*Women, Horse Sports and Liberation* Erica Munkwitz, 2021-07-13 Shortlisted for the 2022 Lord Aberdare Literary Prize This book is the first full length scholarly examination of British women s involvement in equestrianism from the eighteenth through the

twentieth centuries as well as the corresponding transformations of gender class sport and national identity in Britain and its Empire It argues that women s participation in horse sports transcended limitations of class and gender in Britain and highlights the democratic ethos that allowed anyone skilled enough to ride and hunt from chimney sweep to courtesan Furthermore women s involvement in equestrianism reshaped ideals of race and reinforced imperial ideology at the zenith of the British Empire Here British women abandoned the sidesaddle which they had been riding in for almost half a millennium to ride astride like men thus gaining complete equality on horseback Yet female equestrians did not seek further emancipation in the form of political rights This paradox of achieving equality through sport but not through politics shows how liberating sport was for women into the twentieth century It brings into question what emancipation meant in practice to women in Britain from the eighteenth through twentieth centuries This is fascinating reading for scholars of sports history women s history British history and imperial history as well as those interested in the broader social gendered and political histories of the nineteenth and twentieth centuries and for all equestrian enthusiasts

**Improving Gender Equity in Sports Coaching** Leanne Norman, 2021-08-12 The sport coaching profession has historically been and continues to be a White male dominated occupation and this remains a global issue This imbalance persists despite an improvement in wider social attitudes and legislation towards equality and diversity within many societies and despite the action by sporting organisations and national governing bodies Within the research literature the underrepresentation of women in sport coaching is a well documented issue with a number of research studies highlighting the experiences and impact of being in the minority for women coaches The issue of gender inequity in sport coaching is a long standing one and shows little sign of changing significantly anytime soon Therefore a new approach is needed one that draws on the knowledge and evidence we have to create actionable sustainable deep rooting interventions that challenge the issue of gender equity at its very core The overall purpose of Improving Gender Equity in Sports Coaching is to take an action or forward thinking approach about what works or could work to improve the recruitment development or promotion of women sport coaches The book brings together a global group of esteemed scholars working in this subject area In this book we have brought together not just the insight but also a collection of strategies and recommendations as to how this research could be or has been utilised to make our sport coaching environment places where all coaches feel as though they belong As such this ground breaking book is a must read not just for students and researchers of gender equity in sport but also for policy and decision makers working in sport
