fell apart and a restructuring was needed Within this process of restructuring the port of Amsterdam acquired a function radically different to the one it had prior to the division of the Netherlands Before the Revolt it had served as the northern outpost in a gateway system centred on Antwerp but with access of that port now denied to the new republic Amsterdam developed as the main centre for Dutch shipping trade and crucially the exchange of information Drawing on a wide variety of neglected archival collections including those of the Bank of Amsterdam this study not only addresses specific historical questions concerning the commercial life of the Low Countries but through the case study of Amsterdam also explores wider issues of early modern European commercial trade and economic development Aardrijkskundig en statistisch woordenboek van Nederlandsch Indie, bewerkt naar de jongste en beste berigten ,1869 **Verslag van den vijfden tocht van de Willem Barents naar de Noordelijke Yssee in den zomer van 1882, uitgebracht aan het bestuur der Vereeniging Willem Barents** ,1883 *Het aandeel der Nederlanders in de ontdekking van Australië, 1606-1765* Jan Ernst Heeres,1899 **Aandeel Der Nederlanders in de Ontdekking Van Australie 1606-1765** Jan Ernst Heeres,1899 Published by the Royal Dutch Geographical Society in commemoration of the XXVth anniversary of its foundation Dutch and English on opposite pages Includes index **Bedenkingen op de uitkomsten van wetenschap en ervaring** Marin Henri Jansen,1855 Handleiding met woordenboek tot de beoefening der Madoereesche taal W.
