Oxford Classics Teaching And Learning 1800 :

Oxford Classics ,2013-12-12 Oxford the home of lost causes the epitome of the world of medieval and renaissance learning in Britain has always fascinated at a variety of levels social institutional cultural Its rival Cambridge was long dominated by mathematics while Oxford s leading study was Classics In this pioneering book 16 leading authorities explore a variety of aspects of Oxford Classics in the last two hundred years curriculum teaching and learning scholarly style publishing gender and social exclusion and the impact of German scholarship Greats Literae Humaniores is the most celebrated classical course in the world here its early days in the mid 19th century and its reform in the late 20th are discussed in the latter case by those intimately involved with the reforms An opening chapter sets the scene by comparing Oxford with Cambridge Classics and several old favourites are revisited including such familiar Oxford products as Liddell and Scott s Greek English Lexicon the Oxford Classical Texts and Zimmern s Greek Commonwealth The book as a whole offers a pioneering wide ranging survey of Classics in Oxford

Teaching Classics with Technology ,2019-06-13 The impact of ICT on the teaching of classical languages literature and culture has not until now been extensively described and evaluated Nevertheless educational technology has made a huge difference to the ways in which Classics is taught at junior senior and college level The book brings together twenty major approaches to the use of technology in the classroom and presents them for a wide international audience It thus forms a record of current and developing practice promotes further discussion and use among practitioners teachers learners and trainers and offers suggestions for changes in pedagogical practices in the teaching of Classics for the better The many examples of practice from both UK and US perspectives are applicable to countries throughout the world where Classics is being taught The more traditional curricula of high school education in the UK and Europe are drawing more and more on edutech whereas educational jurisdictions in the US are increasingly expecting high school students to use ICT in all lessons with some actively dissuading schools from using traditional printed textbooks This book presents school teachers with a vital resource as they adapt to this use of educational technology in Classics teaching This is no less pertinent at university level in the UK and US where pedagogy tends to follow traditionalist paradigms this book offers lecturers frameworks for understanding and assimilating the models of teaching and learning which are prevalent in schools and experienced by their students

The Oxford History of Classical Reception in English Literature David Hopkins,Charles Martindale,Norman Vance,Rita Copeland,Patrick Cheney,Jennifer Wallace,Philip R. Hardie,2012 The Oxford History of Classical Reception OHCREL is designed to offer a comprehensive investigation of the numerous and diverse ways in which literary texts of the classical world have stimulated responses and refashioning by English writers Covering the full range of English literature from the early Middle Ages to the present day OHCREL both synthesizes existing scholarship and presents cutting edge new research employing an international team of expert contributors for each of the five volumes OHCREL endeavours to interrogate rather than inertly reiterate conventional

assumptions about literary periods the processes of canon formation and the relations between literary and non literary discourse It conceives of reception as a complex process of dialogic exchange and rather than offering large cultural generalizations it engages in close critical analysis of literary texts It explores in detail the ways in which English writers engagement with classical literature casts as much light on the classical originals as it does on the English writers own cultural context This fourth volume and second to appear in the series covers the years 1790 1880 and explores romantic and Victorian receptions of the classics Noting the changing fortunes of particular classical authors and the influence of developments in archaeology aesthetics and education it traces the interplay between classical and nineteenth century perceptions of gender class religion and the politics of republic and empire in chapters engaging with many of the major writers of this period Learning Latin and Greek from Antiquity to the Present Elizabeth P. Archibald, William

Brockliss, Jonathan Gnoza, 2015-02-26 This volume provides a unique overview of the complete histories of Latin and Greek as second languages **Classical Scholarship and Its History** Stephen Harrison, Christopher Pelling, 2021-04-06 It is

unusual for a single scholar practically to reorient an entire sub field of study but this is what Chris Stray has done for the history of UK classical scholarship His remarkable combination of interests in the sociology of scholars and scholarship in the history of the book and of publishing and especially in the detailed intellectual contextualisation of classical scholarship as a form of classical reception has fundamentally changed the way the history of British classics and its study is viewed A generation ago the history of classical scholarship still consisted largely of accounts of particular scholars and groups of scholars written by other scholars from a broadly biographical and heroic individual perspective In these works scholars often sought to find their own place in the great tradition choosing to praise or blame those whose work they admired or deprecated and to identify with particular schools or trends and there were few attempts to provide a broader and less prosopographical perspective Almost all the chapters in the volume originated as papers at a conference in honour of the honorand and have been improved both by discussion there and by the rigorous peer review process conducted by the two experienced editors It covers various aspects of classical reception with a particular focus on the history of scholars their institutions and their writings the main focus is on the UK but there are also substantial engagements with continental Europe and especially the USA the period covered runs from the Renaissance to the present The cast contains a number of world famous names Unusually the volume also contains an essay by the honorand but we are very keen to include this especially as it focusses on the topic of scholarly collaboration **What Is Ancient History?** Walter Scheidel, 2025-04-22

From one of today s most innovative ancient historians a provocative new vision of why ancient history matters and why it needs to be told in a radically different global way It s easy to think that ancient history is well ancient history obsolete irrelevant unjustifiably focused on Greece and Rome and at risk of extinction In *What Is Ancient History* Walter Scheidel presents a compelling case for a new kind of ancient history a global history that captures antiquity s pivotal role as a

decisive phase in human development one that provided the shared foundation of our world and continues to shape our lives today For Scheidel ancient history is when the earliest versions of today s ways of life were created and spread from farming mining and engineering to housing and transportation cities and government writing and belief systems Transforming the planet this process unfolded all over the world in Eurasia Africa and the Americas often at different times sometimes haltingly but ultimately unstoppably Yet it s rarely studied or taught that way Since the eighteenth century Western intellectuals have dismembered the ancient world driven not only by their quest for professional expertise but also by nationalism colonialism racism and the idealization of Greece and Rome Specialized scholarship has fractured into numerous academic niches obscuring broader patterns and dynamics and keeping us from understanding just how much humanity has long had in common The time has come Scheidel argues to put the ancient world back together by moving beyond the limitations of Greco Roman classics by systematically comparing ancient societies and by exploring early exchanges and connections between them The time has come in other words for an ancient history for everyone **Ark of Civilization**

Sally Crawford,Katharina Ulmschneider,Jaś Elsner,2017-03-02 In the opening decades of the twentieth century Germany was at the cutting edge of arts and humanities scholarship across Europe However when many of its key thinkers leaders in their fields in classics philosophy archaeology art history and oriental studies were forced to flee to England following the rise of the Nazi regime Germany s loss became Oxford s gain From the mid 1930s onwards Oxford could accurately be described as an ark of knowledge of western civilization a place where ideas about art culture and history could be rescued developed and disseminated freely The city s history as a place of refuge for scientists who were victims of Nazi oppression is by now familiar but the story of its role as a sanctuary for cultural heritage though no less important has received much less attention In this volume the impact of Oxford as a shelter a meeting point and a centre of thought in the arts and humanities specifically is addressed by looking both at those who sought refuge there and stayed and those whose lives intersected with Oxford at crucial moments before and during the war Although not every great refugee can be discussed in detail in this volume this study offers an introduction to the unique conjunction of place people and time that shaped Western intellectual history exploring how the meeting of minds enabled by libraries publishing houses and the University allowed Oxford s refugee scholars to have a profound and lasting impact on the development of British culture Drawing on oral histories previously unpublished letters and archives it illuminates and interweaves both personal and global histories to demonstrate how for a short period during the war Oxford brought together some of the greatest minds of the age to become the custodians of a great European civilization **Sex** Daniel Orrells,2015-04-30 Sex is fundamental to society We cannot think about politics power identity or culture without also thinking about sexuality Despite this the scientific study of sexual behaviour is a relatively recent phenomenon Doctors legal experts and other intellectuals have all pondered challenging questions in an attempt to stay abreast of the latest sexual research How might we separate talking about sex scientifically

from discussing and consuming pornography How do we speak objectively about desire and pleasure And how do the words that we use to talk about sex affect what we are able to say about it Such questions increasingly inform public discourse across a variety of media Showing how ancient words and ideas have left a significant imprint on present day ideas about sex Daniel Orrells offers a bold new narrative of how the scientific study of sexuality came into being Uncovering the intriguing story of how the obscene and erotic verse of Roman epigram and love poetry became the sanitised language of nineteenth century sexual science this divertingly readable book demonstrates how the reception of both Latin and Greek texts was central to the development of modernmsexology and psychoanalysis Ranging from Sappho Catullus and Martial to Michel Foucault Richard von Krafft Ebing and Sigmund Freud the author reveals just how profoundly classics has shaped the landscape of sexual identity that we inhabit today *Women Writers and the Dark Side of Late-Victorian Hellenism* T.

Olverson,2009-11-19 Examining the appropriation of transgressive violent female figures from ancient Greek literature and myth by late Victorian writers Olverson reveals the extent to which ancient antagonists like the murderous Medea and the sinister Circe were employed as a means to protest against and comment upon contemporary social and political institutions

Stand in the Trench, Achilles Elizabeth Vandiver,2010-02-18 A study of the ways in which British poets of the First World War used classical literature culture and history as a source of images ideas and even phrases for their own poetry Elizabeth Vandiver offers a new perspective on that poetry and on the history of classics in British culture **Student Revolt, City,**

and Society in Europe Pieter Dhondt,Elizabethanne Boran,2017-07-06 This edited collection studies the role of students as a critical mass within their urban context and society through examples of student revolts from the foundation period of universities in the Middle Ages until today covering the whole European continent A dominant theme is the large degree of continuity visible in student revolts across space and time especially concerning the rebellious attitudes of and criticisms directed towards students **Herodotus in the Long Nineteenth Century** Thomas Harrison,Joseph Skinner,2020-03-26

Explores the many different ways in which Herodotus Histories were read and understood during a momentous period of world history **African Americans and the Classics** Margaret Malamud,2019-01-24 A new wave of research in black classicism has emerged in the 21st century that explores the role played by the classics in the larger cultural traditions of black America Africa and the Caribbean Addressing a gap in this scholarship Margaret Malamud investigates why and how advocates for abolition and black civil rights both black and white deployed their knowledge of classical literature and history in their struggle for black liberty and equality in the United States African Americans boldly staked their own claims to the classical world they deployed texts ideas and images of ancient Greece Rome and Egypt in order to establish their authority in debates about slavery race politics and education A central argument of this book is that knowledge and deployment of Classics was a powerful weapon and tool for resistance as improbable as that might seem now when wielded by black and white activists committed to the abolition of slavery and the end of the social and economic oppression of free blacks The

book significantly expands our understanding of both black history and classical reception in the United States *Sparta* Stephen Hodkinson, Anton Powell, 2008-12-31 This is the 7th volume from the International Sparta Seminar in the series begun in 1989 by Anton Powell with Stephen Hodkinson The volume is both thematic and eclectic Ephraim David and Yoann Le Tallec treat respectively the politics of nudity at Sparta and the role of athletes in forming the Spartan state Nicolas Richer examines the significance of animals depicted in Lakonian art Andrew Scott asks what Lakonian figured pottery reveals of local consumerism Nino Luraghi and Paul Christesen deal respectively with the way in which Sparta was viewed by Messenians and by Ephorus Jean Ducat treats the ghost of the Lakedaimonian state a major study of formal relations between Spartiate and perioikic communities Thomas Figueira considers how Spartan women policed masculine behaviour Anton Powell traces the development of Spartan reactions to political divination in the classical period **History of Universities** Mordechai Feingold, 2009-10-29 Volume XXIV of History of Universities contains the customary mix of learned articles book reviews and bibliographical information which makes this publication such an indispensable tool for the historian of higher education Its contributions range widely geographically chronologically and in subject matter **Mark Challenges the Aeneid** Floyd E. Schneider, 2019-12-13 Most scholars believe that Mark wrote his Gospel to the Romans True but in addition to presenting the Gospel to the Romans Mark actually contextualized his Gospel by challenging the leading propaganda of his day Virgil's Aeneid The Roman poet Virgil wrote his masterpiece epic poem the Aeneid to promote the myth that Caesar Augustus was the son of god The Aeneid went viral almost immediately upon publication in 19 BC becoming Rome's premier piece of propaganda that promoted Augustus as the emperor who would bring peace to the world Within the first century the Aeneid reached from Masada to northern Britain and became a foundational piece of Roman education Mark's mother Mary and his uncle Joseph Barnabas raised him in wealth and educated him in the four languages of Hebrew Aramaic Greek and Latin They drew him to Jesus and Barnabas took Mark on the first missionary journey Mark spent time with Peter in Rome where Mark wrote his Gospel in Greek Mark most certainly had direct access to the most influential piece of Latin literature the Aeneid and he wrote his masterpiece Gospel comparing Augustus with Jesus the true Son of God **Conservatism and the Quarterly Review** Jonathan Cutmore, 2015-10-06 In its time the Quarterly Review was thought to closely reflect government policy however the essays in this volume reveal that it was inconsistent in its support of government positions and reflected disagreement over a broad range of religious economic and political issues Gilbert and Sullivan Carolyn Williams, 2012 An examination of Gilbert and Sullivan's comic operas and how parody was used in the culture wars of late nineteenth century England Oscar Wilde and Ancient Greece Iain Ross, 2013 Oscar Wilde's imagination was haunted by ancient Greece this book traces its presence in his life and works World Philology Sheldon Pollock, Benjamin A. Elman, Ku-ming Kevin Chang, 2015-01-05 Philology the discipline of making sense of texts is enjoying a renaissance within academia World Philology charts the evolution of philology across the many cultures and time periods in

which it has been practiced and demonstrates how this branch of knowledge like philosophy and mathematics is essential to human understanding

Oxford Classics Teaching And Learning 1800 Introduction

In the digital age, access to information has become easier than ever before. The ability to download Oxford Classics Teaching And Learning 1800 has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Oxford Classics Teaching And Learning 1800 has opened up a world of possibilities. Downloading Oxford Classics Teaching And Learning 1800 provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Oxford Classics Teaching And Learning 1800 has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Oxford Classics Teaching And Learning 1800 . These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Oxford Classics Teaching And Learning 1800 . Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Oxford Classics Teaching And Learning 1800 , users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites

they are downloading from. In conclusion, the ability to download Oxford Classics Teaching And Learning 1800 has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Oxford Classics Teaching And Learning 1800 Books

1. Where can I buy Oxford Classics Teaching And Learning 1800 books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Oxford Classics Teaching And Learning 1800 book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
