**Hedayat's Blind Owl as a Western Novel** Michael Beard, 2014-07-14 The Iranian writer Sadeq Hedayat is the most influential figure in twentieth century Persian fiction and the object of a kind of cult after his suicide in 1951 His masterpiece The Blind Owl is the most important novel of modern Iran Its abrupt tortured opening sentence There are sores which slowly

erode the mind in solitude like a kind of canker is one of the best known and most frequently recited passages of modern Persian But underneath the book's uncanniness and its narrative eccentricities Michael Beard traces an elegant pastiche of familiar Western traditions A work of advocacy for a disturbing and powerful piece of fiction his comprehensive analysis reveals the significance of *The Blind Owl* as a milestone not only for Persian writing but also for world literature The international decentered nature of modernist writing outside the West typified by Hedayat's European education and wide reading in the Western canon suggested to Beard the strategy of assessing *The Blind Owl* as if it were a Western novel Viewed in this context Hedayat's intricate chronicle challenges the very notion of a national literature rethinking and reshaping our traditions until we are compelled through its eyes to see them in a new way Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *From Ritual to Romance and Beyond* Manfred Schmeling, Hans-Joachim Backe, 2011

understanding the global merging of cultures As such it is a real shame to see that the general interest in this unique and fascinating area has arisen not thanks to such highly positive features but because as Pope Francis says it has become an open air cemetery where thousands of people keep drowning The multifaceted approach to this topic has resulted in the book being divided into four sections covering the following thematic areas Literature History Culture and Identity Woody David Evanier,2015-11-03 Woody Allen is not only one of the great movie directors but one of the foremost creative artists of our time In over forty five movies from Annie Hall to Midnight in Paris and through a career that s included stand up play writing screenwriting directing and acting Woody has evolved more than reinvented himself In the first biography of Allen in over twenty years David Evanier writes about Allen s private life as well as his very public career He untangles fact from rumor about Allen s relationship with Mia Farrow as well as the great scandals that surfaced in the 1990s and recently resurfaced and makes thoughtful connections between Allen s romantic relationships and the characters in his movies In fresh interviews with collaborators boyhood pals family and friends Evanier fills in fascinating details about where Woody came from how he got his start and how he has been able to be moral in his business dealings and make exactly the movies that interest him most with the people who interest him most from Diane Keaton to Cate Blanchett to Michael Caine Even the closest Allen watcher will be riveted by Evanier s rich portrait detailed but sweeping Woody is the biography of an artist who has never lost his passion talent and capacity to break new artistic ground who has always been swept up in the creative act of becoming **Flop Musicals of the Twenty-First Century** Stephen Purdy,2021-09-12 Flop Musicals of the Twenty First Century offers a provocative and revealing historical narrative of a group of musicals that cost millions and had spectacular potential but bombed anyway Stephen Purdy examines at length the production histories which are all bound together by a common thread The book focuses the lens on several seemingly infallible theatre creatives who weren t destined to repeat their successes with the shows discussed in this volume As such Purdy grounds the discussion by examining what the legendary creators of Les Mis rables pop superstar Elton John wunderkind Julie Taymor and many others have in common besides being inspired storytellers of iconic Broadway musicals The answer is that they also all created shows that for one reason or a dozen didn t find an audience Flop Musicals of the Twenty First Century shares the story of what can happen when formidable creative teams of sell out musicals attempt to re create their success but miss the mark This is an engaging book for students practitioners and fans of musical theatre that contains thoughtful observations about luck and creative differences botched adaptations and alienated audiences all of which can determine the fate of a musical Handbook of the Sociology of Gender Barbara J. Risman,Carissa M. Froyum,William J. Scarborough,2018-06-05 This handbook provides a comprehensive view of the field of the sociology of gender It presents the most important theories about gender and methods used to study gender as well as extensive coverage of the latest research on gender in the most important areas of social life including gendered bodies sexuality carework paid labor social movements incarceration migration gendered violence and

others Building from previous publications this handbook includes a vast array of chapters from leading researchers in the sociological study of gender It synthesizes the diverse field of gender scholarship into a cohesive theoretical framework gender structure theory in order to position the specific contributions of each author chapter as part of a complex and multidimensional gender structure Through this organization of the handbook readers do not only gain tremendous insight from each chapter but they also attain a broader understanding of the way multiple gendered processes are interrelated and mutually constitutive While the specific focus of the handbook is on gender the chapters included in the volume also give significant attention to the interrelation of race class and other systems of stratification as they intersect and implicate gendered processes

*The Borzoi Anthology of Latin American Literature: Twentieth century, from Borges and Paz to Guimarães Rosa and Donoso* Emir Rodríguez Monegal, Thomas Colchie, 1977 A comprehensive anthology including historical and critical as well as biographical commentary on each writer's work and on each major period in the literature as a whole Professor Monegal has organized this gigantic anthology which reaches from the time of Christopher Columbus to our own decade on the premise that Latin American literature is more an idea than an actuality simply because Latin America itself has never achieved cultural integration True enough as the reader of any daily newspaper might guess but Monegal goes further His selections demonstrate that it wasn't until the middle of the 19th century when a late blooming variety of European Romanticism combined with newly achieved Latin American political independence that the intention of a Latin American literature was even conceived Then the letters and journals of Vespucci Bernal Diaz and their fellow explorers and conquistadors with their Renaissance insistence on the fabulous came to serve as a source for the continental vision of men like Andres Bello Ruben Dario and Jose Enrique Rodo Independence movements also produced political divisiveness and a backwater brand of literary realism that prevailed for decades but in spite of this the tendency of Latin American literature has been toward the marvelous and the formally experimental and its most compelling metaphor from Esteban Echeverria to Jorge Luis Borges and Gabriel Marquez has been that of discovery
