**A Miracle in Stone - The Great Pyramid** Joseph A. Seiss, 2020-09-28 Still one of the largest pieces of architecture ever constructed the Great Pyramid has long been the subject of wonder as to when it was built by whom and most importantly why The conventional explanation is that it was built during the reign of the Pharaoh Khufu by skilled Egyptian laborers as a funerary monument In the 19th century in the absence of hard information other than detailed studies of its dimensions a whole class of speculation grew up which has been called pyramidology The pyramidologists came to believe that the Great Pyramid encoded advanced knowledge of the physical universe and the course of human history This book is one of the primary texts of pyramidology THIS book is meant to give a succinct comprehensive account of the oldest and greatest existing monument of intellectual man particularly of the recent discoveries and claims with regard to it If the half that learned and scientific investigators allege respecting the Great Pyramid of Gizeh be true it is one of the most interesting objects on earth and ought to command universal attention It has been unhesitatingly pronounced and perhaps it is the most important discovery made in our day and generation Simply as an architectural achievement this mysterious pillar from the time of Alexander the Great has held its place at the head of the list of The Seven Wonders of the World But under the researches and studies of mathematicians astronomers Egyptologists and divines it has of late been made to assume a character vastly more remarkable Facts and coincidences so numerous and extraordinary have been evolved that some of the most sober and philosophic minds have been startled by them It would verily seem as if it were about to prove itself a sort of key to the universe a symbol of the profoundest truths of science of religion and of all the past and future history of man So at least many competent persons have been led to regard it after the most thorough sifting which the appliances of modern science and intelligence have been able to give it
