded globally Yet corruption could slow or even reverse these trends potentially threatening economic development and political stability in some countries As the global implications of corruption have grown so has the impetus for international action to combat it In addition to efforts in the OECD the Organization of American States the World Trade Organization and the United Nations General Assembly the World Bank and the International Monetary Fund have both begun to emphasize corruption as an impediment to economic development This book includes a chapter by the Chairman of the OECD Working Group on Bribery discussing the evolution of the OECD convention and what is needed to make it effective Other chapters address the causes and consequences of corruption including the impact on investment and growth and the role of multinational corporations in discouraging bribery The final chapter summarizes and also discusses some of the other anticorruption initiatives that either have been or should be adopted by governments multilateral development banks and other international organizations Millennium

Corruption and Government Susan Rose-Ackerman,1999-06-28 How high levels of corruption limit investment and growth can lead to ineffective government

Industry Policy in Taiwan and Korea in the 1980s Heather Smith,2000-01-01 This is a very good piece of research As a book it is important because it focuses on important conceptual and empirical issues namely the role of government and industrial policy in promoting rapid economic growth and particularly the case of Taiwan as an exemplar of rapid industrial development The author convincingly refutes the view that sector specific industrial policy was an important source of Taiwan s rapid industrial growth in the 1980s Hugh T Patrick Columbia University US Dr Smith takes Taiwan and Korea as case studies to address fundamental questions concerning the rapid growth and subsequent financial crisis in East Asia were the Taiwan and Korean governments interventionist in the 1980s did industry policy play a role in the financial crisis of 1997 1998 Heather Smith has put together a comprehensive discussion of strategic industry policy She analyses at length the fascinating connection between the growth of the chaebol in Korea its links to the government and to the financial sector and the unravelling of the financial crisis in Korea Her analysis throws light on the fundamental strength that Taiwan has shown throughout the crisis These are fascinating and important questions vital to the economics profession and of interest to the enormous contingent of economic commentators following the East Asian crisis Ron Duncan Australian National University Australia The growth in global competitiveness and interdependence has led to an increased interest in the role of industrial policy in achieving economic growth objectives Heather Smith reignites the contentious debate of the role of the state using East Asian economic development in general

with particular emphasis on Taiwan and Korea Using quantitative techniques the author analyses the view that industry policy interventions were a necessary factor explaining Taiwan's economic performance in the 1980s *Economic and Social Development Into the XXI Century* Louis Emmerij, 1997 What new directions will development take in the next century A distinguished group of experts on economic development debated this question in late 1996 Their views of the emerging development consensus are presented in *Economic and Social Development into the XXI Century* The authors give special attention to developing countries in Latin America and East Asia Analyzing the growth of certain East Asian economies they ask what can be emulated state engineered industrial policies an export push better initial income distribution fiscal incentives to promote corporate growth the region's successful land reform efforts or the commitment to better education While agreeing that equity is a major determinant of economic success they differ regarding how to achieve it

Multilateral Institutions Morten Bøås, Desmond McNeill, 2003-02-20 In recent years a great deal of public attention has been focussed on multilateral institutions such as the World Bank IMF and WTO This book offers students practitioners and activists a critical guide to these and other major institutions the Regional Development Banks and UNDP that make up the multilateral development system It analyses how they operate with respect to financing and lending the various roles that they play and related changes in their policy concerns such as structural adjustment sustainable development and governance The emphasis is on politics within and also between multilateral institutions analysing the relations both competitive and collaborative between for example the World Bank and UNDP NGOs are also shown to be important actors and the role they have played in recent years is critically assessed The book concludes with some emerging trends the privatisation of the system regionalisation and the politics of protest Bøås and McNeill do not simply take the policies of multilateral institutions at face value but ask how and why these policies came into existence They seek to promote critical but informed engagement both with the member states of multilateral institutions and the institutions themselves

Asia-Pacific Raymond Frederick Watters, T. G. McGee, Ginny Sullivan, 1997 The great processes reshaping our world today can be summed up by the term globalisation Together with the communications revolution and massive urbanisation it is reshaping the organisation of global space It is illustrated by technological change pronounced economic growth the dominance of giant corporations ever more open markets and universal consumption Dramatic developments have occurred in Asia Pacific trade investment labour movements and political cooperation marked for example by APEC a giant free trade area designed to encompass about 60% of the world's population and half the world's economy But the processes also create social tension political reaction and local resistance as a result of regional restructuring widening regional disparities the neglect of backward areas or imposed modernisation Asia Pacific New Geographies of the Pacific Rim written by leading scholars from the region examines the extent to which Pacific Rim economies especially East Asia and Southeast Asia are increasingly integrated and considers the economic political and cultural forces at work In the process many

new geographies are being created or reconstructed. At the same time the local/global dialectic whereby local forces react to, negotiate with, resist or capitulate to global forces is examined. Part I analyses globalisation and the emergence of sub-global regions. Part II the processes of change in Asia Pacific and Part III the national responses to globalisation. Part IV addresses local reactions to global forces: resistance, negotiations or capitulation. Finally the editors enumerate the challenges to the region which centre on the crucial need to manage this era of globalisation so that sustainable societies can continue. This vast region needs careful management of globalisation in which the forces of free trade and economic growth are the central determinants. For the time being these forces seem to be in the ascendant.
