1. Provide care for any conditions found

- If vital checks reveal signs or symptoms of an injury or illness, call 9-1-1 or the designated emergency number or transport the person care according to the conditions that you find and your level of knowledge and training. Be alert to signs that the person's condition is worsening.

- Interview bystanders (using Bystander as a guide) and ask if there is anything to gather more information.
- Place the person into the recovery position for rolling the person onto their left side.

3. If the person does not respond and is not breathing or is only gasping

- Assist someone to call 9-1-1 or the designated emergency number and to obtain an AED and first aid kit (if you are alone, complete these actions yourself).
