Om Mens En Menselijkheid In Maatschappij En Politiek:

Protestant Theology and Modernity in the Nineteenth-Century Netherlands Arie L. Molendijk, 2021-12-24

Protestant Theology and Modernity in the Nineteenth Century Netherlands examines how Dutch Protestant thinkers and theologians met the challenges of the rapidly modernizing world around them. It shows that the nineteenth century saw theology fundamentally transformed and reinvented in a variety of ways. Enlightenment values were fiercely attacked by orthodox Pietists but embraced by modern theologians. Positions were not fixed and theologians had to work hard to maintain their intellectual integrity. Jewish Isaac da Costa converted to Christianity and fulminated against the Zeitgeist. Allard Pierson, who in his youth had been under the spell of Da Costa, resigned from his ministry and adopted an agnostic stance. Abraham Kuyper modernized theology and politics by laying the foundations of pillarization, the segmented social structures based on differences in religion and worldview of Dutch society. Abraham Kuenen revolutionized the study of the Old Testament and Protestant theologians made ground-breaking contributions to the emerging science of religion. This book used in-depth studies of a small number of significant and influential Protestant thinkers to analyse how they addressed specific modern transformation processes such as political modernization, the pluralization of world views and the emergence of critical historical scholarship. It also considers the significant Dutch contribution to the historical critical study of the Bible and the emergence of the modern comparative study of religion.

Assisting the Invisible Hand W. Dubbink, 2013-03-09. This is an investigation into contemporary thinking on controlling the market, especially with regard to the problem of dealing with environmental issues. The book contributes to contemporary insight by arguing that the issue of market control must be addressed in terms of the relations between state, market and civil society. It stresses the normative dimensions of the market control issue. The position adopted by the book is that the market cannot be controlled by the state alone.

De roman in de negentiende eeuw Toos Streng, 2020-06-11. Aan het begin van de negentiende eeuw zagen geleerden de roman als een nieuwkomer. De opkomst van het genre werd dan ook met wantrouwen gevolgd. Sommige nieuwe romans bleken geschikt als tijdverdrijf, maar de meeste waren ronduit gevaarlijk. Pas in de loop van de negentiende eeuw werd de roman een volwaardig lid van de letterkundige familie. Toos Streng beschrijft de verandering van status, inhoud en vorm van de roman in samenhang met sociale en politieke opvattingen en ontwikkelingen in het boekenvak. Strengs omvangrijke en baanbrekende literaire en boekhistorische onderzoek leidt tot een nieuw beeld van de negentiende eeuw. Haar boek is een standaardwerk dat decennialang gezaghebbend zal blijven.
