*The End of Meaning* William A. Sikes, 2024-04-04 Towards the end of the twentieth century, books proclaiming the closing of America's mind, the collapse of her communities, and the end of her art, literature, education, and more began appearing with regularity. The underlying theme in all such works is the loss of those experiences that give our lives meaning. In *The End of Meaning: Cultural Change in America Since 1945*, readers learn to recognize these experiences, realize how prominent they were in the postwar period (c. 1945-65), understand the forces that have brought about their extraordinary decline in our families and communities, universities, and religious institutions, films, and popular music, fine arts, labor, and more, and realize the implications of this loss for our society and our humanity. In doing so, the book provides a way of thinking about a vital subject, one which, despite its enormous importance, has never been examined in a broad and systematic way capable of generating real understanding, discussion, and debate.

**Literary Treks** Mary Ellen Snodgrass, 2003 Offering a wealth of maps and geographic routes for 28 books, this guide illustrates how to teach with literary maps, taking students on a journey through real and imaginary terrains. Entries span a range of genres and literary formats, including novels, dramas, and diaries; each follows a book's protagonist through space and time, covering places visited as well as historical figures, customs, cultures, and events. Geographic summaries, itemized itineraries, and detailed maps help students trace each character's journey and comprehend the geographic scale of action. As a prelude to reading, the maps can help disadvantaged readers better understand the stories and settings of a book, which will significantly enhance any student's reading experience. Instruction on marking maps with notes and arrows will help students prepare for college-level classes as they organize their work, simplify confusing elements, outline chronology, and incorporate additional reading and research.

In *After WW3 Anthology* the literary maestro Edgar Allan Poe curates a foreboding collection of the most compelling dystopian and post-apocalyptic narratives ever composed. This compendium features masterworks that through their allegorical and prophetic nature challenge the reader's perception of society's trajectory. Within these pages lie the dark reflections of human nature and the cautionary contemplations on governance from seminal authors such as George Orwell, Aldous Huxley, and H. G. Wells. Written in diverse literary styles, this anthology provides a haunting mosaic of possible futures defined by authoritarianism, dehumanization, and societal collapse. Poe's inclusion of his own piece, *The Conversation of Eiros and Charmion*, enriches the anthology with his distinctive gothic undertone and piercing insight. Edgar Allan Poe, celebrated for his macabre and psychological works, continues to command admiration through his ability to conjure atmospheres fraught with tension and mystery. It is this prowess that positions him as an apt curator for such a collection. The themes explored within these narratives resonate with his own fascination with the dark and the disastrous, steering his posthumous editorship with an insightful and kindred spirit. The prescient nature of the works selected by Poe in *After WW3 Anthology* further demonstrates his understanding of societal fears and political narratives that endure across centuries. *After WW3 Anthology* is an essential volume for both aficionados of the dystopian genre and newcomers alike. Its chilling prophecies and profound messages provide insight into the constancy of human anxiety about future worlds. Readers are invited to delve into a tapestry of cautionary tales that reveal as much about the strengths and frailties of the human condition as they do about the perils of power and corruption. Poe's anthology offers a comprehensive journey into the spectral visions of humanity's possible destinies, prompting contemplation and discourse in equal measure.
